The Egypt Code

The story of dairying in Wisconsin is the story of how our very landscape and way of life were created. By making cows the center of our farm life and learning how to care for them, our ancestors launched a revolution that changed much more than the way farmers earned their living — it changed us. In *Creating Dairyland*, journalist, oral historian, and former dairyman Ed Janus opens the pages of the fascinating story of Wisconsin dairy farming. He explores the profound idea that led to the remarkable "big bang" of dairying here a century and a half ago. He helps us understand why there are cows in Wisconsin, how farmers became responsible stewards of our resources, and how cows have paid them back for their efforts. And he introduces us to dairy farmers and cheesemakers of today: men and women who want to tell us why they love what they do. Ed Janus offers a sort of field guide to *Dairyland*, showing us how to "read" our landscape with fresh eyes, explaining what we see today by describing how and why it came to be. *Creating Dairyland* pays tribute to the many thousands of Wisconsin farmers who have found a way to stay on their land with their cows. Their remarkable effort of labor, intelligence, and faith is one of the great stories of Wisconsin.

The Wisdom of Finance

"Entertaining and informative. Desai takes us on a journey through the fundamentals of finance, from asset pricing to risk and risk management, via options, mergers, debt, and bankruptcy."- John Lanchester, The New Yorker "A fascinating new perspective on modern finance," --Oliver Hart, 2016 Nobel Laureate in Economics "Lucid, witty and delightfully erudite From the French revolution to film noir, from the history of probability to Jane Austen and The Simpsons, this is an astonishing intellectual feast." --Sebastian Mallaby, author of The Man Who Knew: The Life and Times of Alan Greenspan Longlisted for 2017 Financial Times/McKinsey Business Book of the Year A 2017 AMAZON PICK IN BUSINESS & LEADERSHIP A WealthManagement.com BEST BUSINESS BOOK OF 2017 In 1688, essayist Josef de la Vega described finance as both "the fairest and most deceitful business . . . the noblest and the most infamous in the world, the finest and most vulgar on earth." The characterization of finance as deceitful, infamous, and vulgar still rings true today – particularly in the wake of the 2008 financial crisis. But, what happened to the fairest, noblest, and finest profession that de la Vega saw? De la Vega hit on an essential truth that has been forgotten: finance can be just as principled, life-affirming, and worthy as it can be fraught with questionable practices. Today, finance is shrouded in mystery for outsiders, while many insiders are uneasy with the disrepute of their profession. How can finance become more accessible and also recover its nobility? Harvard Business School professor Mihir Desai, in his "last lecture" to the graduating Harvard MBA class of 2015, took up the cause of restoring humanity to finance. With incisive wit and irony, his lecture drew upon a rich knowledge of literature, film, history, and philosophy to explain the inner workings of finance in a manner that has never been seen before. This book captures Desai's lucid exploration of the ideas of finance as seen through the unusual prism of the humanities. Through this novel, creative approach, Desai shows that outsiders can access the underlying ideas easily and insiders can reacquaint themselves with the core humanity of their profession. The mix of finance and the humanities creates unusual pairings: Jane Austen and Anthony Trollope are guides to risk management; Jeff Koons becomes an advocate of leverage; and Mel Brooks's The Producers teaches us about fiduciary responsibility. In Desai's vision, the principles of finance also provide answers to critical questions in our lives. Among many surprising parallels, bankruptcy teaches us how to react to failure, the lessons of mergers apply to marriages, and the Capital Asset Pricing Model demonstrates the true value of relationships. THE WISDOM OF FINANCE is a wholly unique book, offering a refreshing new perspective on one of the world's most complex and misunderstood professions.

The Real Bible Code

Presents conclusive evidence that ancient Egypt was originally the remnant of an earlier, highly sophisticated civilization • Supports earlier speculations based on myth and esoteric sources with scientific proof from the fields of genetics, engineering, and geology • Provides further proof of the connection between the Mayans and ancient Egyptians • Links the mystery of Cro-Magnon man to the rise and fall of this ancient civilization In the late nineteenth century, French explorer Augustus Le Plongeon, after years of research in Mexico's Yucatán Peninsula, concluded that the Mayan and Egyptian civilizations were related--as remnants of a once greater and highly sophisticated culture. The discoveries of modern researchers over the last two decades now support this once derided speculation with evidence revealing that the Sphinx is thousands of years older than Egyptologists have claimed, that the pyramids were not tombs but geomechanical power plants, and that the megaliths of the Nabta Playa reveal complex astronomical star maps that existed 4,000 years before conventional historians deemed such knowledge possible. Much of the past support for prehistoric civilization has relied on esoteric traditions and mythic narrative. Using hard scientific evidence from the fields of archaeology, genetics, engineering, and geology, as well as sacred and religious texts, Malkowski shows that these mythic narratives are based on actual events and that a highly sophisticated civilization did once exist prior to those of Egypt and Sumer. Tying its cataclysmic fall to the mysterious disappearance of Cro-Magnon culture, Before the Pharaohs offers a compelling new view of humanity's past.

