'Business transfer' refers to the transfer of ownership and leadership from one or more outgoing owner-manager(s) to one or more incoming owner-manager(s). Apart from all the company's material assets, it presupposes that information, relationships, know-how and social capital are also transmitted from one to the other. Business Transfers, Family Firms and Entrepreneurship provides the international community with a more comprehensive state-of-the-art of business transfer studies, which will enrich readers' understanding. The business transfer is examined through different prisms: family businesses, internal business transfers to employees, external business transfers, and woman in business transfers. of both the process and the actors, and from both the seller's and the buyer's sides.
