Common Core Standards for Elementary Grades K-2 Math & English Language Arts

As the new English Language Arts Common Core State Standards take hold across the United States, the need grows for pre-service and in-service teachers to be ready to develop curriculum and instruction that addresses their requirements. This timely, thoughtful, and comprehensive text directly meets this need. It delineates a literacy practices and critical engagement curriculum framework for 6-12 English language arts education that explains and illustrates how the Standards' highest and best intentions for student success can be implemented from a critical, culturally relevant perspective that is firmly grounded in current literacy learning theory and research. The first 6-12 English language arts methods text to be aligned with the Standards, this book also addresses their limitations — formalist assumptions about literacy learning, limited attention to media/digital literacies, lack of attention to critical literacies, and questionable assumptions about linking standards and text complexity to specific grade levels. Specific examples of teachers using the literacy practices/critical engagement curriculum framework in their classrooms shows how these limitations can be surpassed. Features • Moves the CCSS framework into a view that literacy is a contextualized, social practice • Challenges simplistic models that homogenize adolescent learners • Adds the important element of critical literacy to English language arts classrooms • Provides specific examples of teachers in action implementing these practices • Interactive Companion Website with student and instructor resources. The Website is designed to foster interactivity through participation in an online teaching planning simulation with a text, video, or case on one side of the screen and a chat box for instructors and students to share their reactions and planning ideas. The Companion Website is linked to a wiki that serves as a repository for links, activities/units, and further reading.

Common Core Standards for High School English Language Arts

The Common Core State Standards have put close reading in the spotlight as never before. While elementary school teachers are certainly willing to teach students to closely read both literary and informational text, many are wondering what, exactly, this involves. Is there a process to follow? How is close reading different from guided reading or other common literacy practices? How do you prepare students to have their ability to analyze complex texts measured by Common Core assessments? Is it even possible for students in grades K-5 to "read to learn" when they're only just learning to read? Literacy experts Diane Lapp, Barbara Moss, Maria Grant, and Kelly Johnson answer these questions and more as they explain how to teach young learners to be close readers and how to make close reading a habit of practice in the elementary classroom. Informed by the authors' extensive field experience and enriched by dozens of real-life scenarios and downloadable tools and templates, this book explores

- * Text complexity and how to determine if a particular text is right for your learning purposes and your students.
- * The process and purpose of close reading in the elementary grades, with an emphasis on its role in developing the 21st century thinking, speaking, and writing skills essential for academic communication and required by the Common Core.
- * How to plan, teach, and manage close reading sessions across the academic disciplines, including the kinds of questions to ask and the kinds of support to provide.
- * How to assess close reading and help all students--regardless of linguistic, cultural, or academic background--connect deeply with what they read and derive meaning from a complex text. Equipping students with the tools and process of close reading sets them on the road to becoming analytical and critical thinkers--and empowered and independent learners. In this comprehensive resource, you'll find everything you need to start their journey.
