Utdrag: Alfa Romeo Tipo 33 är en serie sportvagnar, tillverkade av den italienska biltillverkaren Alfa Romeo mellan 1967 och 1977. I början av sextioalet ville FIA bredda intresset för sportvagns-VM, från både tillverkare och publik, genom att införa flera klasser även för mindre bilar i mästerskapet. Alfa Romeo hade stora framgångar i de mindre klasserna med sin Giulia TZ och beslutade att vidareutveckla sin satsning med en sportvagnsprototyp med mittmotor. Alfa Romeos utvecklingsavdelning lade upp grunderna för den nya sportvagnen. Därefter skedde den vidare till tvåvingsavdelningen Autodelta för främst i lande. Bilen chassi bestod av två längsmed aluminiumrör, förbundna på mitten av ett ensamt tvärgående rör, som ett stort H. Autodelta tog fram en liten tvåliters V8-motor. Bilen debuterade 1967. The Greatest Racing Driver

The Bulletin

After saving Alfa Romeo from oblivion in 1987, it took Fiat nearly five years to debut the first new Alfa produced under its control. This is the story of how the competition versions of the 155/156/147 family of cars were developed and subsequently raced to many championship titles and race wins. Alfa Romeo's 155 saloon was a comprehensively successful racing touring car that won the German and world-wide DTM Championship, and later ITC races. The model also took on the role of representing the company in national touring car championships throughout the world, most notably winning the British Touring Car Championship in 1994. The 156 was Alfa's successor to the 155 and was also raced with much success. This book follows the development and competition history of this model too, along with its sibling, the 147. Together, these models kept the Alfa Romeo name at the pinnacle of motor sport for many years, from 1992 to 2006, and will become future motorsport classics.
