Almost 70% of parents who refuse to vaccinate their children do so because they believe vaccines may cause harm. Indeed vaccines have been blamed for causing asthma, autism, diabetes, and many other conditions most of which have causes that are incompletely understood. Do Vaccines Cause That?! A Guide for Evaluating Vaccine Safety Concerns provides parents with clearly understandable, science-based information about vaccines, immunization, and vaccine safety.

Air power and the fight for Khe Sanh

Faith in the Fight tells a story of religion, soldiering, suffering, and death in the Great War. Recovering the thoughts and experiences of American troops, nurses, and aid workers through their letters, diaries, and memoirs, Jonathan Ebel describes how religion--primarily Christianity--encouraged these young men and women to fight and die, sustained them through war's chaos, and shaped their responses to the war's aftermath. The book reveals the surprising frequency with which Americans who fought viewed the war as a religious challenge that could lead to individual and national redemption. Believing in a "Christianity of the sword," these Americans responded to the war by reasserting their religious faith and proclaiming America God-chosen and righteous in its mission. And while the war sometimes challenged these beliefs, it did not fundamentally alter them. Revising the conventional view that the war was universally disillusioning, Faith in the Fight argues that the war in fact strengthened the religious beliefs of the Americans who fought, and that it helped spark a religiously charged revival of many prewar orthodoxies during a postwar period marked by race riots, labor

wars, communist witch hunts, and gender struggles. For many Americans, Ebel argues, the postwar period was actually one of "reillusionment." Demonstrating the deep connections between Christianity and Americans' experience of the First World War, Faith in the Fight encourages us to examine the religious dimensions of America's wars, past and present, and to work toward a deeper understanding of religion and violence in American history.

This book also shows how through the move of the Holy Spirit, the warm embrace of friends, the enlightenment of doctors/professional help, a so called life threatening illness is not the end, but the beginning of a journey that introduces a closer encounter with God! This is a book that will be vital to those struggling with cancer, and also to those struggling with any illness. Bishop Alfred A. Owens, Jr., D. Min Senior Pastor, Greater Mt. Calvary Holy Church Washington, DC Elder Battle tackled cancer with all the faith, dignity, and hope that those who know her see, as a guiding light that shines so bright in her life that thousands of others who read her story will find illumination! Evangelist Susie C. Owens Co-Pastor, Greater Mt. Calvary Holy Church Washington, DC Elder Louise Battle's story will help thousands find their way through troubles/trials instead of being lost in fear/hopelessness and defeat. Through Louise's story, we see cancer losing its power as we understand the seriousness of it, through God. God is still a Healer, cancer does not have to be a death sentence! Reverend Dr. Barbara A. Reynolds Radio Talk Show Host and Syndicated Columnist LOUISE A. BATTLE was diagnosed in February 2007 at the age of 55 with Stage II breast cancer. She had a lumpectomy, a partial mastectomy, months of chemotherapy and weeks of radiation treatments. Cancer whipped her in a way that she has never been whipped before, but her last name is BATTLE and she has always liked a good fight. She understands that you cannot win, if you don't fight! Ultimately, God decides who wins or loses and Louise belongs to Him. Cancer is no opponent for Louise, her strength comes from God! And the winner is.. Louise A. Battle and her God!

It was a double injustice-Bernice Johnson was wrongly imprisoned, then wronged in prison. Reason To Fight is the story of Bernice Johnson, an African American woman who in 1926 acted in self-defense but was sentenced to two years hard labor in the Mississippi State Penitentiary-The Infamous Parchman Farm. While serving time, Bernice was assaulted by a white authority figure and became pregnant. Bernice's baby was born on November 19th, 1928, three days after she was released from prison. That child was Fred Douglas Johnson, Father of Hiram Johnson-The author of this book. Reason To Fight is a real life-detective story that reveals how Hiram Johnson learned the truth about his family history. Johnson made the most of his experience as a professional law enforcement officer as he tracked down leads and brought to light secrets that had been hidden for decades."

