"English for International Tourism" is the first multi-level series designed specifically for the hotel and tourism industry! This course focuses on the grammar, vocabulary, and skills needed for professional communication in this fast-paced industry. It features contemporary, relevant topics and utilizes a range of authentic materials including Dorling Kindersley's acclaimed "Eyewitness Travel Guides."

The World Book Encyclopedia

"Advanced Everyday English is designed in very much the same mode as the first book (Practical Everyday English with audio CD) in that all of the examples will

contain vocabulary and expressions you have studied on earlier pages. You will also find many words from the first book, which will give you an opportunity to revise the material. In this second book there is more of what one might call "serious" vocabulary, but there are plenty of phrasal verbs and idioms as well. The book will be of particular benefit to those readers with an advanced level of English who wish to become (or who already are) interpreters, translators or teachers of English, or who simply want to be able to speak and understand English at a very high level. In addition, people who need to read English language journals or converse in English on a daily basis, either in business or for pleasure, will find it very useful."--Publisher's description.

We live in a data-driven world, and the goal of this Canadian text is to teach students how to access and analyze these data critically. Canadian authors Jim Stallard and Michelle Boué emphasize that learning statistics extends beyond the classroom to an essential life skill, and want Canadian students to develop a "data habit of mind." Regardless of their math backgrounds, students will learn how to think about data and how to reason using data. With a clear, unintimidating writing style and carefully chosen pedagogy, this text makes data analysis accessible to all students. KEY TOPICS: Introduction to Data; Picturing Variation with Graphs; Numerical Summaries of Centre and Variation; Regression Analysis: Exploring Associations between Variables; Modelling Variation with Probability; Modeling Random Events: The Normal and Binomial Models; Survey Sampling and Inference; Hypothesis Testing for Population Proportions; Inferring Population Means; Associations between Categorical Variables; Multiple Comparisons and Analysis of Variance; Experimental Design: Controlling Variation; Inference without Normality; Inference for Regression MARKET: A textbook suitable for all introductory statistics courses
