AERO TRADER & CHOPPER SHOPPER, APRIL 1999

Since the last edition of this international bestseller, GPS has grown to become part of a larger international context, the Global Navigation Satellite System (GNSS). Both GPS and GNSS technologies are becoming ever more important in the everyday practice of survey and mappers. With GPS for Land Surveyors, Third Edition, a book written by a land s

Backpacker brings the outdoors straight to the reader's doorstep, inspiring and enabling them to go more places and enjoy nature more often. The authority on active adventure, Backpacker is the world's first GPS-enabled magazine, and the only magazine whose editors personally test the hiking trails, camping gear, and survival tips they publish. Backpacker's Editors' Choice Awards, an industry honor recognizing design, feature and product innovation, has become the gold standard against which all other outdoor-industry awards are measured.

GPS For Mariners is a comprehensive guide for recreational boaters to learn how to operate and effectively use today's GPS systems in everyday navigational situations. While all GPS products come with operational manuals and there are books on how to use your GPS for land or aerial navigation, there is very little information available to recreational boaters on how to best utilize their GPS for marine navigation. From learning the history of GPS, discovering the functions of the GPS, understanding basic and advance course-plotting, learning advance navigation with GPS, interfacing a GPS with an autopilot, to using a GPS with electronic charts on a PC, GPS For Mariners includes everything the novice to the more experienced boater should know about their GPS system. GPS For Mariners is the ultimate how-to guide and ready reference leading to GPS proficiency.
