Cantata No. 151

Signs of the Times

Nonfiction. "This is not just the biography of a talented jazz musician, but a fascinating chronicle of the trials, tribulations, and triumphs of a few committed individuals who tried to create beauty in a land of hostility and segregation. Chris McGregor understood that music is more than an organization of sound, it is a measure of human relationships, and can be used to inspire and exhilarate as well as heal. Maxine McGregor's vivid descriptions of their world, and the many passages in Chris's own words, give us insight into the mind of a man for whom music was as natural and necessary as the air we breathe"--Art Lange (co-editor of Moment's Notice: Jazz in Poetry and Prose).

I Am Adopted

Fractal Design Painter 3

The purpose of this book is to present a spectrum of women's experiences with depression. The book is unique in presenting both qualitative and quantitative studies on various stages of women's experiences with depression including its psychological and social antecedents, its adverse consequences, and the impact of psychological and community interventions. Our aim has been to present some of the recurrent themes and vital links in this chain of experiences. One such common theme has to do with the importance of acquiring and maintaining control over the evaluation of self-worth by the individual. Stressful circumstances and negative social encounters may produce the greatest harm and consequent depression by depriving individuals' control over the processes involved in the evaluation of self-worth. This book will be of interest to clinical psychologists, counsellors, psychiatrists, mental health practitioners and community service providers. This book was published as a special issue of the Journal of Prevention and Intervention in the Community.

USMLE Step 2 CS for the IMG

These essays offer a probing entry into the work of one of Latin America's deepest and most challenging proponents of liberation theology. Editor Alfred Hennelly has selected and briefly introduces the most important and representative of Juan Luis Segundo's voluminous writings from the last 20 years; most of them never before available in English. At once insightful and polemical, Segundo is drawn to the thick of today's theological controversies. He explores such areas as christology, revelation, the option for the poor, the future of liberation theology, Ignatian spirituality, and the meaning of the recent quincentenary of Columbus' arrival in the "New World".

Feudal Manuals of English History

"This work is a new critical edition and translation of the late-twelfth-century Rotuli de Dominabus et Pueris et Puellis. These records were the result of a little known Domesday-like royal enquiry into the status and assets of widows and wards on estates held directly by the Crown in 1185. As such they were a precursor to the veredicta of the general eyre from the 1230s on and of the extents attached to the Inquisitions Post Mortem from the 1240s. The implications for royal power and control and the machinery which brought them into being no doubt also led to the

concerns expressed about inheritance and the treatment of widows and wards in the early clauses of Magna Carta in 1215. Translation of this material in toto makes it an invaluable source book for undergraduate and postgraduate students interested in the economy and society of medieval England and also for those interested in the history of women."--BOOK JACKET.

The mention of "art" and "artists" in the title may make it sound like there is one obvious focus in this special issue; however, the breadth and variety of the articles will impress more readers than will its focus. Just as the range of topics covered is larger than what might be implied by the brief title, so do the articles themselves cover much more ground than is implied by the table of contents.
