Gender(ed) Identities

A Smart Girl's Guide: Making a Difference

This volume brings together diverse, cross-disciplinary scholarly voices to examine gender construction in children's and young adult literature. It complements and updates the scholarship in the field by creating a rich, cohesive examination of core questions around gender and sexuality in classic and contemporary texts. By providing an expansive treatment of gender and sexuality across genres, eras, and national literature, the collection explores how readers encounter unorthodox as well as traditional notions of gender. It begins with essays exploring how children's and YA literature construct communities formed by gender, ethnicity, sexuality, and in face-to-face and virtual spaces. Section II's central focus is how gendered identities are formed, unpacking how texts for young readers ranging from Amish youth periodicals to the blockbuster *Divergent* series trace, reproduce, and shape gendered identity socialization. In section III, the essential literary function of translating trauma into narrative is addressed in classics like *Anne of Green Gables* and *Pollyanna*, as well as more recent works. Section IV's focus on sexuality and romance encompasses fiction and nonfiction works, examining how children's and young adult literature can serve as a regressive, progressive, and transgressive site for construction meaning about sex and romance. Last, Section IV offers new readings of paratextual features in literature for children -- from the classic tale of *Cinderella* to contemporary illustrated novels. The key

achievement of this volume is providing an updated range of multidisciplinary and methodologically diverse analyses of critically and commercially successful texts, contributing to the scholarship on children's and YA literature; gender, sexuality, and women's studies; and a range of other disciplines.

Often referred to as the model minority, Asian American children and adolescents feel pressured to perform academically and be disinterested in sports, with the exception of martial arts. Boys are often stereotyped as physically unattractive nerds and girls as petite and beautiful. Many Americans remain unaware of the diversity of ethnicities and races the term Asian American comprises, with Asian American adolescents proving to be more invisible than adults. As a result, Asian American adolescents are continually searching for their identity and own place in American society. For these kids, being or considered to be American becomes a challenge in itself as they assert their Asian and American identities; claim their own ethnic identity, be they immigrant or American-born; and negotiate their ethnic communities. The contributors to *Growing Up Asian American in Young Adult Fiction* focus on moving beyond stereotypes to examine how Asian American children and adolescents define their

unique identities. Chapters focus on primary texts from many ethnicities, such as Chinese, Korean, Filipino, Japanese, Vietnamese, South Asian, and Hawaiian. Individual chapters, crossing cultural, linguistic, and racial boundaries, negotiate the complex terrain of Asian American children's and teenagers' identities. Chapters cover such topics as internalized racism and self-loathing; hyper-sexualization of Asian American females in graphic novels; interracial friendships; transnational adoptions and birth searches; food as a means of assimilation and resistance; commodity racism and the tourist gaze; the hostile and alienating environment generated by the War on Terror; and many other topics.
