I Am 99 and Magical

SolderSmoke is the story of a secret, after-hours life in electronics. Bill Meara started out as a normal kid, from a normal American town. But around the age of 12 he got interested in electronics, and he has never been the same. To make matters worse, when he got older he became a diplomat. His work has taken him to Panama, Honduras, El Salvador, the Spanish Basque Country, the Dominican Republic, the Azores islands of Portugal, London, and, most recently, Rome. In almost all of these places his addiction to electronics caused him to seek out like-minded radio fiends, to stay up late into

the night working on strange projects, and to build embarrassingly large antennas above innocent foreign neighborhoods. SolderSmoke takes you into the basement workshops and electronics parts stores of these exotic foreign places, and lets you experience the life of an expatriate geek. If you are looking for restaurant or hotel recommendations, look elsewhere. But if you need to know where to get an RF choke re-wound in Santo Domingo, SolderSmoke is the book for you. SolderSmoke is no ordinary memoir. It is a technical memoir. Each chapter contains descriptions of Bill's struggles to understand (really understand) radio-electronic theory. Why does $P=IE$? Do holes really flow through transistors? What is a radio wave? How does a frequency mixer produce sum and difference frequencies? If these are the kinds of questions that keep you up at night, this book is for you. Finally, SolderSmoke is about brotherhood. International, cross-border brotherhood. Through the SolderSmoke podcast we have discovered that all around the world, in countries as different as Sudan and Switzerland, there are geeks just like us, guys with essentially the same story, guys who got interested in radio and electronics as teenagers, and who have stuck with it ever since. Our technical addiction gives us something in common, something that transcends national differences. And our electronics gives us the means to communicate. United by a common interest in radio, and drawn closer together by means of the internet, we form an "International Brotherhood of Electronic Wizards."

Adelphi may be a small town, but it houses a treasure that cannot be measured. When Bill McFar comes to town in search of a payload, he finds what he wants beneath the Adelphi hillside: a source of petroleum. On that grassy hillside rests a big wooden cross that represents the hope of the people, and inspires them as they go about their daily lives. No one in Adelphi wants the cross to move to facilitate McFar's greed. But he's powerful. And adamant. Will McFar get his way and uproot this beacon, offending the traditions and faith of the townspeople? Or will the story of the cross cause things to turn out another way altogether?part 2 Bill Macfar come back to his home town of Chillicothe Ohio he has some question like where does evil come from? why is there evil? but when the cross show up again what will all the story will be about this time.

This compelling book retells and revises the story of the German Renaissance and Reformation through the lives of two controversial men of the sixteenth century: the Saxon court painter Lucas Cranach (the Serpent) and the Wittenberg monk-turned-reformer Martin Luther (the Lamb). Contemporaries and friends (each was godfather to the other's children), Cranach and Luther were very different Germans, yet their collaborative successes merged art and religion into a revolutionary force that became the Protestant Reformation. Steven Ozment, an internationally recognized historian of the Reformation era, reprises the lives and works of Cranach (1472-1553) and Luther (1483-1546) in this generously illustrated book. He contends that Cranach's new art and Luther's oratory released a barrage of criticism upon the Vatican, the force of which secured a new freedom of faith and pluralism of religion in the Western world. Between Luther's pulpit praise of the sex drive within the divine estate of marriage and Cranach's parade of strong, lithe women, a new romantic, familial consciousness was born. The "Cranach woman" and the "Lutheran household"--both products of the merged Renaissance and Reformation worlds--evoked a new organization of society and foretold a new direction for Germany.
