Instant National Bestseller! Wall Street Journal and USA Today Bestseller! Three-time New York Times bestseller Adam Carolla is back to take on social media, social justice warriors, and a society gone to s\*\*t. As seen on Fox News's Fox & Friends! "As the revolution reaches its final, most humorless stage, there's no better, braver, or more insightful observer than Adam Carolla. You may feel despondent about what's happening right now. This book will remind you that you should also be amused."—Tucker Carlson In I'm Your Emotional Support Animal, Adam Carolla examines how our culture went careening off a cliff. We used to have one that created real warriors who fought world wars. Now it spawns social justice warriors who fight Twitter wars. He takes on those who are traumatized by Trump and "emotional support animal" owners who proclaim their victimhood at every airport. He stands up for the collateral damage of the #MeToo movement and for freedom of speech on "safe space" filled college campuses. Examining the calculated commercials churned out by Madison Avenue, like the ones about cars "made with love," Carolla rants on ads designed to either bum us out or make us think the corporation is run by Mr. Rogers. Turning to social media, Adam takes down the "hashtag heroes" who signal their virtue daily from atop Twitter mountain. And in the era of the Roomba, performances by dead celebrity holograms, and meals-on-demand delivery services, he looks down the road at our not-so-bright future as a species. "Adam and I agree on absolutely

nothing but he's a sharp, smart, funny guy to disagree with. And there's a human heart under all the gruffness, snark, and melted cheese."—Patton Oswalt Frank, funny, and utterly unapologetic, this is not a book for those who need a trigger warning, but is THE book for everyone who wants to hit the snooze bar on the “woke” culture.

Preserving New York is the largely unknown inspiring story of the origins of New York City's nationally acclaimed landmarks law. The decades of struggle behind the law, its intellectual origins, the men and women who fought for it, the forces that shaped it, and the buildings lost and saved on the way to its ultimate passage, span from 1913 to 1965. Intended for the interested public as well as students of New York City history, architecture, and preservation itself, over 100 illustrations help reveal a history richer and more complex than the accepted myth that the landmarks law sprang from the wreckage of the great Pennsylvania Station. Images include those by noted historic photographers as well as those from newspaper accounts of the time. Forgotten civic leaders such as Albert S. Bard and lost buildings including the Brokaw Mansions, are unveiled in an extensively researched narrative bringing this essential episode in New York's history to future generations tasked with protecting the city's landmarks. For the first time, the story of how New York won the right to protect its

treasured buildings, neighborhoods and special places is brought together to enjoy, inform, and inspire all who love New York.

### **Stuff Every Dad Should Know**

This work is the fourth of a four-volume treatise. In twelve sections, it covers: Death of Contract, Full Faith & Credit, 9th Amendment: Only an 'Inkblot'?, Other Jurisdictional Usurpations by The Court for Itself, Ashcroft Hearings: 'Pyrrhus Testifies', Field Test № 1: The Government and Major League Baseball vs. The Taxpayers—Into the Judicial Bull-Pen, Field Test № 2: Joan of Arc vs. IRS—Of Hamster Nostrils, Hexing Studies, and the Government's Official Renunciation of The Federalist, Field Test №3: Anatomy of a Judicial Murder: Of Beanbags, Unnatural Acts with Sheep, and a Judicial Pardon for a Governor, Ex-Cathedra: Perpetuity of Infallible Error, Two Constitutions: The Court's vs. The Founders', *Judici Officium Suum Excedenti Non Pareatur: Constitutional Convention Anyone?* The volume is styled, *The Kiss of Judice: The Constitution Betrayed-A Coroner's Inquest and Report*. 'Judice', Latin, a pun, means 'pertaining to judges'; thus denoting the judicial, Judas-like betrayal of the Constitution. 'Coroner's Inquest' denotes that the work is a study into the death of the Constitution. Your author is the Coroner. He proceeds in the Inquest with the aid of his Coroner's Jury: Jefferson, Madison, Hamilton, Story, Locke, and Blackstone. The work in the first two volumes of the treatise is a dialogue between the Coroner and his jury on the various parts of the Constitution covered. The jury members answer the Coroner's questions, for the most part in their own words, drawn from a variety of their written works. Occasionally the Coroner puts words in their mouths; those 'inventions' are shown in brackets in the jurors' answers. In the third and fourth volumes, the lessons of the Founders in Volumes 1 and 2 are applied to cases decided by the U.S. Supreme Court. Most readers will be astonished at how often the supreme court has gotten it wrong either in result, reasoning, or both. The work is novel, because, to the author's knowledge, it is the only 'Constitutional Law' textbook that collects the wisdom of the framers as the Constitution's only authoritative sources; it does not, as most Constitutional Law texts do, emphasize court cases as constitutional authority, for more often than not, the court has only warped the Constitution. In a broader sense, though, the work is not novel, for it's only an arrangement of the work already done by the jurors. The author is pleased to say that the work, by and large, is not original thought. Its beauty is that it only revives long-forgotten constitutional 'discoveries' as set in the

