In Killing Hope, William Blum, author of the bestselling Rogue State: A Guide to the World's Only Superpower, provides a devastating and comprehensive account of America's covert and overt military actions in the world, all the way from China in the 1940s to the invasion of Iraq in 2003 and - in this updated edition - beyond. Is the United States, as it likes to claim, a global force for democracy? Killing Hope shows the answer to this question to be a resounding 'no'.

25 Years of Buell

Traces the author's Pacific Coast motorcycle trek from Alaska to the far end of Argentina, a journey during which she shared whimsical misadventures with a series of fellow bikers, bribed her way through Central America, and spent a night in a Mexican brothel. 20,000 first printing.

Suspension is probably the most misunderstood aspect of motorcycle performance. This book, by America's premier suspension specialist, makes the art and science of suspension tuning accessible to professional and backyard motorcycle mechanics alike. Based on Paul Thede's wildly popular Race Tech Suspension Seminars, this step-by-step guide shows anyone how to make their bike, or their kid's, handle like a pro's. Thede gives a clear account of the three forces of suspension that you must understand to make accurate assessments of your suspension's condition. He outlines testing procedures that will help you gauge how well you're improving your suspension, along with your riding. And, if you're inclined to perfect your bike's handling, he even explains the black art of chassis geometry. Finally, step-by-step photos of suspension disassembly and assembly help you rebuild your forks and shocks for optimum performance. The book even provides detailed troubleshooting guides for dirt, street, and supermoto--promising a solution to virtually any handling problem.

Stepping Back to Look Forward

This book was produced to commemorate Buell Motor Company's 25th anniversary. Illustrated by hundreds of photographs from private collections and corporate archives, it covers Buell's history from inception to the present. Erik Buell is, of course, at the center of this inspiring story, but the company has thrived not just because of one energetic, visionary man, but because that man was able to inspire others around him to give 110 percent to their common objectives. This story is as much about the people of Buell as it is the motorcycles of Buell. Both, as you will learn, are remarkable.

"The CIA: a forgotten history tells the remarkable story of the CIA interventions in more than fifty countries, from the earliest actions in China to the present day campaign against Nicaragua. Investigative writer William Blum describes the grim role played by the Agency in overthrowing governments, preventing elections, assassinating leaders, suppressing revolutions, manipulating trade unions and manufacturing 'news' -- in detail that's never before appeared in one book. Blum also shows how the mainstream media have frequently not bothered to probe, highlight or even report many of America's aggressive actions abroad. Effectively, this has helped the US Government camouflage its operations and intentions abroad ever since World War II. Washington's deception and the media's laxity combine to leave us functionally illiterate about the history of modern US foreign policy. And that, the author believes, is good neither for democracy, nor for development and world peace. This immensely readable account has been carefully pieced together from widely disparate sources and with a scrupulous eye to documentation." --

Cornering Confidence

THE GREAT EQUALIZER Toppu faces off against his rival Takadai in his first race on a wet track, but a mishap on the track puts them both in last place. Each boy is trying to claw his way back into contention for the victory, but when it comes down to the last corner, who will have bested both his opponent and the road racer's greatest enemy: the rain?

Consumer Product Safety Review

Updated for a new generation of bike lovers, Ultimate Harley Davidson is a visually stunning and comprehensive history of Harley-Davidson that charts the company and its bikes decade by decade. From the moment the first model rolled out of a backyard shed in Milwaukee, through Harley's postwar golden age, to the sought-after bikes that distinguish the company today, Ultimate Harley-Davidson presents seventy of the most beautiful and coveted Harleys of all time. Whether it's the 1911 V-Twin or the 1999 X1 Lightning, the seventy Harley-Davidson bikes examined are presented in minute detail, with close-ups of the engines and in-depth technical specifications.

The first Buell motorcycle, the RW750, was built in 1985 purely for competing in the AMA Formula 1 motorcycle road racing championship. Buell later turned his focus towards racing-inspired, street-going machines using engines manufactured by Harley who, in 1998, purchased majority control of Buell and has been a subsidiary since that time. Buell engines - which are modified Harley Davidson Sportster engines - are designed to be street-friendly both in fuel efficiency and power. They are also simple and easy to maintain. Erik Buell brought flair and innovation to both his racing and street going machines.

A free ebook version of this title is available through Luminos, University of California Press's Open Access publishing program. Visit www.luminosoa.org to learn more. Hokum! is the first book to take a comprehensive view of short-subject slapstick comedy in the early sound era. Challenging the received wisdom that sound destroyed the slapstick tradition, author Rob King explores the slapstick short's Depression-era development against a backdrop of changes in film industry practice, comedic tastes, and moviegoing culture. Each chapter is grounded in case studies of comedians and comic teams,

including the Three Stooges, Laurel and Hardy, and Robert Benchley. The book also examines how the past legacy of silent-era slapstick was subsequently reimagined as part of a nostalgic mythology of Hollywood's youth.

