### Go Math!

Comprehensive, Rigorous Prep for the New GMAT. Every year students pay as much as \$1,000 to test prep companies to prepare for the GMAT. Now you can get the same preparation in a book. GMAT Prep Course provides the equivalent of a 2-month, 50-hour course. Although the GMAT is a difficult test, it is a very

learnable test. GMAT Prep Course presents a thorough analysis of the GMAT and introduces numerous analytic techniques that will help you immensely, not only on the GMAT but in business school as well. Features: \* Math: Twenty-two chapters provide comprehensive review of GMAT math. \* Integrated Reasoning: Thorough analysis of the new integrated reasoning section. \* Logical Reasoning: Discover the underlying simplicity of these problems and learn the tactics the GMAT writers use to obfuscate the answers. \* Reading Comprehension: Develop the ability to spot places from which questions are likely to be drawn as you read a passage. (pivotal words, counter-premises, etc.) \* Sentence Correction: Comprehensive review of GMAT grammar. \* Writing Assessment: Learn how to get top scores on your Analysis of Issue and Analysis of Argument essays. \* Mentor Exercises: These exercises provide hints, insight, and partial solutions to ease your transition from seeing GMAT problems solved to solving them on your own.

### **Ditch That Textbook**

GO Math! combines fresh teaching approaches with never before seen components that offer everything needed to address the rigors of new standards and assessments. The new Standards Practice Book, packaged with the Student Edition, helps students achieve fluency, speed, and confidence with grade-level concepts. GO Math! is the first K-6 math program written to align with the Common Core. With GO Math! you will hit the ground running and have everything you need to teach the Common Core State Standards. GO Math! combines fresh teaching approaches with everything needed to address the rigors of the Common Core Standards. Using a unique write-in student text at every grade, students represent, solve, and explain -- all in one place. - Publisher.

Textbooks are symbols of centuries-old education. They're often outdated as soon as they hit students' desks. Acting "by the textbook" implies compliance and a lack of creativity. It's time to ditch those textbooks--and those textbook assumptions about learning In Ditch That Textbook, teacher and blogger Matt Miller encourages educators to throw out meaningless, pedestrian teaching and learning practices.

He empowers them to evolve and improve on old, standard, teaching methods. Ditch That Textbook is a support system, toolbox, and manifesto to help educators free their teaching and revolutionize their classrooms.

### **Go Math Assessment Guide**

UPDATED with 150 additional math problems! Our CCLS (Common Core Learning Standards) series for 3rd Grade Mathematics version prepares students throughout

New Jersey for the required Common Core Learning Standards to test students' math proficiency. The emphasis is on representing and solving problems involving multiplication and division; understanding properties of multiplication and the relationship between multiplication and division; multiplying and dividing within 100; solving problems involving the four operations, and identify and explain patterns in arithmetic; using place value understanding and properties of operations to perform multi-digit arithmetic; developing understanding of fractions as numbers; solving problems involving measurement and estimation; representing and interpreting data; and reasoning with shapes and their attributes. These standards are covered extensively by the practice problems. This book contains over 500 practice problems aligned to each Common Core Learning Standard. In addition the book contains an answer key to practice problems.

### **Principles of Economics**

Alfred Marshall, Principles of Economics (1890) – Founder of Modern (Neo-classical) Economics. His book Principles of Economics was the dominant textbook in economics for a long time and it is considered to be his seminal work.

"California GO Math! is specifically designed for California teachers and students to ensure success with California Common Core Standards and the Smarter Balanced Assessment. California GO Math! K-6 incorporates mathematical practices in every lesson so students develop the mathematical thinking they need. It features exploration-driven lessons that begin with problem-based situations and build to more abstract problems. It includes resources to personalize instruction for Rtl, online assessment, and ongoing data to inform instruction for Intervention, ELD, and challenge."--Publisher's website.

The Creative Curriculum comes alive! This videotape-winner of the 1989 Silver Apple Award at the National Educational Film and Video Festival--demonstrates how teachers set the stage for learning by creating a dynamic well-organized environment. It shows children involved in seven of the interest areas in the The Creative Curriculum and explains how they learn in each area. Everyone conducts in-service training workshops for staff and parents or who teaches early childhood education courses will find the video an indispensable tool for explaining appropriate practice.

## **California Go Math!**

"It's a sweet, juicy peach! A big round peach has fallen to the ground. Six animal friends are eager to gobble it up, but which one will be the first to take a bite? Each animal wants to eat first--but there's a delicious surprise ahead for all! Elementary math concepts that relate to comparing, sorting, ordering, and measuring expand the lighthearted story about friendship--and competition"--Page [4] of cover.

## **HESI A2 Secrets Study Guide**

Our 1st edition Missouri 7th Grade Math Test Prep for Common Core State Standards is an excellent resource to assess and manage student's understanding of concepts outlined in the Common Core State Standards Initiative. This resource is formatted into three sections: Diagnostic, Practice, and Assessment with multiple choice in each section. The material covered includes "understanding ratio concepts and using ratio reasoning to solve problems; applying and extending previous understandings of multiplication and division to divide fractions by fractions; computing fluently with multi-digit numbers and find common factors and multiples; applying and extending previous understandings of numbers to the system of rational numbers; applying and extending previous understandings of arithmetic to algebraic expressions; reasoning about and solve one-variable equations and inequalities; representing and analyzing quantitative relationships between dependent and independent variables; solving real-world and mathematical problems involving area, surface area, and volume; developing understanding of statistical variability; and summarizing and describing distributions." These standards are covered extensively by the practice problems. This book contains over 850 practice problems aligned to each Common Core State Standard. In addition the book contains an answer key to practice problems. Paperback: 317 double-sided pages Publisher: Teachers' Treasures, Inc. Language: English
