## **The Airline Business**

This innovative and original book provides valuable insights into the interorganisational dynamics of collaboration in tourism marketing. Specific attention is given to global airline alliances, international hotel consortia, and destination collaboration between nations. The book begins by providing a detailed understanding of tourism marketing principles and practice within the context of inter-organisational collaboration. The impact of collaboration on tourism marketing strategy and the implementation of marketing programmes is then explored. Issues for discussion include the benefits and drawbacks of collaboration marketing, the internal processes,

resource implications and external impacts of collaboration marketing, and the challenge of managing parallel competitive and collaborative marketing strategies. Tourism Marketing: A Collaborative Approach offers a strategic marketing framework for application in interorganisational settings within the tourism industry. The existing marketing paradigm is questioned in an industry where rarely does any one organisation own or control all elements of the tourism product.

Fitzroy Maclean was one of the real-life inspirations for super-spy James Bond. After adventures in Soviet Russia before the war, Maclean fought with the SAS in North Africa in 1942. There he specialised in hair-raising commando raids behind enemy lines, including the daring and outrageous kidnapping of the German Consul in Axis-controlled Iraq. Maclean's extraordinary adventures in the Western Desert and later fighting alongside Tito's partisans in Yugoslavia are blistering reading and show what it took to be a British hero who broke the mould . . .

Finalist for the Pulitzer Prize One of the Washington Post Book World's 10 Best Books of the Year One of Time's 10 Best Books of the Year USA Today's Nonfiction Book of the Year A New York Times Notable Book The definitive account of the American military's tragic experience in Iraq Fiasco is a masterful reckoning with the planning and execution of the American military invasion and occupation of Iraq through mid-2006, now with a postscript on recent developments. Ricks draws on the exclusive cooperation of an extraordinary number of American personnel, including more than one hundred senior officers, and access to more than 30,000 pages of official documents, many of them never before made public. Tragically, it is an undeniable account—explosive, shocking, and authoritative—of unsurpassed tactical success combined with unsurpassed strategic failure that indicts some of America's most powerful and honored civilian and military leaders.

### **Self Love Club**

I first read Mikhail Bulgakov's *The Master and Margarita* on a balcony of the Hotel Metropole in Saigon on three summer evenings in 1971. The tropical air was heavy and full of the smells of cordite and motorcycle exhaust and rotting fish and wood-fire stoves, and the horizon flared ambiguously, perhaps from heat lightning, perhaps from bombs. Later each night, as was my custom, I would wander out into the steamy back alleys of the city, where no one ever seemed to sleep, and crouch in doorways with the people and listen to the stories of their culture and their ancestors and their ongoing lives. Bulgakov taught me to hear something in those stories that I had not yet clearly heard. One could call it, in terms that would soon thereafter gain wide currency, "magical realism". The deadpan mix of the fantastic and the realistic was at the heart of the Vietnamese mythos. It is at the heart of the present zeitgeist. And it was not invented by Gabriel Garcia Marquez, as

wonderful as his *One Hundred Years of Solitude* is. Garcia Marquez's landmark work of magical realism was predated by nearly three decades by Bulgakov's brilliant masterpiece of a novel. That summer in Saigon a vodka-swilling, talking black cat, a coven of beautiful naked witches, Pontius Pilate, and a whole cast of benighted writers of Stalinist Moscow and Satan himself all took up permanent residence in my creative unconscious. Their presence, perhaps more than anything else from the realm of literature, has helped shape the work I am most proud of. I'm often asked for a list of favorite authors. Here is my advice. Read Bulgakov. Look around you at the new century. He will show you things you need to see.

