### Governments and Rebellions in Southeast Asia

The story of a joyful Great Dane with a sensitive stomach who stole her owners' hearts and helped them launch Three Dog Bakery. It was love at first sight. Amid the frenzied barking and prancing of a house full of Great Danes, one pup was shivering in the corner. Gracie. But when Dan Dye reached her, she struggled to her feet like a clumsy foal, raised her forehead to his, and announced, as clearly as if she had actually spoken the words, You know I'm the one. Now get me outta here! By turns funny, moving, tender, and inspiring, Gracie's tale is a treat for every dog lover. There is Gracie's first morning, racing around Dan in the snowy yard. Gracie's first determination to prove to her stepsisters, Dottie the Dalmation and Sarah the Black Lab, that she's one of the girls. Gracie's defiant romance with a pint-size charmer named Byron, a Boston Terrier from the wrong side of the fence. Then born of necessity, the eureka moment: When Gracie's delicate constitution starts turning into anorexia, Dan teaches himself how to cook, and in three days is baking her the cookies that will spur her appetite, launch Three Dog Bakery, and transform their lives forever. Courage. Compassion. Kindness. Soul. Tenacity. And joy, above all, joy. These qualities Gracie possessed in abundance, and shared with everyone, human or canine, who had the good fortune to cross her path. "It's funny how the smallest things can change a life. Gracie was that thing. If you're short on inspiration, read Amazing Gracie." —Chicago Tribune "Tickles the funny bone and touches the heart." —St. Louis Post-Dispatch

### The Diesel Brothers

One man's quest to find the oldest Bible scrolls in the world and uncover the story of the brilliant, doomed antiquarian accused of forging them. In the summer of 1883, Moses Wilhelm Shapira—archaeological treasure hunter and inveterate

social climber—showed up unannounced in London claiming to have discovered the oldest copy of the Bible in the world. But before the museum could pony up his £1 million asking price for the scrolls—which discovery called into question the divine authorship of the scriptures—Shapira’s nemesis, the French archaeologist Charles Clermont-Ganneau, denounced the manuscripts, turning the public against him. Distraught over this humiliating public rebuke, Shapira fled to the Netherlands and committed suicide. Then, in 1947 the Dead Sea Scrolls were discovered. Noting the similarities between these and Shapira’s scrolls, scholars made efforts to re-examine Shapira’s case, but it was too late: the primary piece of evidence, the parchment scrolls themselves had mysteriously vanished. Tigay, journalist and son of a renowned Biblical scholar, was galvanized by this peculiar story and this indecipherable man, and became determined to find the scrolls. He sets out on a quest that takes him to Australia, England, Holland, Germany where he meets Shapira’s still aggrieved descendants and Jerusalem where Shapira is still referred to in the present tense as a “Naughty boy”. He wades into museum storerooms, musty English attics, and even the Jordanian gorge where the scrolls were said to have been found all in a tireless effort to uncover the truth about the scrolls and about Shapira, himself. At once historical drama and modern-day mystery, *The Lost Book of Moses* explores the nineteenth-century disappearance of Shapira’s scrolls and Tigay’s globetrotting hunt for the ancient manuscript. As it follows Tigay’s trail to the truth, the book brings to light a flamboyant, romantic, devious, and ultimately tragic personality in a story that vibrates with the suspense of a classic detective tale.

## **The Queen of Speed**

A brilliant blend of Shop Class as Soulcraft and The Orchid Thief, Earl Swift's wise, funny, and captivating Auto Biography follows an outlaw auto dealer as he struggles to save a rusted '57 Chevy—a car that has already passed through twelve pairs of hands before his—while financial ruin, government bureaucrats and the FBI close in on him. Slumped among hundreds of other decrepit hulks on a treeless, windswept moor in eastern North Carolina, the Chevy evokes none of the Jet Age mystique that made it the most beloved car to ever roll off an assembly line. It's open to the rain. Birds nest in its seats. Officials of the surrounding county consider it junk. To Tommy Arney, it's anything but: It's a fossil of the twentieth-century American experience, of a place and a people utterly devoted to the automobile and changed by it in myriad ways. It's a piece of history—especially so because its flaking skin conceals a rare asset: a complete provenance, stretching back more than fifty years. So, hassled by a growing assortment of challengers, the Chevy's thirteenth owner—an orphan, grade-school dropout and rounder, a felon arrested seventy-odd times, and a man who's been written off as a ruin himself—embarks on a mission to save the car and preserve long record of human experience it carries in its steel and upholstery. Written for both gearheads and Sunday drivers, Auto Biography charts the shifting nature of the American Dream and our strange and abiding relationship with the automobile, through an iconic classic and an improbable, unforgettable hero.