Do Cats Hear with Their Feet? traces the evolution of cats from the time they first adapted their feline form about 20 million years ago. Exploring every aspect of a cat's life—from predation, to play, to communication—Jake Page shows us what a cat's daily life is really like. He gives us a cat's-eye view of a bird hunt in the foothills of the Rocky Mountains and explains why cats will hunt even when they are full, and why no self-respecting cat would eat vegetables. In sections that will be of interest to every cat owner, Jake Page demonstrates why territory is all-important to cats, investigates cat ESP, and shows that cats have, in fact, never been fully domesticated; they've just graciously decided to reside with us. Beautifully illustrated, this engaging book is full of surprising facts. Did you know: Black cats do better in the crowded conditions of cities than any other color? Cats are as allergic to humans as humans are to cats? Cats have survived falls from heights of over seven stories? Do Cats Hear with Their Feet? will show readers exactly why cats are such amazing creatures, and why humans have been crazy about them for centuries.

Lost Technologies of Ancient Egypt

Psalms Code II studies more years and reveals more codes hidden in the 3,000 year old scripture. The second book of the Psalms Code series, Psalms Code II is sub-titled "The Jesus Cycle". The hidden 1,900 year long incarnation cycle of Jesus is revealed to the public for the first time in human history! Jesus, "Immanuel" ["The Lord is with us"] is a man who died not! He had 22 lives in his pocket from the day he was born to Virgin Mary, and till the end of his 19 century-long incarnation cycle in year 1919 AD. He lived 22 separate lives in it. He started his journey as Jesus of Nazareth. In his sixth incarnation lived within the sixth century, he made himself known as Prophet Mohammed who established and founded Islam. In his 11th and middle [out of a total of 22] incarnation he was Yusuf Khas Hajib, the scribe or the author of Kutadgu Bilig. In his 19th incarnation, the world knew him with the name Rasputin. In his 20th incarnation, he was Lenin [the founder of Communism], in his 21st, we saw him as Royal Raymond Rife [the man who cured cancer] and finally, in his 22nd and final incarnation, he was Mustafa Kemal Ataturk [the Founder of the Turkish Republic]. Parallel to the Christian Faith, Jesus was the LORD but only during his first and last incarnations -lives! When the Jews crucified Jesus on the cross 1,900 years ago, they were not aware of the fact that they were attempting to kill the LORD Himself! The LORD, without a doubt, is invincible as reported in various verses of the Bible. However, the first and the last incarnations of Jesus belonged to him! The reason why the Catholic Church [Vatican] and Islam distance themselves from the Jews is based on this simple fact: The Jews attempted to kill the LORD of Hosts! Their "Ultimate Sin" caused them a most fiery vengeance ever after! Both the Bible and the Koran report the same fact: The LORD is "The First" and "The Last", Alpha and Omega. The first and the last incarnations of Jesus were reserved for the LORD Himself! The LORD personally "lived" the first and the last incarnations of Jesus; in our case, He was Jesus Christ, the man who could heal the blind and raise the dead! In his 22nd incarnation, He was Mustafa Kemal Ataturk, the "Father Turk" or the "Father of the Turks" during the last 19 years of his life. [Those who are prejudiced against Rasputin, Lenin or Ataturk should not come to conclusions before considering the evidence presented in the book.] A brand new

1,900 Jesus Cycle will start in year 2019 AD. As the "First" and the "Last", the LORD will live the very first life of the total 24 new lives due for Jesus once again. Just nine years from now, mankind will have a "twice in a 1,900 years" chance to witness the LORD manifested in human form! Whether He will reveal Himself as a prophet, as a national hero, a political leader is to be but awaited Without a shadow of a doubt, the LORD is nigh Very nigh, indeed.

The Christ Conspiracy

A book of Jewish myth and thinking, the Book of Enoch was a book that was widely used in the first century as a point of reference in Jewish belief. While it is largely unknown exactly when the book was written, it was known to have been written by the time of the New Testament since a passage in the book of Jude comes from this source. While not canonical, this book is an interesting tool to enlightening the myths Jews held onto at the time of Biblical writing.

