Administrative Law

A continuation of the successful Government Contracts in a Nutshell, 6th, this expanded Principles of Government Contracts, 7th summarizes the Federal Acquisition Regulation System (FARS), improper business practices and personal conflicts of interest, publicizing contract actions, and competition requirements. Addresses acquisition planning, contractor qualifications, and descriptions of agency needs. Explains socio-economic policies, commercial items, contract types, options, sealed bidding, and contracting by negotiation. Reviews intellectual property, cost accounting standards, cost principles, financing, protests, disputes, and appeals. Explores research and development contracting, construction and architect-engineer contracts, inspection and warranty, value engineering, delays, suspension of work, changes and equitable adjustments, subcontracting, and government contract terminations for default and convenience.

Principles of Federal Jurisdiction

This compact casebook is designed for one-semester contracts classes. It helps students synthesize groups of related cases by focusing attention on the principles, policies, and rules of contract law. It employs many transitions and notes written for the students, rather than excerpting works written for professors or

Bookmark File PDF Principles Of Administrative Law Concise Hornbook Series

practitioners. Questions are limited to central issues to avoid overwhelming and losing the students. This revision is a thorough makeover that brings everything up to date, and includes a variety of recent cases, dealing with issues such as electronic communications and Internet contracting, while retaining the brevity and "principles approach" of earlier editions.

Public Law

Presenting the law of tort as a body of principles, this authoritative textbook gives an incisive understanding of the subject. Each tort is carefully structured and examined within a consistent analytical framework that guides students through its preconditions, elements, defences and remedies. Clear summaries and comparisons accompany the detailed exposition, and further support is provided by diagrams and tables which clarify complex aspects of the law. Critical discussion of legal judgments encourages students to develop strong analytical and case-reading skills, whilst key reform proposals and leading cases from other jurisdictions illustrate different potential solutions to conundrums in tort law. A rich companion website, featuring semesterly updates alongside ten additional chapters on more advanced topics, completes the learning package. This new edition has been updated to take account of important cases, legislative developments and law reform studies since July 2015.

Principles of Tax Policy

In clear language, Posin and Tobin's Principles of Federal Income Taxation explores exotic Wall Street techniques employed to avoid capital gains. It includes analysis of cases and concepts of the leading casebooks, explanations with amplified diagrams and flow charts, and extensive treatment of the time value of money issues. This book explains equity swaps, shorting against the box, swap funds, and DECS. It presents, among other high-profile situations, a case study of how former Treasury Secretary William Simon and his partners made \$700 million in profits on the sale of the Avis car rental agency less than two years after they bought it and paid no taxes.

Administrative Law

Constitutional & Administrative Law

Suitable for students or practitioners, this authoritative overview of the legislative process and statutory interpretation moves smoothly and understandably between the theoretical and the practical. It contains in-depth discussion of such topics as theories of legislation and representation, electoral and legislative structures,

Bookmark File PDF Principles Of Administrative Law Concise Hornbook Series

extrinsic sources for statutory interpretation, and substantive canons of statutory interpretation. Reap the benefits of the authors' experience, opinions, and insight and gain a working knowledge of the area.

Principles of Corporate Taxation

Government Accountability: Australian Administrative Law offers an accessible introduction to administrative law in Australia by reference to its guiding principle, accountability. The book explores the complex theory underlying this area of law through the inclusion of many examples and with an emphasis on practicalities. It introduces the multifaceted nature of government, its structure, powers and actions. It explains and analyses in detail the principles and mechanisms of administrative law in a way that equips students to employ them in the context of new and unfamiliar cases. Throughout the book, the theory, law and practice of Australian administrative law are explored by reference to the overarching concept of accountability. Government Accountability is a concise introduction to administrative law in Australia that clearly explains the intricacies of the field and provides readers with the theoretical and practical knowledge to analyse the decisions and actions of government.

Bouvier's Law Dictionary and Concise Encyclopedia

Bookmark File PDF Principles Of Administrative Law Concise Hornbook Series

Comprehensive, yet intelligible treatment of the basic rules, principles, statutes, and issues governing the law of bank regulation. Examines the rapid pace of development in depository institution regulation, and how federal statutes governing banking have been subject to constant amendment in recent years. Discusses the growing overlap in competition among depository institutions, insurance companies, and securities firms that has further complicated regulatory policy. Detailed sections discuss: the regulated environment of banking, entry rules, branching, control transactions, transactional rules, holding company activities, securities regulation, resolution of institution failures, international banking, and bank regulation and social policy.