The Cause

What is true valor and how do grief, survival and battle fatigue affect soldiers? Literature and history show that valor's purpose is often less than daring, generous and noble. Through examples in literature and the impact of real combat, the author shows how it can change to personal pride, a badge of distinction, and a means to reputation; it has sparked fear of cowardice and generated degradation to overcome it; it has prodded soldiers to kill for killing's sake.

Fights for the Flag

An internationally renowned scientist sounds the alarm about our country's most critical health issue and provides a simple eating plan that can help stop this secret epidemic one individual at a time. Here are the chilling statistics: ·One in three American adults suffers from arthritis. ·Sixty-four million people have heart disease in some form. ·Fifty million Americans suffer with allergies and 20 million have asthma. ·More than 18 million people have diabetes, with 1.3 million newly diagnosed each year. ·Sixty-five percent of American adults are over-weight or obese and 16 percent of children are overweight. At best, these conditions destroy our quality of life; at worst, they are painful, debilitating, and fatal. What can possibly account for the sharp increase in these diseases over the last few generations? Is there a connection between these afflictions? Is there anything you can do to protect yourself? As this groundbreaking book makes clear, the root cause of diseases as disparate as heart disease, eczema, and asthma is unbridled inflammation. And the major culprit is right in front of us -- on our plates. Every day we make food choices -- some of which are perceived as "healthy" -- that introduce poisonous levels of certain fatty acids to our bodies. These fatty acids (found in myriad foods, from farm-raised salmon and eggs to roasted turkey) help to inflame our immune systems. Backed by twenty years of research, and by an unprecedented six clinical trials, Dr. Chilton presents two anti-inflammatory dietary programs: One is designed to provide a solution for those of us who currently suffer from an inflammatory disease, and the other is designed to prevent the rest of us from getting one. Complete with a new food pyramid and eight weeks of easy-to-follow meal plans developed in collaboration with a world-class medical school, the book also includes charts detailing which types of fish are the best inflammation fighters, which carbs you should enjoy or avoid, and the patented Inflammation Index, which gives you the inflammatory potential of more than 250 foods. If you're already suffering from one of these diseases and follow the Chilton Program, you will see improvement in your health in as few as seven days. If you think you've dodged this bullet altogether, this book will make it very clear that no one is safe, and it will convince you to completely change the way you eat from this moment forward.

This is how the boy became the man and this is how that young man became the Legend. And some say it all happened just like this! Written in the rich epic vein of 'Lonesome Dove', 'Tombstone' and 'Wyatt Earp', this vast new American Western novel seems hand-forged right out of the glowing gun metal and billowing blue gun smoke of close quarters combat. Finally these unwritten chapters of one of the Wild West's greatest real life heroes flash dangerously to life across the open pages of 'Fighting for Air - the Unknown Adventures of Young Doc Holliday' by Jack Kincade, as if illuminated by gunfire. It's a huge, stirring American fable filled with young love and unexpected loss; perfect friendship and unquestionable honor, all set amid the swirling gun smoke of his heroic and blood stained youth.

You were created for something amazing—and it's time to discover what it is! Matthew Barnett, son of a well-known megachurch pastor, discovered his own cause in life when he relinquished his dream of building a big, successful church like his father's and began listening for God's dream for his life instead. Sensing that God was calling him to serve the poor and powerless of Los Angeles, Matthew founded the Dream Center, a beacon of hope for homeless families, drug addicts, abused women and children, victims of human trafficking, teen runaways, gang members, and many others whose lives were filled with brokenness. If you are hungry for a life full of passion instead of apathy; if you are ready to use your specific gifts and abilities to make a mark on the world; if you need to be reminded that God loves you and has a plan for your life—The Cause within You is the book that can change everything. Through his own story and the stories of others whose lives have been transformed, Matthew Barnett will lead you to the cause of your lifetime.

