Bubble Head One Slick Chick

Bubble Head is a Crested Polish Banty – One Slick Chick – and a strange-looking chicken that takes on a crafty fox in the first part of this children's adventure book.

“I happen to be a stunning chicken. I allow these humans to pet my lovely feathers and tell me I’m one hot chicken, but of course I know this. It’s obvious I’m a chicken worth pick-en.” Whether she’s strange-looking or lovely, this hip chick will delight young readers as she takes on some worthy adversaries, including a killer fox, and a large snapping spider that appears on Halloween (and if it bites, you become the spider). Does Bubble Head come out on top?

Marine Science Into the New Millennium

Once you master the use of handsaws, you'll be awed by the simple power of this humble tool. If you can see and follow a line - any line - you can cut the line. There's no need for crazy setups or jigs; just grab the right saw and start cutting - any angle, any shape. Complex joinery becomes no more than a series of lines to cut on your stock. Yet many woodworkers - both beginners and professionals - are intimidated by handsaws. Handsaw Essentials - compiled from more than a decade's worth of blog entries and magazine articles - will change that. Christopher Schwarz and the editors and contributors to Popular Woodworking help you choose the right saw for your budget and project, use it successfully and keep it cutting like new.

How to Marry a Cowboy

Through a detailed description of the life and activities of the middle-class married woman of London between 1875 and 1900, this study reveals how housewives unwittingly became engines for change as the new century neared. In marked contrast to the stereotypical depictions of Victorian women in literature and on television, Draznin reveals a woman seldom seen: the stay-at-home housewife whose activities were not much different than those of her counterparts today. By exploring her daily activities, how she cleaned her home, disciplined her children, managed her servants, stretched a limited budget, and began to indulge herself, one discovers the human dimension of women who lived more than a century ago. While most studies of this period consider values, aspirations, and attitudes, this book concentrates on actions, what these women did all day, to provide readers with a new perspective on Victorian life. Late-Victorian London was a surprisingly modern city with a public face of well-lit streets, an excellent underground railway system, and extended municipal services. In the home, gas stoves were replacing coal ranges and household appliances were becoming more common. Having both money to spend and a strong incentive to buy the new laborsaving devices, ready-to-wear clothing, and other manufactured products, the middle-class matron's resistance to change gave way to a rising consumer culture. Despite her nearly exclusive preoccupation with home and family, these urban women became agents for the modernization of Britain.

Creative Sewing Techniques by Machine

Grow a flower garden in beautiful fabrics to grace your bed or wall as Eleanor Burns presents Magic Vine. The patterns for Magic Vine originated in the 1930's in a newspaper quilt column written by Florence LaGanke Harris. As part of a series, LaGanke presented one new pattern each week. In addition to the pattern, the reader was treated to a fictitious story about a quilt group and their leader, Nancy Page. In the group, they shared stories, and decided on what colors to use for their flowers. Twenty-two flowers are applied in rows with twinning vines. It is magical because of the variety of flowers that grow on the vine. The vine grows quickly, like the magic vine in Jack and the Beanstalk. Whimsical flowers and leaves are easily made, using lightweight paper backed adhesive or the quick turn method using non-woven fusible interfacing. The outside edges are finished with a variety of techniques: satin stitch, blanket stitch, blind hemstitch, and hand applique. Give Magic Vine a traditional 1930's look using reproduction fabrics or bright and

contemporary with vibrant batiks. Enjoy embellishing the flowers with hand or machine stitches, beads, and crystals. Eleanor offers assistance on fabric selection and yardage and cutting charts for all five quilt sizes. Bonus projects are included. The book is conveniently bound in wire-o to lay flat.

Quilters love the look of textural, detailed stitching that adds to the beauty of the quilt top design. This stitching is actually the "quilting" in quilting, and many quilters feel that paying a professional for machine quilting is one of their only options. The walking foot is an accessory for sewing machines that's often used for machine quilting, but many quilters only use it to stitch around their designs. But the walking foot can do so much more, and author Jacquie Gering shows all of her tips, tricks and techniques to master all of the skills needed to quilt with a walking foot. This book covers the basics of using the walking foot, in addition to preparing the quilt, marking, managing large quilts, preventing puckers and keeping lines straight. Chapters will include a variety of types of walking -foot quilting, including

channel quilting, matchstick quilting, and decorative stitch quilting. Quilters won't be limited to straight line quilting, either! They'll learn how to quilt spirals, simple curves, and marked curves like braids and clamshells

First Time Sewing with a Serger

A hilarious collection of stories from the writer The New York Times called "the novelist of his generation" Returning to the form in which he began, Sam Lipsyte, author of the New York Times bestseller *The Ask*, offers up *The Fun Parts*, a book of bold, hilarious, and deeply felt fiction. A boy eats his way to self-discovery while another must battle the reality-brandishing monster preying on his fantasy realm. Meanwhile, an aerobics instructor, the daughter of a Holocaust survivor, makes the most shocking leap imaginable to save her soul. These are just a few of the stories, some first published in *The New Yorker*, *The Paris Review*, or *Playboy*, that unfold in Lipsyte's richly imagined world. Other tales feature a grizzled and possibly deranged male birth doula, a doomsday hustler about to face the multi-universal truth of "the real-ass jumbo," and a tawdry glimpse of the northern New Jersey high school shot-putting circuit, circa 1986. Combining both the tragicomic dazzle of his beloved novels and the compressed vitality of his classic debut collection, *The Fun Parts* is Lipsyte at his best—an exploration of new voices and vistas from a writer Time magazine has said "everyone should read."

The Freedom of the Air

A mystical soft sci-fi for older teens and adults. At an unspecified time in the future a spiritual group of Earthlings establish their utopian society on a small Goldilocks planet at the edge of the known universe. It is here on Aquarius that Lily Reynolds spends a carefree childhood among the hills, streams and meadows of this new Eden. When the colonists have completed the building of homes and a school, tragedy strikes in the form of a deadly virus. Only twelve people survive, all of them children. Lily at the age of eleven, is the oldest. With no communication to other worlds, the youngsters wait for a promised starship for rescue. But it does not come. The children turn into teenagers with a limited knowledge of adult relationships. They have only each other and a few books to guide them. In time the teens become attuned to the mystical vibrations of the planet, as the Mansions of Karma appear periodically in the sky to remind them they are not alone, but forever a part of the great universal life force. And then one day the starship
