The events of your life, from local walks to exotic trips, can provide endless inspiration for textile art. This inspiring book shows you how to record your experiences, using sketchbooks, journals and photography, to create personal narratives that can form a starting point for more finished stitched-textile pieces. Acclaimed textile artist and teacher Cas Holmes, whose work is often inspired by her life and the journeys she makes, helps you find inspiration through your own life and explains how to record what you see in sketchbooks and journals, which can often become beautiful objects in themselves. She explains how you can use photography, both as documentation and as inspiration, and sometimes incorporate it into the work itself, along with found objects and ephemera.

The second in a series of highly practical, hands-on, step-by-step photographic manuals, *Upgrading Your Boat's Interior* fills a gap in the market for the DIY boat builder and repairer. It is a subject covered only in piecemeal fashion by the yachting press, which, like general boat maintenance and repair manuals, can't go into the level of detail Mike Westin does. This is a visual, hand-holding guide, dwelling on the practical details of upgrading every aspect of a tired boat's interior and related systems as it explains each procedure rather than focussing on the theory (which is relegated to an appendix, for those who wish to go further). It's surprising how a few simple renovations and upgrades can transform the look and comfort of a cabin. Anyone planning to attempt these projects will find this
