The author uses his inquisitive mind to set out and prove the existence of Yamashita's infamous untouched treasure deposits buried all around the Philippine Islands. Working alongside Filipino treasure hunters the author has visited untouched treasure sites in Luzon, Cebu, Davao, General Santos and Glan in Mindanao. It has taken Aquila Chrysaestos over six years to successfully document many original Japanese treasure code books, and treasure maps, for you the reader. Aquila has answered many of the questions that he had while puzzling out the precise way in which the Japanese Imperial family members went about burying the wealth of fourteen South East Asian countries, on land and at sea throughout the islands during 1942 to 1945 when the Japanese Imperial Army occupied the Philippine islands. Using his practical skills and a logical approach to solving many of his unanswered questions, the author has compiled a very comprehensive step by step "how to" book that will aid you the treasure hunter wanting answers to your own Philippine treasure quest. This

book is packed with: 19 sections including the quick reference guide A to Z of treasure signs and symbols 100 colour drawings, by the author himself many drawn from unknown treasure sites 150 colour photographs of carved treasure symbols, maps and recovered gold 30 black and white WWII photographs 40 black and white diagrams This brilliant gem of a book takes you through every process of planning our own treasure hunt. The equipment you will need, the treasure permits, where to look and how to recover your own piece of war treasure safely, and so much more! Buy this book now and go and live your dream of becoming a successful treasure hunter today! Absolutely fantastic! A real mine of information for the seeker of Japanese war gold buried in the Philippines. In over 400 fact-filled pages, Aquila has cracked the Japanese treasure code and, with up to the minute locating and recovery techniques, paved the way for bringing this vast wealth to the surface. An incredible story and a great read for the armchair treasure hunter too! David Villanueva, treasure hunter and author, Whitstable, UK

### **Il libro dei dettati**

I mini gialli dei dettati: i libri-gioco per allenarsi nei dettati alla scuola primaria Avvincenti giochi enigmistici calati in un contesto narrativo.

Protagonista delle avventure è Agata Bird, ex assistente dell'Ispettore Ortografoni promossa ispettrice, e le vicende sono ambientate a New York. Questa serie propone un approccio alla lingua scritta attraverso il dettato e l'autodettato, con esercizi che - a partire dalla sillaba - aiutano ad acquisire in autonomia la tecnica di scrittura adeguata. Oltre ad abbinare i suoni ai segni, i bambini si alleneranno a scrivere correttamente tutte le parole nuove o dal significato sconosciuto. I volumi hanno un livello di complessità crescente e sono in linea con il programma di apprendimento della letto-scrittura, pur svincolati dal riferimento alla classe specifica.

Possono quindi essere utili anche per il recupero e il potenziamento in caso di difficoltà. Nel Fantasma del parco, Agata Bird accompagna il bambino negli esercizi e nella raccolta degli indizi per svelare il colpevole che terrorizza i corridori nel parco. Le attività vertono in particolare su: - riconoscimento delle sillabe primarie (cv, cvc, ccv); - composizione di parole bisillabiche e trisillabiche; - parole con

Questa raccolta di poesie e di racconti popolari anonimi in dialetto molisano tracciano il percorso di due storie che, pur diversificate, si compenetrano e si completano a vicenda: la storia individuale dell'autore e la storia collettiva della società di un paese del Sud. Le immagini di un mondo apparentemente immobile e arcaico si alternano alle vicende di una realtà storica complessa e tormentata, nel cui magma vecchio e nuovo si scontrano e si fondono. This collection of poems and anonymous folktales in the Molisan dialect traces the unfolding of two stories which, although distinct, interweave and complete each other: the author's individual story and the story of a town in the South of Italy. The images of an apparently immobile and archaic world alternate with the events of a complex and tormented historical reality, in whose magma the new and the old clash and fuse.

*Brazilian Railway Culture* examines the cultural relationship Brazil has had with its railways since tracks were first laid by British, American and French engineers in the nineteenth century. 'Railway' and 'Brazil' are words not often found in the same sentence. Yet each year over seven hundred million passengers are carried by train in the major urban centres, and tens of thousands of visitors enjoy heritage steam rides at over a dozen restored lines and museums. *Brazilian Railway Culture* starts from the premise that Brazilian society and culture is not just samba, football and sex. The book takes a journey through Brazilian cultural output from 1865 to the present day, examining novels, poetry, music, art, film and television, as well as autobiographies, written histories, and museums to uncover ways in which the railway has been represented. This interdisciplinary study engages with theories of informal empire and postcolonialism, Latin American studies, cultural studies, film and television studies, literary criticism, art history and criticism, museum and heritage studies, as well as railway studies. This is a supplementary text for use by students on both undergraduate and postgraduate courses. It will also be of interest to academics, researchers, and railway

### **Hercule Poirot's Casebook**

Dalla loro pluriennale esperienza in ambito scolastico e clinico, le autrici propongono un percorso incentrato su uno strumento ben noto ai docenti: il dettato, rivisto a fini didattici per un uso mirato sia all'insegnamento sia al recupero di disturbi conclamati. Un intervento sulle difficoltà di apprendimento è efficace se risponde a caratteristiche di specificità e sistematicità: per questo il libro dei dettati fornisce materiali costruiti ad hoc, facili da utilizzare e organizzati per un'attività continuativa. Il percorso consente ai docenti di rilevare il livello della classe e/o dei singoli alunni, grazie a istruzioni chiare e complete, al fine di individuare le tipologie di intervento da porre in atto. Pensati per essere usati a partire dalla prima alfabetizzazione fino al conseguimento di una competenza ortografica matura, i materiali proposti si dividono per classe, coprendo l'intero ciclo della scuola primaria: - Dettati per la classe prima - Dettati per la classe seconda - Dettati per la classe terza - Dettati per le classi quarta e quinta

### **Horror**

With the exception of die-hard aficionados of European or Italian horror cinema, most people may not have heard of giallo cinema or have seen many films in this subgenre of horror. Most academic film studies tend to ignore horror cinema in general and the giallo specifically. Critics often deride these films, which reveal more about the reviewers' own prejudices than any problem with the works themselves. As a counter to such biases, Mikel J.