Through much of the 20th century, federal policy toward Indians sought to extinguish all remnants of native life and culture. That policy was dramatically confronted in the late 1960s when a loose coalition of hippies, civil rights advocates, Black Panthers, unions, Mexican-Americans, Quakers and other Christians, celebrities, and others joined with Red Power activists to fight for Indian rights. In Hippies, Indians and the Fight for Red Power, Sherry Smith offers the first full account of this remarkable story. Hippies were among the first non-Indians of

the post-World War II generation to seek contact with Native Americans. The counterculture saw Indians as genuine holdouts against conformity, inherently spiritual, ecological, tribal, communal-the original "long hairs." Searching for authenticity while trying to achieve social and political justice for minorities, progressives of various stripes and colors were soon drawn to the Indian cause. Black Panthers took part in Pacific Northwest fish-ins. Corky Gonzales' Mexican American Crusade for Justice provided supplies and support for the Wounded Knee occupation. Actor Marlon Brando and comedian Dick Gregory spoke about the problems Native Americans faced. For their part, Indians understood they could not achieve political change without help. Non-Indians had to be educated and enlisted. Smith shows how Indians found, among this hodge-podge of dissatisfied Americans, willing recruits to their campaign for recognition of treaty rights; realization of tribal power, sovereignty, and self-determination; and protection of reservations as cultural homelands. The coalition was ephemeral but significant, leading to political reforms that strengthened Indian sovereignty. Thoroughly researched and vividly written, this book not only illuminates this transformative historical moment but contributes greatly to our understanding of social movements.

The federal Fair Housing Act of 1968 was passed in a time of turmoil, conflict, and often conflagration in cities across the nation. It took the assassination of Dr. Martin Luther King, Jr. to finally secure its passage. The Kerner Commission warned in 1968 that "to continue present policies is to make permanent the division of our country into two societies; one largely Negro and poor, located in the central cities; the other, predominantly white and affluent, located in the suburbs and outlying areas". The Fair Housing Act was passed with a dual mandate: to end discrimination and to dismantle the segregated living patterns that characterized most cities. The Fight for Fair Housing tells us what happened, why, and what remains to be done. Since the passage of the Fair Housing Act, the many forms of housing discrimination and segregation, and associated consequences, have been documented. At the same time, significant progress has been made in counteracting discrimination and promoting integration. Few suburbs today are all white; many people of color are moving to the suburbs; and some white families are moving back to the city. Unfortunately, discrimination and segregation persist. The Fight for Fair Housing brings together the nation's leading fair housing activists and scholars (many of whom are in both camps) to tell the stories that led to the

From the early 1900s, liberal Protestants grafted social welfare work onto spiritual concerns on both sides of the Pacific. Their goal: to forge links between whites and Asians that countered anti-Asian discrimination in the United States. Their test: uprooting racial hatreds that, despite their efforts, led to the shameful incarceration of Japanese Americans in World War II. Sarah M. Griffith draws on the experiences of liberal Protestants, and the Young Men's Christian Association in particular, to reveal the intellectual, social, and political forces that powered this movement. Engaging a wealth of unexplored primary and secondary sources, Griffith explores how YMCA leaders and their partners in the academy and distinct Asian American communities labored to mitigate racism. The alliance's early work, based in mainstream ideas of assimilation and integration, ran aground on the Japanese exclusion law of 1924. Yet their vision of Christian internationalism and interracial cooperation maintained through the World War II internment trauma. As Griffith shows, liberal Protestants emerged from that dark time with a reenergized campaign to reshape Asian-white relations in the postwar era.