The popularity of *The Seven Deadly Sins* dates back to the 4th Century. They enjoyed tremendous notoriety during the period we call the Middle Ages. While the popular assortment of sins is not directly from scripture, they have been the subject of many a sermon, lecture, writing and art. In his book *The Seven Deadly Sins: And Why We Love Them*, Steinbacher examines each in detail. He gives examples of how they effect us and how we conduct ourselves in this world. Included in this book is Steinbacher's essay, *An Angel In My Garden*.

## **Touch of Seduction**

From 1896 to 1935, the flamboyant and controversial Billy Sunday preached his version of the gospel to millions of people across the nation. In this nontraditional biography of the man regarded by his enthralled fans as God's unconventional messenger to a sinful world, the curator of the Billy Sunday Historic Site Museum recreates Sunday's life through a material culture lens. W. A. Firstenberger views the photographic record and the print record as well as the landscape, structure, and contents of the Sunday home in Winona Lake, Indiana, to give us an intimate view of Sunday and his family. Through an organizational scheme that incorporates memorabilia from childhood (samplers, Civil War badges), baseball (Billy's 1891 Philadelphia contract, scorecards), evangelism (cartoons, books such as *Monkeys and Missing Links*), social issues (KKK ads endorsing Sunday, his Women's Christian Temperance life membership certificate), life style (Arts and Crafts decorative

pieces, extensive photos of the family's Mount Hood bungalow), and family relations (his personal possessions and those of his wife, Nell, and their children), In Rare Form brings together the inconsistencies between Sunday's material world and his spiritual world. Since Sunday might have objected to a materialistic analysis of his life, Firstenberger has allowed him a say: each section of the book begins with an apt quote from Sunday's sermons and writings. Firstenberger also includes appendixes providing detailed information on Sunday's revivals and speaking appearances, his 870,075 documented converts, the members of his evangelistic team, the overall structure of his family, and an extensive bibliography. Acknowledging Sunday's faults and contradictions alongside his heroic accomplishments, the author presents a wryly insightful and innovative perspective on this larger-than-life figure.

For this book, Frank Raczon dug up the dirt and constructed the only modern history of the world's heaviest machinery. So many things differentiate the Caterpillar brand from its competitors that it can be difficult to know where to begin. From its trademark Caterpillar Yellow to its tradition of making the most rock-solid products on earth, everything about the Caterpillar name is synonymous with the world's toughest machines. In fact, the company's success has led to it being used by economists as a bellwether for the state of the economy as a whole. In Caterpillar: Modern Earthmoving Marvels, author Frank Raczon details the largest and most modern earth-moving machines today, with down-to-earth explanations of how and why they work the way they do as well as interviews and quotes from Caterpillar's engineers and operators themselves. Featuring rare historical photography and insight from noted industrial historian Keith Haddock, this book offers a glimpse of how the Caterpillar's meteoric rise from an under-the-radar producer of agrarian and industrial equipment led to its modern status as an international corporate superstar. Filled with excavators, backhoe loaders, motor-graders, off-highway trucks and more, this book is sure to capture the imagination of anyone who has ever passed a construction site and wondered just how the machines work the way they do and what they're truly capable of.

In Purpose, world-renowned thought leader Nikos Mourkogiannis turns the entire idea of leadership on its head and shows that the choice between values and success is no choice at all. Mourkogiannis argues that companies must satisfy the need for purpose--a set of values that defines an organization and inspires and motivates its employees. Rather than organization and structure, ideas are what cause companies to go from good to great. Drawing on examples from across multiple industries, Mourkogiannis demonstrates how a strong purpose is the essential first step toward lasting success.

Blue Magic, the latest designer drug linked to a rash of overdoses, might explain the needle mark on the arm of a young woman found dead in her Kansas City apartment. But when Star reporter Rich Azadian digs deeper, the clues point to a far more explosive story: MaryLee Stock was a special protégée of evangelical megapastor and power broker Cobalt Becker, who is poised to deliver his followers and the presidency to a firebrand right-wing senator in the next election. When Azadian sets out to prove that MaryLee's death was no accident and she may have been carrying Becker's genetically enhanced baby, the stakes become life itself. In 2023 America—bankrupt, violently divided by the culture wars, and beholden to archrival China—the rules of the game are complicated. With the danger mounting, the dead bodies of young women piling up, Chinese agents circling, and the US Department of National Competitiveness moving in to quash his investigation, Azadian's only option is to go rogue, assemble a team of brilliant misfits like himself, and begin the fight of his life to find out who is killing these women and why, and if any others like them may still be alive.
