### **The Army Lawyer**

### **American Book Publishing Record**

Featuring hundreds of A-Z entries and numerous photos, the set examines the history and relevance of the issues, events, controversies, personalities, groups, and concepts that have contributed to the political and social polarization of American society over recent decades. It details hot-button topics as well as the role of the media in defining and shaping these issues--everything from abortion, the Christian Coalition, the environmental movement, feminism, and gay rights, to illegal aliens, pornography, stem-cell research, Watergate, and zero tolerance. A topic finder, bibliography, and index add to the set's utility.

### **Bibliographic Index**

"This book explores policing, regulation, private security and intelligence to understand current transformations in policing. Policing today can no longer be understood only in terms of an organization (the police), but more and more in terms of multi-agency processes. This could be functional for national security interests, safety and security but detrimental to

accountability and the democratic process." "Bob Hoogenboom discusses notions of 'blurring of boundaries', 'unbounding' and 'hybridity' and pays homage to, and critiques, leading thinkers in the field. Hoogenboom argues that police studies and criminology are too fragmented and focused on the criminal justice system and not oriented enough towards 'undertows' in policing and security. Drawing from not only a wealth of academic sources but also literature and popular culture, this book unpicks what these new forms of security mean for governance." --Book Jacket.

## **Warfare in the Age of Non-state Actors**

### **Empire's Labor**

Haoles in Hawai'i strives to make sense of haole (white person/whiteness in Hawai'i) and "the politics of haole" in current debates about race in Hawai'i. Recognizing it as a form of American whiteness specific to Hawai'i, the author argues that haole was forged and reforged over two centuries of colonization and needs to be understood in that context. Haole reminds us that race is about more than skin color as it identifies a certain amalgamation of attitude and behavior that is at odds with Hawaiian and local values and social norms. By situating haole historically and politically, the author asks readers to think about ongoing processes of colonization and possibilities for reformulating the meaning of haole. For more information on Haoles in Hawaii, visit <http://haolesinhawaii.blogspot.com/>

### **The Assassins' Gate**

### **Employing Private Military Companies**

### **Chasing Ghosts**

Exposes the inner sanctions of the military-industrial complex for the purpose of stopping fraud and waste in weapons production by questioning weapon effectiveness, exposing Pentagon lies, and examining procedures

## **The Lonely Soldier**

## **The American Culture of War**

## **The Impact of 9/11 on Business and Economics**

More than ever, humanitarian aid workers and diplomats are engaging with vulnerable populations in areas once considered too dangerous to touch. Drawing on decades of on-the-ground experience in conflict environments around the world, Van Arsdale and Smith offer this important and revealing guide to the ethics, theory, and practice of work outside so-called Green Zones of safety. On behalf of governments or NGOs, on missions ranging from complex humanitarian emergencies to post-war reconstruction, social scientists in interdisciplinary teams are operating in settings where the line between civilian and military projects is increasingly blurred. This book is essential reading for anyone who wants to understand the realities of these new humanitarianisms and for the fields of international relations, anthropology, development studies, and peace studies.

## **The Pentagon Underground**

The Lonely Soldier--the inspiration for the documentary The Invisible War--vividly tells the stories of five women who fought in Iraq between 2003 and 2006--and of the challenges they faced while fighting a war painfully alone. More American women have fought and died in Iraq than in any war since World War Two, yet as soldiers they are still painfully alone. In Iraq, only one in ten troops is a woman, and she often serves in a unit with few other women or none at all. This isolation, along with the military's deep-seated hostility toward women, causes problems that many female soldiers find as hard to cope with as war itself: degradation, sexual persecution by their comrades, and loneliness, instead of the camaraderie that every soldier depends on for comfort and survival. As one female soldier said, "I ended up waging my own war against an enemy dressed in the same uniform as mine." In The Lonely Soldier, Benedict tells the stories of five women who fought in

Iraq between 2003 and 2006. She follows them from their childhoods to their enlistments, then takes them through their training, to war and home again, all the while setting the war's events in context. We meet Jen, white and from a working-class town in the heartland, who still shakes from her wartime traumas; Abbie, who rebelled against a household of liberal Democrats by enlisting in the National Guard; Mickiela, a Mexican American who grew up with a family entangled in L.A. gangs; Terris, an African American mother from D.C. whose childhood was torn by violence; and Eli PaintedCrow, who joined the military to follow Native American tradition and to escape a life of Faulknerian hardship. Between these stories, Benedict weaves those of the forty other Iraq War veterans she interviewed, illuminating the complex issues of war and misogyny, class, race, homophobia, and post-traumatic stress disorder. Each of these stories is unique, yet collectively they add up to a heartbreaking picture of the sacrifices women soldiers are making for this country. Benedict ends by showing how these women came to face the truth of war and by offering suggestions for how the military can improve conditions for female soldiers—including distributing women more evenly throughout units and rejecting male recruits with records of violence against women. Humanizing, urgent, and powerful, *The Lonely Soldier* is a clarion call for change. From the Hardcover edition.