Commonwealth Caribbean Administrative Law

This book provides a comprehensive overview of employment law and is a useful supplement to any employment law casebook. The book is divided into six chapters. Chapter 1 examines who is an employee and who is an employer. Chapter 2 analyzes the employment-at-will doctrine and job security claims. Chapter 3 focuses on privacy, autonomy, and dignity. Chapter 4 analyzes claims that employers may have against employees. Chapter 5 discusses employment terms and benefits that are directly mandated by law, like minimum wage, or strongly encouraged or regulated by law, such as pensions. Finally, Chapter 6 examines workplace health and safety.

Principles of Administrative Law

This overview of tax policy explains essential concepts clearly and concisely. Chapters open with brief descriptions of a policy area, providing a synopsis of the current state of the law. This is followed by a balanced and apolitical discussion of arguments for and against the current law and commonly proposed alternatives. Wide-ranging coverage of all critical tax policies from federal Social Security and income taxes to state and local budgeting to international transfer pricing examine the building blocks of the tax system. Ample footnotes provide easy access to articles and standard reference works allowing readers to dig deeper on their own.

Principles of Patent Law

This book provides a clear and concise account of the main principles of administrative law. More than that, it sets those principles in historical, comparative and constitutional perspective.

Principles of Contract Law

The explosive economic development in China over the last three decades has created social challenges unprecedented in the country's history. In response,

Bookmark File PDF Principles Of Administrative Law Concise Hornbook Series

China has overhauled its existing tort laws and even created new tort laws. By exploring its principles, theories and history, this book provides international readers a fresh outlook on China's tort law system. Granted that some concepts or theories in China's modern tort laws were "borrowed" from the west, the principles behind them can nevertheless often find their roots in ancient Chinese philosophies, concepts or even laws. This book also uses real cases to explain the courts' application of China's tort laws and the meaning of the corresponding statutes.

Legislation and Statutory Interpretation

Scottish Administrative Law Essentials is a clear and concise study and revision guide for students of the law in Scotland. It contains all of the essential information students need when preparing for exams and includes useful summary sections of essential facts and essential cases. An invaluable text which students can use to gain a quick understanding of a new subject, to help them through a course or as an aid to revision for exams. This book is also an excellent resource for those who need to refresh their knowledge of the subject. Table of Cases, Table of Statutes and an Index are included. Contents: Introduction Doctrines of the Constitution Structure of Government in the UK Subordinate Legislation The Ultra Vires Doctrine Judicial Review Natural Justice Ombudsmen Tribunals and Inquiries

Principles of Government Contracts

Concise European Trade Mark and Design Law

This book offers a concise, knowledgeable guide to the laws governing administrative agencies. In straightforward, readable prose, the authors not only summarize the dominant statutes and case law in the area, but also discuss informal administrative processes and the background realities of the regulatory state. Students can use the book as a complement to any major casebook, and practitioners will also find it an excellent brief introduction to this often confusing subject.

Textbook on Administrative Law

"This fully-updated third edition provides a comprehensive survey of public international law, with useful references throughout to current events, classic and contemporary cases and scholarship. It is designed as a stand-alone text or as a complement to all the major casebooks on the topic. The first part of the book addresses how international law is created, interpreted and enforced; the second part focuses on the interface of international law and national law; and the final

part covers key subject matter areas: human rights, injury to aliens, the law of the sea, international environmental law, international criminal law, and the use of force."--publisher website.

Inside Administrative Law

The Study of Law

A succinct, dogmatically sound commentary to the most relevant EU instrument on international contracts.

Concise Chinese Tort Laws

The book is not organized according to the chronological life of a corporation. Instead, the book begins by examining the tax treatment of a withdrawal of property from an existing corporation. The reason for choosing that organization is that the concepts embodied in such topics as dividends, earnings and profits, and stock redemptions are the fundamental building blocks on which the more complex provisions of corporate taxation rest. The authors explain the technical operation of the various Code provisions and provide numerous examples illustrating how

Bookmark File PDF Principles Of Administrative Law Concise Hornbook Series

they are applied and how several provisions must be read in concert with each other.

Administrative Law and Process in a Nutshell

Plucknett, Theodore F.T. A Concise History of the Common Law. Fifth Edition. Boston: Little, Brown and Company, 1956. Reprinted 2001 by The Lawbook

Bookmark File PDF Principles Of Administrative Law Concise Hornbook Series

Exchange, Ltd. LCCN 00-067821. ISBN 1-58477-137-2. Cloth. \$125. * "Professor Plucknett has such a solid reputation on both sides of the Atlantic that one expects from his pen only what is scholarly and accurate. Nor is the expectation likely to be disappointed in this book. Plucknett's book is not a mere epitome of what is to be found elsewhere. He has explored on his own account many regions of legal history and, even where the ground has been already quartered, he has fresh methods of mapping it. The title which he has chosen is, in view of the contents of the volume, rather a narrow one. It might equally well have been A Concise History of English Law. In conjunction with Readings on the History and System of the Common Law by Dean Pound this book will give an excellent grounding to the student of English legal history." Percy H. Winfield. Harv. L. Rev. 43:339-340.

