With all the controversy and confusion over "best practice" issues in teaching reading, someone with the necessary experience, the ability to take the long view, and most of all a level head is essential to set things straight. This is where Regie Routman steps in: giving clarity, support, specific demonstrations, and confidence to teachers so they can teach reading in a manner that is consistent with research and learning theory and respectful of students' needs, interests, and abilities. In *Reading Essentials*, she realistically describes how to achieve these goals-and get high test scores too. Based on her continuing work teaching in schools, Routman proves that good teaching doesn't have to mean lots of hours spent planning. What's necessary is good thinking-thinking about what matters to kids, what kids need to know, how we can move them forward, and how to ensure that they comprehend and enjoy what they read-including struggling students. Readers will discover research-based strategies, immediately doable ideas, and detailed lessons-all based on an instructional framework that includes: demonstrations shared demonstrations guided practice independent practice. Throughout the text, Routman emphasizes the use of professional common sense and demonstrates how to maximize your time, making the most of every

This is his frank, vivid account of his buccaneering sea voyages around the world, from the Caribbean to the Pacific and East Indies. Filled with accounts of raids, escapes, wrecks and storms, it also contains precise observations of people, places, animals and food (including the first English accounts of guacamole, mango chutney and chopsticks). A bestseller on publication, this unique record of the colonial age influenced Robinson Crusoe, Gulliver's Travels and consequently the whole of English literature. This remarkable anthology introduces the short fiction of fourteen writers, major figures in the literary movements of three generations, who represent a range of class, ethnic, age, and political perspectives. It is filled with "unexpected gems", writes Scarlet Cheng in *Belles Lettres*, including Lin Hai-yin's story of a woman suffering under a feudal system that dominated Old China; Chiang Hsiao-yun's optimistic solutions to problems of the elderly in the rapidly changing Taiwan of the 1980; and in between, a dozen richly diverse stories of aristocrats, comrades, wifes, concubines, children, mothers, sexuality, rape, female initiation, and the tensions between traditional and modern life. "This is not western feminism with an Asian accent", says *Bloomsbury Review*, "but a description of one culture's reality. The woman protagonists survive both despite and because of their existence in a changing Taiwan." This book includes biographical headnotes, an introduction that addresses the literary movements represented, and an extensive bibliography.

But the other world—modern, industrial America—pulls at Abel, demanding his loyalty, trying to claim his soul, and goading him into a destructive, compulsive cycle of depravity and disgust.
