Spice Up Your Sex Life (with Illustrations)

Discover the Different Sex Positions You've Most Likely Never Tried Before. Are you searching for the best sex position guide? Wondering what are the most fulfilling and satisfying sexual positions you can try on? You are not alone! In fact, everyone knows that having great sex is one of the major factors in having a successful and romantic relationship. You're about to discover the top Sex Positions that will make your partner think that you are a Sex God. Sex has always been a hush-hush subject because of outdated beliefs and such. This has led to couples getting stuck in a rut when it comes to their sex life. They don't feel that it is "right" to talk to people about their sex life. Times are changing, and more and more people are comfortable talking about their sex life, and that is a good thing. This makes sex less taboo and enables couples to expand their sex repertoire. This new awakening doesn't necessarily mean that couples will find the answer they want or need from people they talk to, though, and that's what this book is here to do. I've created this book to bring together information about sex to help those couples who are tired of the same old thing night after night. Foreplay, that's the one word most couples dread to hear. For some reason, this is where most couples fail, yet we all know how important foreplay is, especially for women. It helps to get everybody in the right mind space and get things warmed up, so to speak. That's not the only issue couples incur when it comes to their sex life. Sometimes it's simply that things have

become monotonous. That's understandable, especially when you have been with your partner for a while. It's easy to stick to the same thing because you know each other likes it, or simply because it is easy. But the two of you likely feel bored and may pass on sex because of it. Things don't have to be this way, though. You can bring the spark back into your sex life, whether it's foreplay or new positions. This book is here to help show you exactly how to improve your sex. In this book, you will find: The best reasons why you should bring Kama Sutra and Tantra into your bedroom The top 50 sex positions for men and women The truth about orgasms and how to keep them coming The best sex tips for beginners Foreplay games to get things going How massages can up your sex life The best way to use dirty talk without it feeling weird or awkward I get that you might still be skeptical that this book can help improve your sex life. Even if you have tried new things to try and spice up your sex life without success, this book can teach you things that you may not have thought about. The information in this book can be applied to anybody's sex life. You'll even find that within the descriptions of various sex positions, there will be warnings, so you are guided throughout the entire process. I'm certain that if you buy this book today, you won't regret it. Even if you think you know everything discussed here, give this book a shot. It's a short, informative and entertaining read, and you may pick up some valuable tools and new ways of thinking you've never read or heard of before. Now is the time to make the decision! This book contains new information that you will not find in other books, and for a few hours only this book will be sold at this special price; so what are

formations. Missionary position is common among partners and is characterized by face-to-face interaction. The standard position of this type is the missionary position where the woman lies back with legs apart. The man lies on top and may use the position for anal or vaginal intercourse. At some point, the woman may dangle her leg on the edge of the platform or lift them towards the ceiling in what is commonly known as the butterfly position. You could practice the same while kneeling. In another variation, the woman may rest the legs on the shoulders of the man. In a coital alignment position, the man points the penis down to make it rub against the clitoris as they make an upward movement. Besides, the woman lies back and raises the legs to the head or put them next to the ears. The man then holds the partner's ankle or instep and lies at the full length of the woman. Most partners prefer this style for it nurtures them emotionally and physically. They can communicate and read body language as they engage in intimacy.