Reason to Fight

The definitive history of American postwar liberalism, told through the lens of those who brought it to life. Liberalism stands proudly at the center of American politics and culture. Driven by passion for social justice, tempered by respect for the difficulty of change, liberals have struggled to end economic inequality, racial discrimination, and political repression. Liberals have fueled their cause with the promise of American life and visions of national greatness, seeking to transform the White House; the halls of Congress, the courts, the worlds of entertainment, law, media, and the course of public opinion. Bestselling author, journalist, and historian Eric Alterman, together with historian Kevin Mattson, traces the history of liberal ideals through the lives and struggles of fascinating personalities. *The Cause* tells the remarkable story of politicians, intellectuals, visionaries, activists, and public personalities battling for the heart and soul of the nation. The first full-scale treatment of postwar liberalism, *The Cause* offers an epic saga driven by stories of grand aspirations, principled ambitions, tragic flaws, and the ironies of history of the people who fought for America to live up to the highest ideals of its history.

LIFE IS A BATTLE, AND WE ARE ALL SOLDIERS. We may not wear a uniform, eat in a mess hall, or dodge actual bullets for a living, but we are in a war—a very crucial one. Just walk into any room of people and you'll find immeasurable pain and wounds. On the outside we wear our camouflage well, but on the inside, deep within our own souls, we realize life is conflict. It is traceable to a single source: Satan, the adversary of our souls. Written by two US Army Green Berets, *The Warrior's Soul* provides a guide for how to apply the techniques of a true warrior in the spiritual realm by emphasizing five core elements: A cause greater than self—why we fight A settled memory—the link between history and current circumstances A personal intensity—eager for challenges and undistracted by personal issues An unflagging optimism—an absolute commitment to never surrender A deep camaraderie—a personal commitment to fellow warriors True warriors are willing to stand when others bow. With this first-rate preparation for spiritual battle you can stand strong and see victory.

candidate in 1988. Indeed, as Guenter Lewy writes in this critical account of American Communism, despite decades of feverish activity and ferocious discipline, it was a cause doomed to fail from the very beginning. In *The Cause that Failed*, Lewy offers an incisive narrative of the American Communist Party from the days of John Reed to the advent of glasnost. He traces its origins and development, underscoring how its devotion to Moscow and inflexible Marxist ideology isolated it from the American scene--in fact, most of its first members were Eastern European immigrants. During the left wing tide of the Depression the Communist Party reached the peak of its influence, as it joined labor unions and progressive organizations in a "Popular Front." But Lewy reveals the deceptive, antidemocratic, self-defeating tactics the Communists pursued even then, as they manipulated front organizations, seized control of political parties, peace groups, and labor unions, and enforced political conformity among members and sympathizers. He follows the Party through its inexorable decline in the succeeding decades, up to its current position as one of the last Stalinist parties left in a world of glasnost and perestroika. Lewy also provides a sharply critical discussion of the encounter between Communism and liberal and mainstream America. He examines such groups as the ACLU and SANE, arguing that the years when these organizations were tolerant toward Communists were also the times when they neglected their original purpose in favor of partisan causes. He shows how Communists have manipulated well-meaning citizens in the peace movement and in Wallace's 1948 Progressive Party presidential campaign. One of the great ills Americans suffer, he writes, is an overreaction to McCarthyism--an atmosphere of anti-anticommunism--which blinds them to the wrongs wrought by international Communism and makes them ignore the deceptive role played by the American Communist Party, which even today still keeps eighty percent of its membership secret. *The Cause that Failed* presents an intensively researched and trenchantly argued historical analysis of Communism in America. Guenter Lewy's provocative account provides a new understanding of Communism's machinations in U.S. politics, and how Americans from across the political spectrum have responded to its challenge.

Worthy of the Cause for Which They Fight chronicles the experiences of a well-educated and articulate Confederate officer from Arkansas who witnessed the full evolution of the Civil War in the Trans-Mississippi Department and western theater. Daniel Harris Reynolds, a community leader with a thriving law practice in Chicot County, entered service in 1861 as a captain in command of Company A of the First Arkansas Mounted Rifles. Reynolds saw action at Wilson's Creek and Pea Ridge before the regiment was dismounted and transferred to the Army of Tennessee, the primary Confederate force in the western theater. As Reynolds fought through the battles of Chickamauga, Atlanta, Nashville, and Bentonville, he consistently kept a diary in which he described the harsh realities of battle, the
