The A-Z Reference Book of Syndromes and Inherited Disorders provides a practical reference for carers and those with a syndrome or inherited disorder. It describes the disorders and problems of both children and adults, considers the day-to-day management of conditions and is written in non-technical language for a wider audience whilst giving enough detail for the medical, nursing and midwifery professions. The text is well indexed and has an extensive glossary. Whilst new methods of diagnosis, investigation and treatment will, of course, occur over the next few years, the basics described in this book will still apply. Social workers, nursery nurses and educationalists will find this reference source invaluable as a basis for assessing needs and potential in their students and clients.

Although McDonald's tested the McCafe' concept--offering specialty coffee and smoothies--many years before the recession hit, the official launch took place in early 2009. Why? Because they knew that was when Starbucks' market share was most vulnerable. And, in early 2010, McDonald's raked in \$420m, not only stealing a staggering amount of business from Starbucks, but applying so much pressure that in 2009, Starbucks closed over 270 locations. If you want to grow in a slowly recovering economy a stagnant economy or even a declining market, your best and only plan is to steal market share from your competitors and to remain reactive to the market's needs. *Grab More Market Share* will teach professionals how not settle for 1% growth. Ross' research uses rock-solid case studies that teach leaders to leverage the recovery to steal 10-15% market share from competitors. Ross alerts readers to the fact that they must leverage the culture (the public consciousness) to swing dollars towards their organizations. This same discipline will help professionals predict the next human behavior changes in buying habits.

In *Ethics: The Essential Writings*, philosopher Gordon Marino skillfully presents an accessible, provocative anthology of both ancient and modern classics on matters moral. The philosophers represent 2,500 years of thought—from Plato, Kant, and Nietzsche to Alasdair MacIntyre, Susan Wolf, and Peter Singer—and cover a broad range of topics, from the timeless questions of justice, morality, and faith to the hot-button concerns of today, such as animal rights, our duties to the environment, and gender issues. Featuring an illuminating preamble, concise introductory essays on the giants of ethical theory, and incisive chapter headnotes to the modern offerings, this Modern Library edition is a perfect single-volume reference for students, teachers, and anyone eager to engage in reflection on ethical questions, including “What is the basis for our ethical views and judgments?” Gordon Marino is professor of philosophy and director of the Hong Kierkegaard Library at St. Olaf College in Northfield, Minnesota. A recipient of the Richard J. Davis Ethics Award for excellence in writing on ethics and the law, he is the author of *Kierkegaard in the Present Age*, co-editor of *The Cambridge Companion to Kierkegaard*, and editor of the Modern Library's *Basic Writings of Existentialism*. His essays have appeared in *The New York Times*. From the Trade Paperback edition.

Named a Gift Book for the Discerning New Yorker by The New York Times In the Shadow of Genius is the newest book by photographer and author Barbara Mensch. The author combines her striking photographs with a powerful first-person narrative. She takes the reader on a unique journey by recalling her experiences living alongside the bridge for more than 30 years, and then by tracing her own curious path to understand the brilliant minds and remarkable lives of those who built it: John, Washington, and Emily Roebling. Many of Mensch's photographs were inspired by her visits to the Roebling archives housed at Rutgers University, where she pieced together through notebooks, diaries, letters, and drawings the seminal locations and events that affected their lives. Following in their footsteps, Mensch traveled to Mühlhausen, Germany, the birthplace of John Roebling; to Saxonburg, Pennsylvania, where Roebling established a utopian community in 1831; to Roebling aqueducts and bridges in Pennsylvania, Ohio, and New York; and to the Civil War battlefield in Gettysburg, Pennsylvania, where Washington Roebling, the son of the famous engineer, valiantly served as a Union soldier. The book begins and ends with Mensch's unique photographs of the Brooklyn Bridge, including never-before-seen images captured deep within the structure. The book creatively fuses contemporary photography with the historical record, giving the reader a new perspective on contemplating the masterwork. Fernanda Perrone, Curator of Special Collections and the Roebling Family Archive at Rutgers University, has contributed a Foreword.