The #1 New York Times–bestselling humorist's tribute to car travel is “a ride worth taking, even for readers who don't know

an oil pan from a frying pan” (The Washington Times). From a veteran of both Car and Driver and National Lampoon magazines, this hilarious book chronicles the golden age of the automobile in America—and takes us on a whirlwind tour of the world’s most scenic and bumpiest roads in trouble-laden cross-country treks, from a 1978 Florida-to-California escapade in a 1956 special four-door Buick sedan, to a thousand-mile effort across Mexico in the Baja 1000 in 1983, to a journey through Kyrgyzstan in 2006 on the back of a Soviet army surplus six-wheel-drive truck. For longtime fans of the celebrated humorist, the collection features a host of O’Rourke’s classic pieces on driving, including “How to Drive Fast on Drugs While Getting Your Wing-Wang Squeezed and Not Spill Your Drink,” about the potential misdeeds one might perform in the front (and back) seat of an automobile; “The Rolling Organ Donors Motorcycle Club,” which chronicles a seven-hundred-mile weekend trip through Michigan and Indiana that O’Rourke took on a Harley-Davidson; his brilliant and funny piece from Rolling Stone on NASCAR and its peculiar culture recorded during an alcohol-fueled weekend in Charlotte, North Carolina, in 1977; and an hilarious account of a ride from Islamabad to Calcutta in Land Rover’s new Discovery Trek. “Never in neutral, O’Rourke offers laughter on wheels.” —Publishers Weekly “An insightful look not just at the American love affair with cars, but also at one man’s changing outlook on life, all of it fast-paced and over the top . . . Even readers who know nothing about cars and motorcycles will appreciate the joy and hilarity of this book.” —Booklist

“Pierson is an even better writer than she is a rider.”—Boston Globe “World’s Toughest Motorcycle Riders”—long-distance motorcycling is not a pastime but an obsession. In this candid, eloquent, sharply observed book, Melissa Holbrook Pierson introduces us to this strange endeavor and the men and women who live to ride impossibly long distances, eating up road, almost without cease. And who find it nothing but fun. Perhaps the most determined of them is John Ryan, a magnetic, enigmatic man who loves nothing better than breaking records of amazing distance—at no small risk to himself and his health. But why? Pierson, who rediscovered the joys of motorcycling in the midst of a personal crisis, puts on her helmet and joins Ryan in his element in order to understand his singular desire and discipline, his passion and his obsession. The Man Who Would Stop at Nothing offers an intimate glimpse of an unusually independent yet supportive community as well as a revealing, unforgettable portrait of its most daring member. In electric, pitch-perfect prose, Pierson gives us rare insights into not only a subculture but also the deeply human craving for something more that drives it.

Billy Lane's How To Build Old School Choppers, Bobbers and Customs

For Harley-Davidson aficionados, the very name Sportster conjures an image of a fire-breathing mechanical beast scorching the world's tarmac image the Sportster itself often does not live up to. Straight from the factory, in its standard form, the Sportster routinely proves an entry-level motorcycle providing a relatively tame ride. This book aims to change all that and to show every Sportster rider how to free the beast in his or her bike. With expert, detailed advice on the proper mechanical massaging and plenty of helpful diagrams and photos this updated, third edition of Buzz Buzzelli's best-selling handbook shows how the Sportster can be transformed into the superbike of old. Including a history of the Sportster from its birth in 1957 to the recent introduction of a new engine (only the third in its long life), this book has everything it takes to open up the gates of hell and give the Sportster its head.

This timely collection of essays - written by nine recognized forestry and environmental specialists - tells the story of the conservation, use, and changes in the Commonwealth's forests over time. The book traces the development of pre-settlement, colonial, and post-Revolutionary War forest practices, and concludes with recommendations as to how history might be used to inform and shape future policy. Underscored is the importance of private and local leadership, such as the unique Massachusetts town forest movement. Economic contributions and educational programs are detailed, as well as the ways Massachusetts' leadership has influenced national forestry. Written for the layperson, and reflecting the particular experience and style of each contributor, the history will appeal to a range of readers from local conservation activists to forestry professionals and policymakers.

Billy Lane is the fastest-rising star among the high-profile custom chopper builders, and in this book he offers many of his

secrets for building a chopper that will stand out in a crowd. This is the ultimate resource for any chopper builder-a book designed as a step-by-step guide to building any type of custom motorcycle. This book also covers custom-building beyond the chopper genre, including the building of "bobbers," an old-school style of custom that has been revived as a hot trend. Predating choppers, they are on the cutting edge of current biker "cool", for real riding, and are much safer and more functional than choppers. Billy Lane has been featured several times on the Discovery Channel's top rated series Biker Build-Off and the Monster Garage premiere episode. Plus, He was Easyriders Builder of the Year, and winner of numerous national Best in Show awards. This book shows Billy's inside secrets of constructing a complete motorcycle, from hand fabricating metalwork to adding the detail parts that will make your bike your own creation and stand out from the crowd. Hundreds of color photographs will lead the builder through the construction process.