## **The Governance of Policing and Security**

Reliance on the private military industry and the privatization of public functions has left our government less able to govern effectively. When decisions that should have been taken by government officials are delegated (wholly or in part) to private contractors without appropriate oversight, the public interest is jeopardized. Books on private military have described the problem well, but they have not offered prescriptions or solutions this book does.

## **Shadow Force**

From one of America's most-respected journalists and modern historians comes the first full-length biography of Jimmy Carter, the thirty-ninth president of the United States and Nobel Prize-winning humanitarian. Jonathan Alter tells the epic story of an enigmatic man of faith and his improbable journey from barefoot boy to global icon. Alter paints an intimate and surprising portrait of the only president since Thomas Jefferson who can fairly be called a Renaissance Man, a complex figure—ridiculed and later revered—with a piercing intelligence, prickly intensity, and biting wit beneath the patented smile. Here is a moral exemplar for our times, a flawed but underrated president of decency and vision who was committed to telling the truth to the American people. Growing up in one of the meanest counties in the Jim Crow South, Carter is the only American president who essentially lived in three centuries: his early life on the farm in the 1920s without electricity or running water might as well have been in the nineteenth; his presidency put him at the center of major events in the twentieth; and his efforts on conflict resolution and global health set him on the cutting edge of the challenges of the

twenty-first. Drawing on fresh archival material and five years of extensive access to Carter and his entire family, Alter traces how he evolved from a timid, bookish child—raised mostly by a black woman farmhand—into an ambitious naval nuclear engineer writing passionate, never-before-published love letters from sea to his wife and full partner, Rosalynn; a peanut farmer and civic leader whose guilt over staying silent during the civil rights movement and not confronting the white terrorism around him helped power his quest for racial justice at home and abroad; an obscure, born-again governor whose brilliant 1976 campaign demolished the racist wing of the Democratic Party and took him from zero percent to the presidency; a stubborn outsider who failed politically amid the bad economy of the 1970s and the seizure of American hostages in Iran but succeeded in engineering peace between Israel and Egypt, amassing a historic environmental record, moving the government from tokenism to diversity, setting a new global standard for human rights, and normalizing relations with China among other unheralded and far-sighted achievements. After leaving office, Carter eradicated diseases, built houses for the poor, and taught Sunday school into his mid-nineties. This engrossing, monumental biography will change our understanding of perhaps the most misunderstood president in American history.

## **The Summons of Death on the Medieval and Renaissance English Stage**

As a First Lieutenant and Infantry Platoon Leader for the U.S. Army National Guard, Paul Rieckhoff was charged with leading thirty-eight men in Iraq. He spent almost a year in one of the bloodiest and most volatile areas of Baghdad. And when he finally came home, he vowed to tell Americans the harrowing truth. He does just that, uncensored and unrehearsed, "and with wit and passion" (Arianna Huffington), in *Chasing Ghosts*—the first criticism of the Iraq war written by a soldier who fought in it.

## **The First Book of Samuel**

*Beyond the Glory* is a compelling sequel to the book *To Thine be The Glory*. It reveals in more detail social issues previously touched upon in the book and discusses valuable lessons to be learnt. The book frequently references scripture passages in order to illuminate, validate and provide essential tools to aid in life. It discusses hard facts regarding developing a relationship with God, attitudes towards money, divorce and breakdowns within the family units. This book is a must read for married couples, singles, families, Christians and people seeking to know their life's purpose. You will not be able to put this book down, but constantly be using it as a reference manual.

## **Beyond the Glory**

## **Encyclopedia of the Age of Imperialism, 1800-1914**

A defining work in the "Inner Emigration" literary movement, Friedrich Reck-Malleczewen's History of the Münster Anabaptists was written in 1937 as a criticism of the Nazi regime. This English translation includes documents, scholarly essays, and a detailed introduction.

## **The Bibliographic Index**

This work offers an examination of the role that private security and military contractors have played in Iraq since the fall of Saddam Hussein in 2003.

