To the admirer of farm machinery in all its gritty splendor, the tractor is more than the mechanical workhorse of the modern field. It is a testament to American know-how, a work of mechanical art truly in the American grain. Among these hard-working machines, Ford tractors hold a special place after nearly a century of bringing innovation, dependability, and good old American muscle to farms and fields worldwide. This book provides a hands-on guide to restoring these venerable machines from the ground up, from the first models made to those produced as recently as 1965. With hundreds of full-color photographs, the guide is not just clear and easy-to-follow, but also a feast for the eyes for tractor aficionados. Beginning at the beginning--how to choose and buy your tractor--Tharran Gaines takes readers through step-by-step directions for the complete restoration of Fordson, Ford-Ferguson, and Ford tractors. In straightforward terms he covers everything from troubleshooting and disassembly to engine and gearbox rebuilds,

electrical work, reassembly, painting, and post-restoration care and maintenance. Informative photographs and proven tips, techniques, and money-saving advice from experienced restorers make the book an invaluable resource for amateur mechanic and professional alike. “Jerry Nelson’s column comes from the true heart of the Midwest. He has the true voice, the slow twang. He knows wheat from barley. He knows hardware, he knows vegetation, he knows people.”—Garrison Keillor In the tradition of Mark Twain and Jean Shepherd, Dave Barry and Garrison Keillor, Jerry Nelson is a humorist whose beat is the American heartland, a small-town world of pickup trucks and Sunday night pancake dinners, dropping in on neighbors and complaining about the county agent. His depictions of daily life, from the point of view of an ex-dairy farmer and taciturn husband with a twinkle in his eye, are read by 250,000 people a week—and occasionally woven into Prairie Home Companion scripts. These are stories of courtship; childbirth—he offers the delivery room doctor the use of his calf puller; family; neighbors; chores; and the duties of a father—why is it that a man who spends his days in cow manure can’t change a baby’s diaper? Knee-slappingly funny one moment, poignant the next, it’s a very special look at a distinctly American way of life.

The Chinese are inordinately proud of having invented, among a whole host of other things, the compass (without which the world would have got lost), paper (without which books would not exist), the printing press (ditto), porcelain (no pretty matching chinaware), silk (no decadence), pasta (what would the Italians eat?), the wheelbarrow (how would civilisation have fared without it?) and the bristle toothbrush. A guide to understanding the Chinese which dispels or confirms preconceived prejudices with humor and insight.

The definitive book on steak has never been written-until now "Of all the meats, only one merits its own structure. There is no such place as a lamb house or a pork house, but even a small town can have a steak house." So begins Mark Schatzker's ultimate carnivorous quest. Fed up with one too many mediocre steaks, the intrepid journalist set out to track down, define, and eat the perfect specimen. His journey takes him to all the legendary sites of steak excellence-Texas, France, Scotland, Italy, Japan, Argentina, and Idaho's Pahsimeroi Valley-where he discovers the lunatic lengths steak lovers will go to consume the perfect cut. After contemplating the merits of Black Angus, Kobe, Chianina, and the prehistoric aurochs-a breed revived by the Nazis after four hundred years of extinction-

Schatzker adopts his own heifer, fattens her on fruit, acorns, and Persian walnuts, and then grapples with ambivalence when this near-pet appears on his plate. Reminiscent of both Bill Bryson's and Bill Buford's writing, *Steak* is a warm, humorous, and wide-ranging read that introduces a wonderful new travel and food writer to the common table.

George and his wife Molly are staying at Eleanor's family run hotel, and whilst George believed Eleanor was a beautiful and charming widow, Molly has other ideas. Is Molly a little jealous? Or was Eleanor more a black widow - a ruthless manipulator of all those caught in her far-reaching web? Can Molly prove it in time to prevent another death?