Principles of Tort Law

The doctrine of judicial recusal enables - and may require - a judge who is lawfully appointed to hear and determine a case to stand down from that case, leaving its disposition to another colleague or colleagues. The subject is one of considerable import and moment, not only to 'insiders' in the judiciary, but also to litigants and their lawyers. Understanding the principles which guide recusal is also to understand the fundamentals of judging in the common law tradition. The subject is therefore of considerable interest both at practical and theoretical levels, for it tells us most of what we need to know about what it means "to be a judge" and

Bookmark File PDF Principles Of Administrative Law Concise Hornbook Series

what the discharge of that constitutional duty entails. Unsurprisingly therefore, the subject has attracted controversy, and some of the most savage criticisms ever directed at particular judges. The book commences with an introduction which is followed by an analysis of the essential features of the law, the legal principles (common-law origins, the law today in the USA, UK and Commonwealth) and the difficulties which currently arise in the cases and by operation of statute. The third part looks at process, including waiver, necessity, appellate review, and final appeals. Three specific problem areas (judicial misconduct in court, prior viewpoints, and unconscious bias) are then discussed. The book ends with the author's reflections on future developments and possible reforms of recusal law.

Scottish Administrative Law Essentials

Presenting wide-ranging and accurate coverage of constitutional and administrative law, this title is structured in a logical and practical way, supporting students as they progress in the subject.

Principles of Environmental Law

Principles of Administrative Law is a comprehensive and clear account of administrative law in Australia. It guides the reader through the complexities of the

Bookmark File PDF Principles Of Administrative Law Concise Hornbook Series

current law, paying attention to the law's historical development, its constitutional setting and institutional structure, and the patterns of governance in contemporary Australia. Drawing upon legal theory and empirical legal research, the text sets out the essentials of the subject while exploring the law's conceptual foundations and underlying principles. In this way it invites students to engage with the interpretations of the law provided and to reflect upon the extent to which the law makes a contribution to the legitimacy of government in the Australian 'administrative state'. Now in its third edition, Principles of Administrative Law is a significant contribution to the literature on Australian administrative law, and meets a real need for a concise text that offers a sophisticated treatment of this topical and important core subject. To get the most from this text, read it in conjunction with Cases for Principles of Administrative Law.

Principles of Employment Law

Fletcher's Principles of Federal Indian Law covers the basics of federal Indian law, the relationships between tribal, state, and federal sovereigns, also touching on federalism, agency law, civil rights, and criminal jurisdiction aspects of Indian law. This concise hornbook offers comprehensive coverage of the blackletter law, with statutory, regulatory, and historical context. The origins behind important doctrines of Indian law and critical statutes are explored in detail. This book is a useful introduction to the field for both students and practitioners.

Judicial Recusal

The seventh edition of Textbook on Administrative Law continues to provide students with an accessible and stimulating guide to the subject. Practical in approach, the authors concentrate on fully analysing core topics, while at the same time setting them within a contextual and thematic framework.

Principles of Corporate Taxation

Public Law: Text, Cases, and Materials offers a fresh approach to the study of constitutional and administrative law by exploring how the law works in practice. The inclusion of extracts from key cases, government reports and academic articles demonstrates the law in action and the incisive commentary that accompanies them explains the significance of each. The expert authors have distilled their knowledge of the institutions and legal principles into concise, focused prose, and they encourage reflection through regular questions and hypothetical examples. This leading text provides students with a thorough and wide-ranging knowledge of public law, together with a full understanding of the theoretical and political debates in this fascinating and dynamic area of law. Principles of Federal Income Taxation of Individuals

This book focuses on the material covered in a typical law school course on Bankruptcy. It covers both business and consumer bankruptcy. The book explains basic bankruptcy concepts and then uses those concepts to make code provisions understandable.

Principles of Administrative Law

In this follow-up volume to the critically acclaimed *The Constitutional State*, N. W. Barber explores how the principles of constitutionalism structure and influence successful states. Constitutionalism is not exclusively a mechanism to limit state powers. An attractive and satisfying account of constitutionalism, and, by derivation, of the state, can only be reached if the principles of constitutionalism are seen as interlocking parts of a broader doctrine. This holistic study of the relationship between the constitutional state and its central principles - sovereignty; the separation of powers; the rule of law; subsidiarity; democracy; and civil society - casts light on long-standing debates over the meaning and implications of constitutionalism. The book provides a concise introduction to

Bookmark File PDF Principles Of Administrative Law Concise Hornbook Series

constitutionalism and a detailed account of the nature and implications of each of the principles in question. It concludes with an examination of the importance of constitutional principles to the work of judges, legislators, and others involved in the operation and creation of the constitution. The book is essential reading for those seeking a definitive account of constitutionalism and its benefits.