## **Internationale Bibliographie der Rezensionen wissenschaftlicher Literatur**

## **The Future of Capitalism**

Shattered Minds is the first book to investigate how American military bureaucracies have let our troops down by failing to upgrade one of the most important pieces of personal safety equipment: the combat helmet. Two longtime employees of North Dakota defense contractor Sioux Manufacturing discovered that the required density of the Kevlar material woven into the netting of combat helmets was being shorted. After bringing their discovery to the attention of management, their boss, rather than cleaning up the illegal practice, accused them of having an adulterous affair. Both employees were fired, leading to a lawsuit and a court judgment in their favor that eventually brought the company's bad-faith practices to light. Around the same time, a separate whistleblower, a retired Navy doctor, was pulled into a bizarre struggle with Army and Marine bureaucracies when he discovered from his Marine grandson that the protective webbing inside the military helmets was inadequate. Why was the military so resistant to upgrading the most essential piece of gear to protect soldiers from traumatic brain injury? Interweaving these two whistleblower stories, Robert H. Bauman and Dina Rasor explain why the military, despite news coverage and congressional hearings on the faulty helmet, continued to do the indefensible. They also suggest how the public, the press, and military institutions can remedy the problem to give U.S. troops effective helmets when serving to protect their country.

## **Humanitarians in Hostile Territory**

In this shocking exposé, two government fraud experts reveal how private contractors have put the lives of countless

American soldiers on the line while damaging our strategic interests and our image abroad. From the shameful war profiteering of companies like Halliburton/KBR to the sinister influence that corporate lobbyists have on American foreign policy, Dina Rasor and Robert H. Bauman paint a disturbing picture. Here they give the inside story on troops forced to subsist on little food and contaminated water, on officers afraid to lodge complaints because of Halliburton's political clout, on millions of dollars in contractors' bogus claims that are funded by American taxpayers. Drawing on exclusive sources within government and the military, the authors show how money and power have conspired to undermine our fighting forces and threaten the security of our country.

## **Sovereignty Games**

In a dramatic unveiling of the little-known world of contracted military logistics, Adam Moore examines the lives of the global army of laborers who support US overseas wars. *Empire's Labor* brings us the experience of the hundreds of thousands of men and women who perform jobs such as truck drivers and administrative assistants at bases located in warzones in the Middle East and Africa. He highlights the changes the US military has undergone since the Vietnam War, when the ratio of contractors to uniformed personnel was roughly 1:6. In Afghanistan it has been as high as 4:1. This growth in logistics contracting represents a fundamental change in how the US fights wars, with the military now dependent on a huge pool of contractors recruited from around the world. It also, Moore demonstrates, has social, economic, and political implications that extend well beyond the battlefields. Focusing on workers from the Philippines and Bosnia, two major sources of "third country national" (TCN) military labor, Moore explains the rise of large-scale logistics outsourcing since the end of the Cold War; describes the networks, infrastructures, and practices that span the spaces through which people, information, and goods circulate; and reveals the experiences of foreign workers, from the hidden dynamics of labor activism on bases, to the economic and social impacts these jobs have on their families and the communities they hail from. Through his extensive fieldwork and interviews, Moore gives voice to the agency and aspirations of the many thousands of foreigners who labor for the US military. Thanks to generous funding from UCLA and its participation in TOME (Toward an Open Monograph Ecosystem), the ebook editions of this book are available as Open Access volumes from Cornell Open ([cornellopen.org](http://cornellopen.org)) and other repositories.

## **Culture Wars**

Provides an historiographical survey and comprehensive bibliography on the Southwest Pacific Campaign of World War II.

## **His Very Best**

Presents information on the era between the Napoleonic Wars and the outbreak of World War I strongly characterized by the extension of power and dominion of some nations over many others by military coercion or by political and economic compulsions.

## **Shattered Minds**

In 1951 Gaines Post was a gangly, bespectacled, introspective teenager preparing to spend a year in Paris with his professorial father and older brother; his mother, who suffered from extreme depression, had been absent from the family for some time. Ten years later, now less gangly but no less introspective, he was finishing a two-year stint in the army in West Germany and heading toward Oxford on a Rhodes scholarship, having narrowly escaped combat in the Berlin crisis of 1961. His quietly intense coming-of-age story is both self-revealing and reflective of an entire generation of young men who came to adulthood before the Cuban Missile Crisis and the Vietnam War. Post's experiences in high school in Madison, Wisconsin, and Paris, his Camus-influenced undergraduate years at Cornell University, and his army service in Germany are set very effectively against the events of the Cold War. McCarthyism and American crackdowns on dissidents, American foreign and military policy in Western Europe in the nuclear age, French and German life and culture, crises in Paris and Berlin that nearly bring the West to war and the Post family to dissolution—these are the larger scenes and subjects of his self-disclosure as a contemplative, conflicted "Cold War agnostic." His intelligent, talented mother and her fragile health hover over Post's narrative, informing his hesitant relationships with women and his acutely questioning sense of self-worth. His story is strongly academic and historical as well as political and military; his perceptions and judgments lean toward no ideological extreme but remain true to the heroic ideals of his boyhood during the Second World War.