Koven argues for an alternative approach to studying these films, by approaching them as vernacular cinema—distinct from "popular cinema." According to Koven, to look at a film from a vernacular perspective removes the assumptions about what constitutes a "good" film and how a particular film is in some way "artistic." In *La Dolce Morte: Vernacular Cinema and the Italian Giallo Film*, Koven explores the history and evolution of this aspect of cinema, and places these films within the context of Italian popular filmmaking. He addresses various themes, motifs, and tropes in these films: their use of space, the murders, the role of the detective, the identity of the killer, issues of belief, excess, and the set-piece.

### **Roberto Bolaño, a Less Distant Star**

This book illustrates the diversity of hypogene speleogenetic processes and void-conduit patterns depending on variations of the geological environments by presenting regional and cave-specific case studies. The cases include both well-known and newly recognized hypogene karst regions and caves of the world. They all focus on geological, hydrogeological, geodynamical and evolutionary contexts of hypogene speleogenesis. The last decade has witnessed the boost in recognition of the possibility, global occurrence, and practical importance of hypogene karstification (speleogenesis), i.e. the development of solutional porosity and permeability by upwelling flow, independent of recharge from the overlying or immediately adjacent surface. Hypogene karst has

been identified and documented in many regions where it was previously overlooked or misinterpreted. The book enriches the basis for generalization and categorization of hypogene karst and thus improves our ability to adequately model hypogene karstification and predict related porosity and permeability. It is a book which benefits every researcher, student, and practitioner dealing with karst.

A fascinating addition to the magical literature of the Elizabethan era, this unique grimoire is a must-have for magic aficionados and historians. Dating from the time of Shakespeare (c. 1580), *The Book of Oberon* is a meticulous transcription and translation of a magic book recently rediscovered by the Folger Shakespearean Library. Unlike the more theoretical magic books of the era, this is a compilation of practical spells, secrets, and summonings. *The Book of Oberon* includes rituals for summoning spirits and faeries (including Oberon); original drawings; talismans and charms for toothaches, bleeding, the capture of thieves, and other practical matters; one of the oldest known copies of the magical manual *The*

Translating Culture Specific References on Television provides a model for investigating the problems posed by culture specific references in translation, drawing on case studies that explore the translational norms of contemporary Italian dubbing practices. This monograph makes a distinctive contribution to the study of audiovisual translation and culture specific references in its focus on dubbing as opposed to subtitling, and on contemporary television series, rather than cinema. Irene Ranzato's research involves detailed analysis of three TV series dubbed into Italian, drawing on a corpus of 95 hours that includes nearly 3,000 CSR translations. Ranzato proposes a new taxonomy of strategies for the translation of CSRs and explores the sociocultural, pragmatic and ideological implications of audiovisual translation for the small screen.

arising from women artists' critique of female identity. This dual approach reveals unique interpretations of womanhood in Italy spanning more than fifty years, while also providing a deep investigation of the manipulation of canvases historically centered on the male subject. With its unique coupling of generic and thematic concerns, the volume contributes to the ever expanding female artistic legacy, and to our understanding of postwar Italian women's evolving relationship to the narration of history, gender roles, and these artists' use and revision of generic convention to communicate their vision.

People all over the globe are experiencing unprecedented and often hazardous situations as environments change at speeds never before experienced. This edited collection proposes that anthropological perspectives on landscape have great potential to address the resulting conundrums. The contributions build particularly on phenomenological, structuralist and multi-species approaches to environmental perception and experience, but they also argue for incorporating political power into analysis alongside dwelling, cosmology and everyday practice. The book's 13 ethnographically rich chapters explore how the material and the conceptual are entangled in and as landscapes, but it also looks at how these processes unfold at many scales in time and space, involving different actors with different powers. Thus it reaches towards new methodologies and new ways of using anthropology to engage with the sense of crisis concerning environment, movements of people, climate change and other planetary transformations. *Dwelling in political landscapes: contemporary anthropological perspectives* builds substantially upon anthropological

work by Tim Ingold and others, which emphasises the ongoing and open-ended, yet historically conditioned ways in which humans and nonhumans produce the environments they inhabit. In such work, landscapes are understood as the medium and outcome of meaningful life activities, where humans, like other animals, dwell. This means that landscapes are neither social/cultural nor natural, but socio-natural. Protesting against and moving on from the proverbial dualisms of modern, Western and maybe capitalist thought, is only the first step in renewing anthropology's methodology for the current epoch, however. The contributions ask how seemingly disconnected temporal, representational, economic and other systemic dynamics fold back on lived experience that are materialised in landscapes.

The Golden Volcano thrusts two Canadian cousins unexpectedly bequeathed a mining claim in the Klondike into the middle of the gold rush, where they encounter disease, disaster, extremes of weather, and human nature twisted by a passion for gold. A deathbed confidence sends the two searching for a fabulous gold-filled volcano on the shore of the Arctic Ocean. But nature, both human and physical, hasn't finished with them, and their story plays out with the nail-biting adventure of an action thriller and the moral and emotional force of high drama. Like many of the works left unpublished when Jules Verne died, The Golden Volcano was altered and edited by his son, Michel. This first translation from the original manuscript allows readers of English to rediscover the pleasures of Verne's storytelling in its original form and to enjoy a virtually unknown gem of action, adventure, and style from a master of French literature.
