It's Your Duty To Know

Auto Repair For Dummies, 2nd Edition (9781119543619) was previously published as Auto Repair For Dummies, 2nd Edition (9780764599026). While this version features a new Dummies cover and design, the content is the same as the prior release and should not be considered a new or updated product. The top-selling auto repair guide--400,000 copies sold--now extensively reorganized and updated Forty-eight percent of U.S. households perform at least some automobile maintenance on their own, with women now accounting for one third of this \$34 billion automotive do-it-yourself market. For new or would-be do-it-yourself mechanics, this illustrated how-to guide has long been a must and now it's even better. A complete reorganization now puts relevant repair and maintenance information directly after each automotive system overview, making it much easier to find hands-on fix-it instructions. Author Deanna Sclar has updated systems and repair information throughout, eliminating discussions of carburetors and adding coverage of hybrid and alternative fuel vehicles. She's also revised schedules for tune-ups and oil changes, included driving tips that can save on maintenance and repair costs, and added new advice on troubleshooting problems and determining when to call in a professional mechanic. For anyone who wants to save money on car repairs and maintenance, this book is the place to start. Deanna Sclar (Long

Beach, CA), an acclaimed auto repair expert and consumer advocate, has contributed to the Los Angeles Times and has been interviewed on the Today show, NBC Nightly News, and other television programs.

The truck's role in American society changed dramatically from the 1960s through the 1980s, with the rise of off-roaders, the van craze of the 1970s and minivan revolution of the 1980s, the popularization of the SUV as family car and the diversification of the pickup truck into multiple forms and sizes. This comprehensive reference book follows the form of the author's popular volumes on American cars. For each year, it provides an industry overview and, for each manufacturer, an update on new models and other news, followed by a wealth of data: available powertrains, popular options, paint colors and more. Finally, each truck is detailed fully with specifications and measurements, prices, production figures, standard equipment and more.

CCH's U.S. Master Depreciation Guide offers tax and accounting professionals who work with businesses a one-stop resource for guidance in understanding and applying the complex depreciation rules to their fixed assets. This area is especially challenging, because bits and pieces of applicable information must be gathered from a maze of Revenue Procedures, IRS Tables and IRS Regulations. These sources are frequently old and include some materials which may be non-applicable. CCH's U.S. Master Depreciation Guide pulls the pieces together, so practitioners can make sense of all the corresponding information and put the information into practice.

Looking beyond her red hair, small build, and blue eyes, twenty-four-year-old Lindsey is a paramedic, a Christian, and a book collector. She owns just about every book written by Stephen King, Dean Koontz, Kathy Reichs, Karen Slaughter, and a host of others. But Stephen King is her favorite. Lindsey's best friend, Eric, works at a local used bookstore and is always on the lookout for special books to add to her collection. She's thrilled when a hardcover copy of *The Colorado Kid* appears at the store; she wastes no time in making the purchase. While reading her new find, Lindsey discovers a black-and-white photo of a small boy, shirtless and sitting in a chair at a kitchen table; a ransom note is written on the back. At the same time, a frenzied man viciously attacks Eric at the store; he's looking for that specific copy of *The Colorado Kid* that Lindsey just purchased. Lindsey and Eric conclude that a little boy is in serious trouble, and the two friends become embroiled in a life-and-death struggle straight out of one of Lindsey's beloved books.

Rolling Shelter is a personal account of Kelly and Rosana Hart's life in two different buses, three vans, two small motor homes, two travel trailers combined into one house, and two cars. Kelly tells stories of how they traveled through Mexico and Guatemala in a small van and then later developed a splendid home on their llama ranch in the mountains of Oregon. This book will inspire you and give you some ideas for how you might take advantage of vehicles to provide shelter in your life. In full color, the book features over 200 photographs and 5 detailed floor plans. With descriptions of how the conversions were accomplished, it is valuable both as an overview of vehicular dwelling and as a construction manual for how you might convert your own. One of the true joys of living in a vehicle is that it can be moved to new and exciting locations with relative ease. If you like to travel, but prefer to have your own bed and your own kitchen, then consider living

in a motor home of some sort. The chapters include: "Our First Bus Home" shows the artistic conversion of a school bus parked on the rugged California coast. "Extra Wheels" describes a versatile step van and a Navy radar van used as a film studio. "Van Dwelling" features a Ford Econoline van equipped for travel into remote places and a VW Vanagon camper. "Juniper Ridge" shows how they made a unique home combining two long travel trailers into one home that could accommodate some of their llamas. "Tortuga & CanDo" were both small Dolphin motor homes built on Toyota trucks. "Here & There" was a full scale conversion of a 40 foot inter-city bus in which they traveled around the western United States.
