The Lost Train

A war is coming, a battle that will stretch from the prehistoric forests of the ancient past to the cutting-edge research labs of today, all to reveal a true mystery buried deep within our DNA, a mystery that will leave readers changed forever . . . In this groundbreaking masterpiece of ingenuity and intrigue that spans 50,000 years in human history, New York Times bestselling author James Rollins takes us to mankind's next great leap. But will it mark a new chapter in our development . . . or our extinction? In the remote mountains of Croatia, an archaeologist makes a strange discovery: a subterranean Catholic chapel, hidden for centuries, holds the bones of a Neanderthal woman. In the same cavern system, elaborate primitive paintings tell the story of an immense battle between tribes of Neanderthals and monstrous shadowy figures. Who is this mysterious enemy depicted in these ancient drawings and what do the paintings mean? Before any answers could be made, the investigative team is attacked, while at the same time, a bloody assault is made upon a primate research center outside of Atlanta. How are these events connected? Who is behind these attacks? The search for the truth will take Commander Gray Pierce of Sigma Force 50,000 years into the past. As he and Sigma trace the evolution of human intelligence to its true source, they will be plunged into a cataclysmic battle for the future of humanity that stretches across the globe . . . and beyond. With the fate of our future at stake, Sigma embarks on its most harrowing odyssey ever—a breathtaking quest that will take them from ancient tunnels in Ecuador that span the breadth of South America to a millennia-old necropolis holding the bones of our ancestors. Along the way, revelations

involving the lost continent of Atlantis will reveal true mysteries tied to mankind's first steps on the moon. In the end, Gray Pierce and his team will face to their greatest threat: an ancient evil, resurrected by modern genetic science, strong enough to bring about the end of man's dominance on this planet. Only this time, Sigma will falter—and the world we know will change forever.

In the vein of #Girlboss and *Nice Girls Don't Get the Corner Office*, discover how to thrive at work from the head of the Global Innovation Coalition for Change at UN Women with this “passionate, practical roadmap for addressing inequality and finally making our workplaces work for women” (Arianna Huffington). For years, we've been telling women that in order to succeed at work, they have to change themselves first—lean in, negotiate like a man, don't act too nice or you'll never get the corner office. But after sixteen years working with major Fortune 500 companies as a gender equality expert, Michelle King has realized one simple truth—the tired advice of fixing women doesn't fix anything. The truth is that workplaces are gendered; they were designed by men for men. Because of this, most organizations unconsciously carry the idea of an “ideal worker,” typically a straight, white man who doesn't have to juggle work and family commitments. Based on King's research and exclusive interviews with major companies and thought leaders, *The Fix* reveals why denying the fact that women are held back just because they are women—what she calls gender denial—is the biggest obstacle holding women back at work and outlines the hidden sexism and invisible barriers women encounter at work every day. Women who speak up are seen as pushy. Women who ask for a raise are seen as difficult. Women who spend hours networking don't get the same career benefits as men do. Because women don't look like the ideal worker and can't behave like the ideal worker, they are passed over for promotions, paid less, and pushed out of the workforce, not because they aren't good enough, but because they aren't men. In this fascinating and empowering book, King outlines the invisible barriers that hold women back at all stages of their careers, and provides readers with a clear set of takeaways to thrive despite the sexist workplace, as they fight for change from within. Gender equality is not about women, and it is not about men—it is about making workplaces work for everyone. Together, we can fix work, not women.

Hidden Order

From the bestselling author of *THE LIONS OF LUCERNE* and *PATH OF THE ASSASSIN* comes another electrifying international thriller featuring all-American hero Scot Harvath, as he plunges into the frigid heart of the Russian tundra to save the fragile state of the union. On a cold January morning, the United States awakes to discover that an old enemy, one long believed dead and buried, has crawled out of its grave to lay siege to the world's only superpower. With the stunning discovery that enhanced Soviet-made suitcase nukes have been secreted in America's major cities, President Jack Rutledge gathers his National Security Council to weigh the feasibility of a first strike against the Russian Federation. There's only one problem. For over two decades, the Russians have been funnelling international aid money

into a top secret air defence system, which has just been brought on-line and which will render any conventional attack upon their country utterly ineffective. After exhausting all of his other options, and with Soviet sleeper agents preparing to detonate their deadly payloads across the United States, the president turns to the nation's final hope, ex-Navy SEAL and Secret Service Agent Scot Harvath. As high-voltage and timely as they come, STATE OF THE UNION is a frighteningly real, headline-ripping tale of espionage and intrigue that will keep readers guessing until the last tantalizing piece of the puzzle locks into place.

His masterful advance through rough terrain and fierce Celtic tribes proved his worth as a leader, but it was his extraordinary passage through the Alps—still considered treacherous even by modern climbers—that made him a legend. John Prevas combines rigorous research of ancient sources with his own excursions through the icy peaks to bring to life this awesome trek, solving the centuries-old question of Hannibal's exact route and shedding fresh light on the cultures of Rome and Carthage along the way. Here is the finest kind of history, sure to appeal to readers of Steven Pressfield's *Gates of Fire*: alive with grand strategy, the clash of empires, fabulous courage, and the towering figure of Hannibal Barca.

Near Dark

An inspiring, timely, and conversation-starting memoir from the barrier-breaking and Emmy Award-winning journalist Ilia Calderón—the first Afro-Latina to anchor a high-profile newscast for a major Hispanic broadcast network in the United States—about following your dreams, overcoming prejudice, and embracing your identity. As a child, Ilia Calderón felt like a typical girl from Colombia. In Chocó, the Afro-Latino province where she grew up, your skin could be any shade and you'd still be considered blood. Race was a non-issue, and Ilia didn't think much about it—until she left her community to attend high school and college in Medellín. For the first time, she became familiar with horrifying racial slurs thrown at her both inside and outside of the classroom. From that point on, she resolved to become “deaf” to racism, determined to overcome it in every way she could, even when she was told time and time again that prominent castings weren't “for people like you.” When a twist of fate presented her the opportunity of a lifetime at Telemundo in Miami, she was excited to start a new life, and identity, in the United States, where racial boundaries, she believed, had long since dissolved and equality was the rule. Instead, in her new life as an American, she faced a new type of racial discrimination, as an immigrant women of color speaking to the increasingly marginalized Latinx community in Spanish. Now, Ilia draws back the curtain on the ups and downs of her remarkable life and career. From personal inner struggles to professional issues—such as being directly threatened by a Ku Klux Klan member after an interview—she discusses how she built a new identity in the United States in the midst of racially charged violence and political polarization. Along the way, she'll show how she's overcome fear and confronted hate head on, and the inspirational philosophy that has always propelled her forward.

The first-ever biography of the man who created America's most famous whiskey Born in Lynchburg, Tennessee, in 1850, Jack Daniel became a legendary moonshiner at age 15 before launching a legitimate distillery ten years later. By the time he died in 1911, he was an American legend-and his Old No. 7 Tennessee sipping whiskey was an international sensation, the winner of gold medals at the St. Louis World's Fair and the Liege International Exposition in Belgium. Blood and Whiskey captures Daniel's indomitable rise in the rough-edged world of the nineteenth-century whiskey trade-and shows how his commitment to quality (his whiskey was always charcoal-filtered) and his flair for marketing and packaging (he launched his distinctive square bottle in 189-5) helped create one of America's most venerable and recognizable brands. Peter Krass (Hanover, NH) is the author of Carnegie (0-471-46883-5), cited by Barron's as the "definitive" biography and selected by Library Journal as one of the best biography/business books of 2002.
