You're Learning All the Time

From 1896 to 1935, the flamboyant and controversial Billy Sunday preached his version of the gospel to millions of people across the nation. In this nontraditional biography of the man regarded by his enthralled fans as God's unconventional messenger to a sinful world, the curator of the Billy Sunday Historic Site Museum recreates Sunday's life through a material culture lens. W. A. Firstenberger views the photographic record and the print record as well as the landscape, structure, and contents of the Sunday home in Winona Lake, Indiana, to give us an intimate view of Sunday and his family. Through an organizational scheme that incorporates memorabilia from childhood (samplers, Civil War badges), baseball (Billy's 1891 Philadelphia contract, scorecards), evangelism (cartoons, books such as Monkeys and Missing Links), social issues (KKK ads endorsing Sunday, his Women's Christian Temperance life membership certificate), life style (Arts and Crafts decorative

pieces, extensive photos of the family's Mount Hood bungalow), and family relations (his personal possessions and those of his wife, Nell, and their children), *In Rare Form* brings together the inconsistencies between Sunday's material world and his spiritual world. Since Sunday might have objected to a materialistic analysis of his life, Firstenberger has allowed him a say: each section of the book begins with an apt quote from Sunday's sermons and writings. Firstenberger also includes appendixes providing detailed information on Sunday's revivals and speaking appearances, his 870,075 documented converts, the members of his evangelistic team, the overall structure of his family, and an extensive bibliography. Acknowledging Sunday's faults and contradictions alongside his heroic accomplishments, the author presents a wryly insightful and innovative perspective on this larger-than-life figure.

Caterpillar

For this book, Frank Raczon dug up the dirt and constructed the only modern history of the world's heaviest machinery. So many things differentiate the Caterpillar brand from its competitors that it can be difficult to know where to begin. From its trademark Caterpillar Yellow to its tradition of making the most rock-solid products on earth, everything about the Caterpillar name is synonymous with the world's toughest machines. In fact, the company's success has led to it being used by economists as a bellwether for the state of the economy as a whole. In *Caterpillar: Modern Earthmoving Marvels*, author Frank Raczon details the largest and most modern earth-moving machines today, with down-to-earth explanations of how and why they work the way they do as well as interviews and quotes from Caterpillar's engineers and operators themselves. Featuring rare historical photography and insight from noted industrial historian Keith Haddock, this book offers a glimpse of how the Caterpillar's meteoric rise from an under-the-radar producer of agrarian and industrial equipment led to its modern status as an international corporate superstar. Filled with excavators, backhoe loaders, motor-graders, off-highway trucks and more, this book is sure to capture the imagination of anyone who has ever passed a construction site and wondered just how the machines work the way they do and what they're truly capable of.

In Rare Form

Beth Michaels isn't sure when it all began, but she's pretty sure that the pink dots came first. Pink dots everywhere in her vision, clouding the people who stood before her. And then little movie screens started to play, telling her more than she ever wanted to know about their lives. Now she can't even eat a hamburger without seeing how the poor cow met his maker. As Beth approaches her eighteenth birthday, her visions just keep getting worse. And when a little gold envelope shows up proclaiming the words, "You are more than you think you are," she starts to do the super-freak. What does all of this mean? It means she's in for a loooong senior year....