In this brilliant look at the rise of political Islam, the distinguished political scientist and anthropologist Mahmood Mamdani brings his expertise and insight to bear on a question many Americans have been asking since 9/11: how did this happen? Mamdani dispels the idea of “good” (secular, westernized) and “bad” (premodern, fanatical) Muslims, pointing out that these judgments refer to political rather than cultural or religious identities. The presumption that there are “good” Muslims readily available to be split off from “bad” Muslims masks a failure to make a political analysis of our times. This book argues that political Islam emerged as the result of a modern encounter with Western power, and that the terrorist movement at the center of Islamist politics is an even more recent phenomenon, one that followed America’s embrace of proxy war after its defeat in Vietnam. Mamdani writes with great insight about the Reagan years, showing America’s embrace of the highly ideological politics of “good” against “evil.” Identifying militant nationalist governments as Soviet proxies in countries such as Nicaragua and Afghanistan, the Reagan administration readily backed terrorist movements, hailing them as the

“moral equivalents” of America’s Founding Fathers. The era of proxy wars has come to an end with the invasion of Iraq. And there, as in Vietnam, America will need to recognize that it is not fighting terrorism but nationalism, a battle that cannot be won by occupation. Good Muslim, Bad Muslim is a provocative and important book that will profoundly change our understanding both of Islamist politics and the way America is perceived in the world today. From the Hardcover edition.

Scores of talented and dedicated people serve the forensic science community, performing vitally important work. However, they are often constrained by lack of adequate resources, sound policies, and national support. It is clear that change and advancements, both systematic and scientific, are needed in a number of forensic science disciplines to ensure the reliability of work, establish enforceable standards, and promote best practices with consistent application. Strengthening Forensic Science in the United States: A Path Forward provides a detailed plan for addressing these needs and suggests the creation of a new government entity, the National Institute of Forensic Science, to establish and enforce standards within the forensic science community. The benefits of improving and regulating the forensic science disciplines are clear: assisting law enforcement officials, enhancing homeland security, and reducing the risk of wrongful conviction and exoneration. Strengthening Forensic Science in the United States gives a full account of what is needed to advance the forensic science disciplines, including upgrading of systems and organizational structures, better training, widespread adoption of uniform and enforceable best practices, and mandatory

Journalist Julie Satow's thrilling, unforgettable history of how one illustrious hotel has defined our understanding of money and glamour, from the Gilded Age to the Go-Go Eighties to today's Billionaire Row. From the moment in 1907 when New York millionaire Alfred Gwynne Vanderbilt strode through the Plaza Hotel's revolving doors to become its first guest, to the afternoon in 2007 when a mysterious Russian oligarch paid a record price for the hotel's largest penthouse, the eighteen-story white marble edifice at the corner of Fifth Avenue and 59th Street has radiated wealth and luxury. For some, the hotel evokes images of F. Scott Fitzgerald frolicking in the Pulitzer Fountain, or Eloise, the impish young guest who pours water down the mail chute. But the true stories captured in THE PLAZA also include dark, hidden secrets: the cold-blooded murder perpetrated by the construction workers in charge of building the hotel, how Donald J. Trump came to be the only owner to ever bankrupt the Plaza, and the tale of the disgraced Indian tycoon who ran the hotel from a maximum-security prison cell, 7,000 miles away in Delhi. In this definitive history, award-winning journalist Julie Satow not only pulls back the curtain on Truman Capote's Black and White Ball and The

Beatles' first stateside visit-she also follows the money trail. THE PLAZA reveals how a handful of rich, dowager widows were the financial lifeline that saved the hotel during the Great Depression, and how, today, foreign money and anonymous shell companies have transformed iconic guest rooms into condominiums that shield ill-gotten gains-hollowing out parts of the hotel as well as the city around it. THE PLAZA is the account of one vaunted New York City address that has become synonymous with wealth and scandal, opportunity and tragedy. With glamour on the surface and strife behind the scenes, it is the story of how one hotel became a mirror reflecting New York's place at the center of the country's cultural narrative for over a century.

In this volume of 15 articles, contributors from a wide range of disciplines present their analyses of Disney movies and Disney music, which are mainstays of popular culture. The power of the Disney brand has heightened the need for academics to question whether Disney's films and music function as a tool of the Western elite that shapes the views of those less empowered. Given its global reach, how the Walt Disney Company handles the role of race, gender, and sexuality in social structural inequality merits serious reflection according to a number of the articles in the volume. On the other hand, other authors argue that Disney productions can help

This year's theme, *No Precedent*, reflects the perception of young architects as a self-defining generation driven by the desire to be heard and unwilling to either wait their turn or to follow in others' footsteps. They are quick to cast aside unfit precedents, codes, and rules. Their work is suggestive, speculative, and on the brink—neither here nor there, but fodder for the
