Rebellious, entitled, disrespectful, many kids pummel their parents with demands, and boss them around with impunity. Experts might label them "difficult" and advise how to "fix" them. But parenting struggles rarely originate from just one side. Instead, they erupt at the volatile intersection of a child's personality with a parent's own insecurities and behaviors. Fixing the child requires fixing yourself. In *When Kids Call the Shots*, therapist and parenting expert Sean Grover untangles the forces driving family dysfunction, and helps parents assume leadership roles. With a liberating message and perceptive advice, the book explores: Three common bullying styles (defiant, manipulative, anxious) used by kids Parenting styles (guilt-prone, anxiety-fueled, fix-everything) that contribute to power imbalances Critical testing periods in a child's development Coping mechanisms that backfire Personalized plans for calmly exerting authority in any scenario And more Caving in to tantrums and threats breeds more of the same. Learn to stop the cycle of abusive behavior and make parenting a pleasure again.

The results of the first phase of research imply that nutrition interventions will not be effective if families do not have access to at least a minimum level of resources at the household level. Also, the child age at which maximum nutritional benefits can be seen should also be considered in program evaluations. The mediating role of nutritional and health knowledge suggest that these are pathways that can be implemented through non-formal educational settings. Finally, the modifying role of household context and social networks on care behaviors implies that programs that aim to improve care practices need to target entire households and communities rather than just mothers in order to be effective.

draws from her extensive background in child developmental psychology, social work, and family therapy to offer the first childcare bible for parents. Knowing the impact caregivers have on children coupled with the unregulated often unknown world of in-home childcare workers, Gold has devoted her professional career, and now this book, to helping parents navigate through this important--and woefully overlooked--process. She arms parents with invaluable tools, tips, and insider secrets to finding the perfect caregiver-family match. Gold's Family Needs Assessment helps parents identify the traits and conditions that are "must-haves," added "pluses," or nonnegotiable "deal breakers." Parents can then use this list of qualities to quickly weed out unqualified candidates. She also details what to ask over the phone and in a face-to-face interview, how to structure a trial run (which she deems essential), and what to spell out in a Nanny-Family Work Agreement--another essential tool included in the book. Readers learn her "Nanny Speak 1-2-3" technique to help clarify and resolve issues with the caregiver in a productive, positive way. In addition to saving hours and energy, Parents will also discover as much about parenting as they will about finding a nanny. Secrets of the Nanny Whisperer is chock-full of parenting gems about children's developmental stages, ways to nurture and stimulate the child, and essential strategies for maintaining harmonious and high-functioning parent-child-caregiver relationships. This book is a must read for parents who want to create a happier, healthier and safer childcare experience for their child.

Sharp and witty observations of academic life that range from the local to the global, from PowerPoint to the halls of power. Is a university education still relevant? What are the forces that threaten it? Should academics ever be allowed near Twitter? In *Academic Diary*, Les Back has chronicled three decades of his academic career, turning his sharp and often satirical eye to the everyday aspects of life on campus and the larger forces that are reshaping it. Presented as a collection of entries from a single academic year, the diary moves from the local to the global, from PowerPoint to the halls of power. With entries like "Ivory Towers" and "The Library Angel," these smart, humorous, and sometimes absurd campus tales not only demystify the opaque rituals of scholarship but also offer a personal perspective on the far-reaching issues of university life. Commenting on topics that range from the impact of commercialization and fee increases to measurement and auditing research, the diary offers a critical analysis of higher education today. At the same time, it is a passionate argument for the life of the mind, the importance of collaborative thinking, and the reasons that scholarship and writing are still vital for making sense of our troubled and divided world.