Principles of Federal Indian Law

Concise IP Series Volume 5 Concise European Trade Mark and Design Law aims to offer a rapid understanding of the provisions of trademark and design law in force in the European Union (EU). In an increasingly globalized and diversified marketplace, the importance of brands and their effective legal protection across country borders and regions is ever growing. In the past twenty years, trademarks and designs have become truly European. The expansion of the EU, from fifteen Member States in 1996 to twenty-eight at present, has triggered further discussion of pan-European trademark and design protection, its requirements and limitations, and even twenty years of case law of the Court of Justice of the EU have left - or in fact opened - many questions on the interpretation of the law. This book, one of the series of volumes of commentaries on European intellectual property legislation, provides information on the judgments of the relevant case law of the EU and also incorporates new case law since the publication of its first edition. What's in this book: This book presents topics on important legislations

Bookmark File PDF Principles Of Administrative Law Concise Hornbook Series

such as: Council Regulation (EC) No. 207/2009 as amended by Regulation (EU) 2015/2424 (EU Trade Mark Regulation); Directive (EU) 2015/2436 of the European Parliament and of the Council (Trade Mark Directive); Council Regulation (EC) No. 6/2002 (Community Design Regulation); and Directive 98/71/EC of the European Parliament and of the Council (Design Directive). This book takes the form of an article-by-article commentary on the relevant regulations and other legal instruments. In order to keep the commentaries clear, they are in a form that is as brief as the subject matter allows, and the citations presented include only the relevant point of law. The editors and authors are prominent specialists (academics and practitioners) in European and international trademark and design law. How this will help you: As a short and straightforward explanation of the principles of law drawn from each legislation, this book enables the reader to gain a rapid appreciation of the meaning and effect of the provision of law of interest and thereafter and be in a position to look in the right direction for further information needed. The case laws covered in this volume prove to be of great practical value to lawyers, practitioners and academicians, who are involved in enacting laws, for future references. Concise European Trade Mark and Design Law is one of a series of volumes of commentaries on European intellectual property legislation edited by Thomas Dreier, Charles Gielen and Richard Hacon, based on the respected German and Dutch series 'Kurzkomentar' and 'Tekst en Commentaar'.

Commonwealth Caribbean Administrative Law comprehensively explores the nature and function of administrative law in contemporary Caribbean society. It considers the administrative machinery of Caribbean States; Parliament, the Executive and the Judiciary. It then examines the basis for judicial review of executive and administrative action in the Caribbean by looking at the statutory provisions that underpin this and the plethora of case law emerging from the region. The book will also look to how the courts in the Commonwealth Caribbean have sought to define principles of administrative law. This book will also consider the alternative methods by which the rights of citizens are protected, including the use of tribunals and inquiries, as well as looking forward to the increasingly significant role of Caribbean Community law and bodies such as CARICOM and the OECS.

Principles of Administrative Law

The work covers all important topics in the field, including constitutional considerations, the concept of a statutory delegate, the acquisition of jurisdiction, procedural fairness, discretionary powers, standards of review, and public and private law remedies against governmental action."--pub. desc.

Concise Commentary on the Rome I Regulation

Bookmark File PDF Principles Of Administrative Law Concise Hornbook Series

The latest edition of *The Study of Law: A Critical Thinking Approach* offers a comprehensive, intelligent overview of all the key concepts covered in a typical introduction to law course. A critical thinking approach is used to introduce students to the study of law, encouraging students to interact with the materials through hypotheticals, examples, and well-designed questions. The text is divided into two parts, reflecting the topics addressed in an introductory course. Part I, *Introduction to the Legal System*, introduces students to the sources and classification of law, the structure of the court system, and an overview of litigation. Part II: *Basic Legal Concepts*, covers the basics of analysis and interpretation of the law, followed by chapters on substantive law. Key Features of the New Edition: Teaches students the basic skills necessary to understand statutes and court cases Strong pedagogy reinforces well-written text presented in an accessible and well-organized format Edited cases are included in every chapter to teach students how to read and analyze the law New coverage includes: the Boston Marathon bombing case, the Affordable Care Act, and trademark issues involving the Washington Redskins , e-filing and e-discovery, discussion of same-sex marriage and custody disputes over pre-embryos, and crimes of unauthorized access of computer data and warrantless searches of cell phones
