DR. SEBI Treatment and Cures Book

Alkaline Plant Based Diet is my book The God-Awakening Diet, revised. This new edition titled Alkaline Plant Based Diet is re-branded to better identify what the book is about. It also includes some minor revisions to content for a more user-friendly experience. An alkaline plant based diet is instrumental in supporting health and vitality, reversing disease, and protecting the earth's ecosystem. It optimally supports a slightly alkaline pH level in the blood, which is the equilibrium point for the health of all the organs in the body. Consuming acidifying meat, dairy, and processed foods causes

Download Free Alkaline Herbal Medicine Reverse Disease And Heal The Electric Body

the body to rely on buffering systems to keep the blood's pH around 7.4. The body then strips alkaline material from bones and tissues to put into the bloodstream when the buffering systems are overwhelmed. This compromises the health of organs and allows for the proliferation of pathogens and toxins. The global assimilation of the Western diet, which is centered on the consumption of meat, dairy, and processed foods, supports industrial processes that compromise the natural life supporting patterns of the earth's ecosystem, and supports the proliferation of disease in the body and in the earth. Diets centered on the consumption of meat, dairy, and processed foods are the catalyst of the inhumane treatment of animals, deforestation, land erosion, depletion of fresh water, and intensified climate change. The mechanisms employed to satisfy the demand for meat, dairy, and processed foods severely compromise the natural patterns that support all life on earth.

these conditions around the world. Dr. Sebi said that there were six fundamental food groups: live, raw, dead, hybrid, genetically modified, and drugs, but his diet basically cut out all the food groups except live and raw food, thereby encouraging dieters to eat as closely to a raw vegan diet as possible. These foods include foods like naturally grown fruits and vegetables, along with whole grains. He has believed that raw and live foods were "electric," which fought the acidic food waste in the body. So, with his approach to eating, Dr. Sebi established a list of foods that he deliberated to be the best for his diet. Sticking to Dr Sebi's Diet and Food List to cure these diseases can be challenging if you eat out a lot. Consequently, you need to get used to making lots of meals at home. To help with this, this book is born so as to give you all of the information you need to eat right and the type of herbs to eat to live healthy. The Alkaline Herbal Medicine

Alkaline Herbal Medicine gives insight into many of the herbs used to reverse disease in Dr. Sebi's African Bio Mineral Balance. It covers scientifically supported properties, preparation, doses and dosages, and how to combine herbs. It addresses alkaline foods on the Dr. Sebi nutritional guide, and their chemical affinity with and support of the electric body. The natural order in life designed the body to be healthy and heal under the right conditions. These conditions are programmed into the DNA of Homo sapiens, whose base DNA makeup is the African genome. Diets centered on the consumption of natural alkaline plant foods and ample exposure to the sun supported the healthy expression of the African genome. The environment of Africa, and environments similar to Africa, produced life that developed with a complete and balanced electrical structure. The plant life that grew in these environments grew under optimal conditions in nutrient rich soil under year long exposure to the sun. The resulting chemical makeup of these natural alkaline plants protected them from environmental stresses. Africans originally ate diets centered on the consumption of these plants, like the great apes of Africa, and the programming of the African genome used the protective nature of these plants' nutrients to support its vibrancy. A scientific model supports the idea that Africans migrated out of Africa hundreds of thousands of years ago into the less hospitable environments of Europe and Asia. These environments didn't support the healthy expression of the African genome and resulted in the

mutation of the gene and the development of the Neanderthal of Europe and Denisovan of East Asia. Science has linked diseases like lupus, Crohn's disease, and type 2 diabetes to the Neanderthal gene. The Neanderthals, who inhabited the Neandertal caves in Germany, ate a diet centered on the consumption of meat. The combination of their meat-centered diet and adverse relationship with the sun led to the development of dis-ease in the body. Now, the meat-centered diet is being globalized and is spreading disease throughout the world. An alkaline plant-centered diet and the use of alkaline herbal medicine naturally support the healthy expression of the African genome in all people, and reverses chronic disease. Pharmaceutical medicine is built on the power of medicinal herbs because around fifty percent of its drugs are derived from herbs. The issue is industry has strategically conditioned people to forget about the healing power of natural alkaline herbs. I dedicate this book in the memory of Alfredo Bowman lovingly known as Dr. Sebi. He helped us to remember that natural alkaline herbs and plant foods support the healthy expression of the African genome that is in all people. He did this by sharing his African Bio Mineral Balance methodology. Categories: herbal remedies, naturopathy, healing, herbs, herbal medicine

Life is sustained by natural patterns of energy that interact to create synergy. These patterns are a reflection of the natural order of energy that permeates every living thing, and I refer to this energy as God/The Source of Life/Nature in an attempt to encompass all views that recognize this order. We were once in tune with these natural patterns, however, blind consumerism encourages us to mindlessly disregard synergy and pillage our land for the sake of profit. Industrialization, fueled by greed and gluttony, promotes a processed and meat-centered diet that disturbs the natural patterns of the earth's ecosystem. The constant consumption of meat and processed foods aids the proliferation of disease in the body and in the earth. Meat-centered diets are also the catalyst of the inhumane treatment of animals, deforestation, land erosion, depletion of fresh water, and climate change. The mechanisms employed to satisfy the demand for meat, meat-

based products, and processed foods severely compromise the natural patterns that are in place to support life on earth. The situation is so dire that the United Nations prepared a report citing the current rate of meat production as unsustainable and recommends the adoption of a plant-based diet, or close to it, will be necessary to save our planet. My hope is to encourage people to return to a diet and way of life that supports the synergy created by God/The Source of Life/Nature so that we can save ourselves and all existing life on this planet.