## **Outsourcing Sovereignty**

## **International Bibliography of Book Reviews of Scholarly Literature Chiefly in the Fields of Arts and Humanities and the Social Sciences**

The Impact of 9/11 on Business and Economics is the second volume of the six-volume series *The Day that Changed Everything?* edited by Matthew J. Morgan. The series brings together from a broad spectrum of disciplines the leading thinkers of our time to reflect on one of the most significant events of our time.

## **A History of the Münster Anabaptists**

The American Culture of War presents a sweeping, critical examination of every major American war of the late 20th century: World War II, Korea, Vietnam, the First and Second Persian Gulf Wars, through to Operation Enduring Freedom. Lewis deftly traces the evolution of US military strategy, offering an original and provocative look at the motives people and governments used to wage war, the debates among military personnel, the flawed political policies that guided military strategy, and the civilian perceptions that characterized each conflict. Now in its second edition, The American Culture of War has been completely revised and updated. New features include: Completely revised and updated chapters structured to facilitate students' ability to compare conflicts New chapters on Operation Iraqi Freedom and the current conflict in Afghanistan New conclusion discussing the American culture of war and the future of warfare Over fifty maps, photographs, and images to help students visualize material Expanded companion website with additional pedagogical material for both students and researchers. The American Culture of War is a unique and invaluable survey of over seventy years of American military history, perfect for any student of America's modern wars. For additional information and classroom resources please visit The American Culture of War companion website at [www.routledge.com/cw/lewis](http://www.routledge.com/cw/lewis).

## **Government Executive**

This book offers an in-depth examination of the strategic use of State sovereignty in contemporary European and international affairs and the consequences of this for authority relations in Europe and beyond. It suggests a new approach to the study of State sovereignty, proposing to understand the use of sovereignty as games where States are becoming more instrumental in their claims to sovereignty and skilled in adapting it to the challenges that they face.

## **The Southwest Pacific Campaign, 1941-1945**

## **General Douglas MacArthur, 1880-1964**

## **Choice**

One of the most controversial figures in American history is the subject of this first comprehensive assessment and survey of all the writings by and about General of the Army Douglas MacArthur. A short biographical essay and chronology set the stage for the historiographical critique, which is organized topically and into different time periods and cross-referenced to the annotated bibliography of 759 published and unpublished sources of all kinds. The guide describes archival collections and research facilities; points to conflicting interpretations about the role of General MacArthur in World War II, in the

occupation of Japan, in the Korean War, and in the sensational recall from his position as Far Eastern Commander in 1951; and suggests areas for further research. This easy-to-use guide for readers at all levels who are interested in critical moments in 20th-century world history, is timed also for World War II commemorations.

## **Betraying Our Troops**

THE ASSASSINS' GATE: AMERICA IN IRAQ recounts how the United States set about changing the history of the Middle East and became ensnared in a guerilla war in Iraq. It brings to life the people and ideas that created the Bush administration's War on Terror policy and led America to the Assassins' Gate—the main point of entry into the American zone in Baghdad. The consequences of that policy are shown in the author's brilliant reporting on the ground in Iraq, where he made four tours on assignment for *The New Yorker*. We see up close the struggles of American soldiers and civilians and Iraqis from all backgrounds, thrown together by a war that followed none of the preconceived scripts. *The Assassins' Gate* also describes the place of the war in American life: the ideological battles in Washington that led to chaos in Iraq, the ordeal of a fallen soldier's family, and the political culture of a country too bitterly polarized to realize such a vast and morally complex undertaking. George Packer's first-person narrative combines the scope of an epic history with the depth and intimacy of a novel, creating a masterful account of America's most controversial foreign venture since Vietnam.

## **The Gentleman from Maryland**

## **The Complete Guide to Offshore Residency, Dual Citizenship and Second Passports**

## **Haoles in Hawaii**

The former Maryland congressman Robert Bauman reveals this controversial account of how his career in politics was ruined by the scandalous headlines that made public his homosexuality, and how he came to terms with the following events to make a new life.
