Azgaar [39] has built an amazing vector map generator [40] with the ideas from Scott and Martin, and has a great blog [41] with writeups on biomes [42], confluences [43], and other topics. Open source [44]. (2018) Mapgen4 [45] is my successor to mapgen2, with different algorithms that run much faster at a much larger scale. The demo runs with 25k

"Dear Lady, let me express my fulsome appreciation for your most generous gift. It is so very rare to discover another of my own kind that appreciates my work, therefore to find understanding amongst a member of another race is nothing short of a revelation. I realise that you briefly trod my galleries, but the fact that you spotted in so short a time that my Acabrius War collection was
