Cornell University is fortunate to have as its historian a man of Morris Bishop's talents and devotion. As an accurate record and a work of art possessing form and personality, his book at once conveys the unique character of the early university—reflected in its vigorous founder, its first scholarly president, a brilliant and eccentric faculty, the hardy student body, and, sometimes unfortunately, its early architecture—and establishes Cornell's wider significance as a case history in the development of higher education. Cornell began in rebellion against the obscurantism of college education a century ago. Its record, claims the author, makes a social and cultural history of modern America. This story will undoubtedly entrance Cornellians; it will also charm a wider public. Dr. Allan Nevins, historian, wrote: "I anticipated that this book would meet the sternest tests of scholarship, insight, and literary finish. I find that it not only does this, but that it has other high merits. It shows grasp of ideas and forces. It is graphic in its presentation of character and

idiosyncrasy. It lights up its story by a delightful play of humor, felicitously expressed. Its emphasis on fundamentals, without pomposity or platitude, is refreshing. Perhaps most important of all, it achieves one goal that in the history of a living university is both extremely difficult and extremely valuable: it recreates the changing atmosphere of time and place. It is written, very plainly, by a man who has known and loved Cornell and Ithaca for a long time, who has steeped himself in the traditions and spirit of the institution, and who possesses the enthusiasm and skill to convey his understanding of these intangibles to the reader." The distinct personalities of Ezra Cornell and first president Andrew Dickson White dominate the early chapters. For a vignette of the founder, see Bishop's description of "his" first buildings (Cascadilla, Morrill, McGraw, White, Sibley): "At best," he writes, "they embody the character of Ezra Cornell, grim, gray, sturdy, and economical." To the English historian, James Anthony Froude, Mr. Cornell was "the most surprising and venerable object I have seen in America." The first faculty, chosen by President White, reflected his character: "his idealism, his faith in social emancipation by education, his dislike of dogmatism, confinement, and inherited orthodoxy"; while the "romantic upstate gothic" architecture of such buildings as the President's house (now Andrew D. White Center for the Humanities), Sage Chapel, and Franklin Hall may be said to "portray the taste and Soul of Andrew Dickson White." Other memorable characters are Louis Fuertes, the beloved naturalist; his student, Hugh Troy, who once borrowed Fuertes' rhinoceros-foot wastebasket for illicit if hilarious purposes; the more

noteworthy and the more eccentric among the faculty of succeeding presidential eras; and of course Napoleon, the campus dog, whose talent for hailing streetcars brought him home safely—and alone—from the Penn game. The humor in *A History of Cornell* is at times kindly, at times caustic, and always illuminating.

Interested in aviation as early as 1910, William Boeing waited until 1914 for his first airplane ride. In 1916, he founded the airplane company that put Seattle on the aviation map. Before Boeing, Seattle featured aircraft builders like Eugene Romano, G. T. Takasou, Tom Hamilton, and Herb Munter. Boeing emerged during World War I and, by the beginning of World War II, had become a world leader. In those years, lesser known individuals like Eddie Hubbard, Percy Barnes, Vern Gorst, the Becvar brothers, Elliott Merrill, Jim Galvin, and Lana Kurtzer influenced commercial aviation around Seattle. Drawing on photographs from around the area, *Seattle's Commercial Aviation: 1908-1941* illustrates the early days beginning with

This book gives a complete account of all that Locke saw, did and heard during his four years in France. The entries vary from laconic jottings to detailed accounts - full of colour and wit - of life in Paris and the provinces. Locke's variety of interests presents a vivid and thorough account of France at that time. He observed and recorded the absolutism of Louis XIV and the poverty of the peasants, the growing persecution of the Protestants and the external manifestations of Catholicism, recent developments in science and technology - even agricultural methods and the system of taxes. So that this is a book for the general reader as well as for the student of Locke, the social historian and the historian of science.

Publisher description: During a time of accelerating momentum for radical change in the study of economics, *A Guide to What's Wrong with Economics* comprehensively re-examines the shortcomings of neoclassical economics and considers a number of alternative formulations. In it, a distinguished list of non-neoclassical economists provide a study of some of the many worldly and logical gaps in neoclassical economics, its hidden ideological agendas, disregard for the environment, habitual misuse of mathematics and statistics, inability to address the major issues of economic globalization, its ethical cynicism concerning poverty, racism and sexism and its misrepresentation of economic history. In clear and engaging prose, *A Guide to What's Wrong with Economics* shows how interesting, relevant and exciting economics can be when it is pursued not as a defence of an antiquated and close-minded system of belief, but as a no-holds-barred inquiry looking for real-world truths.

are 'Other Poems', ranging from fanciful musings about what it would be like to be a stolen Rembrandt painting to celebratory outpourings that capture the spontaneity and flux of life. Finally, there is a set of sonnets, some of which are inspired by exotic travels in distant lands, and some of which simply take pleasure in the idiosyncrasies of nature in Updike's own backyard. For John Updike, the writing of poetry was always a special joy, and this final collection is an eloquent and moving testament to the life of this extraordinary writer.
