The Mortal Instruments

Rory Thorne must use the fairy blessings gifted to her to change the multiverse in the second book in this space opera duology. After avoiding an arranged marriage, thwarting a coup, and inadvertently kick-starting a revolution, Rory Thorne has renounced her title and embraced an unglamorous life as a privateer on the edge of human space. Her new life is interrupted when Rory and her crew--former royal bodyguards, Thorsdottir and Zhang, and co-conspirator Jaed--encounter an abandoned ship registered under a false name, seemingly fallen victim to attack. As they investigate, they find evidence of vicious technology and arithmancy, alien and far beyond known capabilities. The only answer to all the destruction is the mysterious, and unexpected, cargo: a rose plant. One that reveals itself to be sentient--and designed as a massive biological weapon. Rose seeks to escape their intended fate, but before Rory and her friends can get Rose off the derelict ship, the alien attackers return. Rory and her friends must act fast--and wisely--to save themselves, and Rose, and maybe the multiverse, too, from a war humanity cannot win.

Delve into the details of all things Shadowhunter with this illustrated guide to the knowledge and lore of the Shadowhunter world. Since the thirteenth century, the Shadowhunter's Codex has been the one and only manual for Shadowhunters looking to brush up on their demon languages, learn proper stele use, and discover just what exactly a pyxis is. Featured in both The Mortal Instruments and The Infernal Devices, this guide is a necessity for any young Nephilim on their journey to becoming a Shadowhunter. Beautifully illustrated, the Codex contains images of the famous Shadowhunter homeland of Idris, as well as depictions of demons and other Downworlders. But this isn't just any copy of The Shadowhunter's Codex. It's Clary's copy, and as an artist herself, she's sketched pictures of her friends and family in the book, and scrawled helpful advice in the margins. Of course, she couldn't exactly stop Jace or Simon from adding their thoughts either. Part encyclopedia, part history, part training manual—complete with commentary from Shadowhunters who have seen it all—this beautiful guide is a perfect supplement to the #1 New York Times bestselling series.

How the Multiverse Got Its Revenge

In book five of the award-winning *Austin Family Chronicles* young adult series from Madeleine L'Engle, author of *A Wrinkle in Time*, Vicky Austin experiences the difficulties and joys of growing up. After a year in New York City and a summer with her grandfather, Vicky Austin returns to the rural Connecticut village she grew up in-- and feels totally out of place. Then she meets Adam Eddington's Great Aunt Serena, who reminds her of her beloved grandfather, and she begins to find a comfortable, if not exciting, routine to her days. At Christmas, Serena gives Vicky a trip to Antarctica, to visit Adam. Vicky can't believe her luck. But the trip is not what Vicky imagined it would be. First of all, she doesn't know where she stands

with Adam. He's pulled back, saying they are just friends. But weren't they more than that, Vicky thinks. And Vicky's fellow passengers are not what they seem or they are more than she knows. Finally, even Aunt Serena's motives are suspect, as Vicky discovers a journal that belonged to Adam's famous uncle who disappeared many years earlier. As Vicky becomes more and more caught up in a mystery involving drugs, nuclear waste, and international espionage, she discovers that her assumptions about the world are hopelessly naive and that life, hers included, is as fragile as the ecosystem of Antarctica, the world's most remote continent.