I would like to take this opportunity to give you a brief synopsis of how our premise and methodology achieves successful results in eradicating diseases. This brief, but concise illustration will reveal our premise and methodology to be consistent. According to Western medical research, diseases are a result of the host being infected with a "germ", "virus", or "bacteria". In their approach in treating these "infestations", inorganic, carcinogenic chemicals are employed. Our research immediately uncovers flaws in their premise through basic deductive reasoning. By consistently utilizing the same premise and methods, they have consistently yielded ineffective results. In essence, in the 400-year tradition of the European philosophy of medicine, their approach in treating disease has yet to produce any cures. In contrast, as we examine an African approach to disease, it diametrically opposes the present Western approach. Specifically, the African Bio-mineral Balance refutes the germ/virus/bacteria premise. Our research reveals that all manifestation of disease finds its genesis when and where the mucous membrane has been compromised. For example, if there is excess mucous in the bronchial tubes, the disease is Bronchitis; if it is in the lungs, the disease is Pneumonia; in the pancreatic duct, it is Diabetes; in the joints Arthritis. All of the African Bio-mineral Balance compounds are comprised of natural plants;

which means its constitution is of an alkaline nature. This is important- and instrumental in our success in reversing pathologies- because disease can only exist in an environment that is acid; thus it is inconsistent to utilize inorganic substances when treating disease because they are of an acid base. Only consistent use of natural botanical remedies will effectively cleanse and detoxify a diseased body, reversing it to its intended alkaline state. Our system of nutrition goes even further. In addition to removing the accumulation of years of toxins, the African Bio-mineral Balance replaces depleted minerals and rejuvenates damaged cell tissue eroded by the acid, diseased state. The primary organs of elimination are the skin, liver, gall bladder, lymph glands, kidneys and the colon. If all toxins are eliminated from the above mentioned organs they will be recycled throughout the entire body, manifesting disease. Eventually the body breaks down in the weakest organs due to its inability to dispel the influence of toxins. The colon is the most important organ and must be cleansed by detoxifying before any disease can be reversed. If the colon is the only organ cleansed and detoxified the other major organs will be left toxic, thus leaving the disease in the body. Dr. Sebi Alkaline Recipe

Alkaline Herbal Medicine gives insight into many of the herbs used to reverse disease in Dr. Sebi's African Bio Mineral Balance. It covers scientifically supported properties, preparation, doses and dosages, and how to combine herbs. It addresses alkaline foods on the Dr. Sebi nutritional guide, and their chemical affinity with and support of the electric body. The natural order in life designed the body to be healthy and heal under the right conditions. These conditions are programmed into the DNA of Homo sapiens, whose base DNA makeup is the African genome. Diets centered on the consumption of natural alkaline plant foods and ample exposure to the sun supported the healthy expression of the African genome. The environment of Africa, and environments similar to Africa, produced life that developed with a complete and balanced electrical structure. The plant life that grew in these environments grew under optimal conditions in nutrient rich soil under year long exposure to the sun. The resulting chemical makeup of these natural alkaline plants protected them from environmental stresses. Africans originally ate diets centered on the consumption of these plants, like the great apes of Africa, and the programming of the African genome used the protective nature of these plants' nutrients to support its vibrancy. A scientific

model supports the idea that Africans migrated out of Africa hundreds of thousands of years ago into the less hospitable environments of Europe and Asia. These environments didn't support the healthy expression of the African genome and resulted in the mutation of the gene and the development of the Neanderthal of Europe and Denisovan of East Asia. Science has linked diseases like lupus, Crohn's disease, and type 2 diabetes to the Neanderthal gene. The Neanderthals, who inhabited the Neandertal caves in Germany, ate a diet centered on the consumption of meat. The combination of their meat-centered diet and adverse relationship with the sun led to the development of dis-ease in the body. Now, the meat-centered diet is being globalized and is spreading disease throughout the world. An alkaline plant-centered diet and the use of alkaline herbal medicine naturally support the healthy expression of the African genome in all people, and reverses chronic disease. Pharmaceutical medicine is built on the power of medicinal herbs because around fifty percent of its drugs are derived from herbs. The issue is industry has strategically conditioned people to forget about the healing power of natural alkaline herbs. I dedicate this book in the memory of Alfredo Bowman lovingly known as Dr. Sebi. He helped us to remember that natural alkaline herbs and plant foods support the healthy expression of the African genome that is in all people. He did this by sharing his African Bio Mineral Balance methodology. Categories: herbal remedies, naturopathy, healing, herbs, herbal medicine

DR. SEBI HERBS Do you want to heal and revitalize your body with natural herbs? Have you always wanted to know more about Dr. Sebi's herbs and his unique approach to healing through natural alkaline diets? Then, you are welcome to read further. Dr. Sebi until his death was an herbalist, pathologist, biochemist, and naturalist. He personally researched and identified herbs in North America, Central and South America, Africa, and the Caribbean, and established a unique methodology and approach to healing the human body using herbs that was confidently entrenched in his over 30 years of experience. Hence, he established a list of foods that he considered toxic to the body, which were processed and synthetic. They include fried food, sugar, iodized salt and alcohol (mostly the western diet.) He argued that if we should substitute such toxic substances with natural food items like fruit, green vegetables, raw nuts and grains, we would be able to ignite our body's ability to heal itself.