words of the main jurors and some others within 'interviewed'. Note to purchasers: For updates to the manuscript, check "Pastoral Republican" @ <http://douglassbartley.wordpress.com/>

Since the 1660s, the Seminary of Montreal -- a French, male religious community -- had been an integral part of the merchant, seigneurial, and clerical elite that dominated Montreal. Its significance in pre-industrial society was strengthened by its role as seigneur of Montreal Island and titular parish priest. The Seminary survived the British conquest, but came

under increasing attack in the early nineteenth century from industrial producers and large capitalists landlords who resented the Seminary's seigneurial expropriations. By the 1830s, anticlerical elements in the peasantry and other popular classes had joined in the attack.

Show biz memoir at its name-dropping, bridge-burning, profane best: the music industry's most outspoken, outrageous, and phenomenally successful executive delivers a rollicking memoir of pop music's heyday. During the 1970s and '80s the music business was dominated by a few major labels and artists such as Michael Jackson, Bruce Springsteen, the Rolling Stones, Bob Dylan, Billy Joel, Paul Simon, Barbra Streisand and James Taylor. They were all under contract to CBS Records, making it the most successful label of the era. And, as the company's president, Walter Yetnikoff was the ruling monarch. He was also the most flamboyant, volatile and controversial personality to emerge from an industry and era defined by sex, drugs and debauchery. Having risen from working-class Brooklyn and the legal department of CBS, Yetnikoff, who freely admitted to being tone deaf, was an unlikely label head. But he had an uncanny knack for fostering talent and intimidating rivals with his appalling behavior—usually fueled by an explosive combination of cocaine and alcohol. His tantrums, appetite for mind-altering substances and sexual exploits were legendary. In Japan to meet the Sony executives who acquired CBS during his tenure, Walter was assigned a minder who confined him to a hotel room. True to form, Walter raided the minibar, got blasted and, seeing no other means of escape, opened a hotel window and vented his rage by literally howling at the moon. In *Howling at the Moon*, Yetnikoff traces his journey as he climbed the corporate mountain, danced on its summit and crashed and burned. We see how Walter became the father-confessor to Michael Jackson as the King of Pop reconstructed his face and agonized over his image while constructing *Thriller* (and how, after it won seven Grammys, Jackson made the preposterous demand that Walter take producer Quincy Jones's name off the album); we see Walter, in maniacal pursuit of a contract, chase the Rolling Stones around the world and nearly come to blows with Mick Jagger in the process; we get the tale of how Walter and Marvin Gaye—fresh from the success of "Sexual Healing"—share the same woman, and of how Walter bonds with Bob Dylan because of their mutual Jewishness. At the same time we witness Yetnikoff's clashes with Barry Diller, David Geffen, Tommy Mottola, Allen Grubman and a host of others. Seemingly, the more Yetnikoff feeds his cravings for power, sex, liquor and cocaine, the more profitable CBS becomes—from \$485 million to well over \$2 billion—until he finally succumbs, ironically, not to substances, but to a corporate coup. Reflecting on the sinister cycle that left his career in tatters and CBS flush with cash, Yetnikoff emerges with a hunger for redemption and a new reverence for his working-class Brooklyn roots. Ruthlessly candid, uproariously hilarious and compulsively readable, *Howling at the Moon* is a blistering *You'll Never Eat Lunch in this Town Again* of the music industry.

Drawing from his extensive business management experience, Pradip Chand turns traditional wisdom on its head when he proposes that Brand Loyalty is inversely proportional to the income and education levels of the 'knowledge consumer'. He examines how and why brands become strategic assets, traces the evolution of the knowledge consumer and what companies can do to protect equity of the brands they have nurtured over the decades. A new approach to building a Brand Loyalty that gives marketers a competitive edge in today's high-tech, high-stake brand-hostile environment.