The Codebreakers

“ When Claude Tarba showed off a family heirloom in a crowded Arabian restaurant in Melbourne, that simple act of pride among friends didn't go unnoticed. It set in motion a journey through the little known high mountain country of The Yemen; then on to the Italianate City of Asmara in the Ancient land of Eritrea and a hi-jacking, which landed him in Western Turkey. Eventually after a number of risky adventures that took him to the far southern reaches of Egypt, he found himself committed to a treasure quest which if proved successful would change the future perception of the human race for the next couple of millennia. Clues uncovered in the Tomb of the God King Tutankhamen entrance our unwitting hero and his new friends, committing them all through something more than curiosity to a trail of intrigue, with villains popping up everywhere, intent on stopping them from achieving their main goal, the installation of Claude as an honorary new Pharaoh. Despite foiling several attempts on their lives, Claude and his companions then have to contend with another scoundrel and his giant of a servant, who have their eyes on the treasure whatever it may turn out to be. The story takes us back into the ancient world of 18th Dynasty Egypt where we meet the legendary King Solomon who with his son and heir, plan and set the stepping

stones that may only be discovered and followed by a future generation worthy enough to restore the glory and spiritual beliefs of the Egypt that once was. Not only is the narrative one full of thrills and unusual situations, it is also transports the reader into the colourful life of contemporary and ancient Egypt. The unexpected climax will have everyone thinking, 'What really did happen thousands of years ago to kick-start civilisation as we know it today?'"

The Egypt Game

It is astonishing to think that many great archaeological discoveries occurred in Egypt only by way of accident during the 19th and 20th centuries. Even today accidents still play a vital, frequent and sometimes comical role, with new discoveries happening almost weekly and with many more secrets of the ancient Egyptian civilization still remaining. This book takes readers beyond these discoveries and their associated accidents. This book cannot be considered purely as an Egyptological and archaeological reading or even as dry history pages covering Egypt's modern era of the 19th and 20th centuries. Rather, it is a book that sheds light on the intimate links between the birth of Egyptology after the deciphering of the famous Rosetta Stone and the raging world politics and regional power shifts in Egypt and its surroundings. The book ties together the political storms of colonialism in the first half of the 19th century and the unsettling effect these upheavals had on Egypt during the reign of Mohamed Ali Pasha. In a storytelling style, the book is a journey through time and place. The book takes readers on a guided tour to most of Egypt's well-known monuments that were mainly discovered by simple accident or in which an accident played a major part leading to discovery. In addition, the book leads readers through time exploring ancient Egypt, the days of the pharaohs, ancient gods, rituals and public ceremonial festivals, with old and new stories that shed light on the true value of such discoveries in antiquity and modern day.

Psalms Code II

The history of Ptolemaic Egypt has usually been doubly isolated--separated both from the history of other Hellenistic states and from the history of ancient Egypt. The Last Pharaohs, the first detailed history of Ptolemaic Egypt as a state, departs radically from previous studies by putting the Ptolemaic state firmly in the context

of both Hellenistic and Egyptian history. More broadly still, J. G. Manning examines the Ptolemaic dynasty in the context of the study of authoritarian and premodern states, shifting the focus of study away from modern European nation-states and toward ancient Asian ones. By analyzing Ptolemaic reforms of Egyptian economic and legal structures, *The Last Pharaohs* gauges the impact of Ptolemaic rule on Egypt and the relationships that the Ptolemaic kings formed with Egyptian society. Manning argues that the Ptolemies sought to rule through--rather than over--Egyptian society. He tells how the Ptolemies, adopting a pharaonic model of governance, shaped Egyptian society and in turn were shaped by it. Neither fully Greek nor wholly Egyptian, the Ptolemaic state within its core Egyptian territory was a hybrid that departed from but did not break with Egyptian history. Integrating the latest research on archaeology, papyrology, theories of the state, and legal history, as well as Hellenistic and Egyptian history, *The Last Pharaohs* draws a dramatically new picture of Egypt's last ancient state.

The Rough Guide to the Da Vinci Code

In this highly controversial and explosive book, archaeologist, historian, mythologist and linguist Acharya S. marshals an enormous amount of startling evidence to demonstrate that Christianity and the story of Jesus Christ were created by members of various secret societies, mystery schools and religions in order to unify the Roman Empire under one state religion. In developing such a fabrication, this multinational cabal drew upon a multitude of myths and rituals that existed long before the Christian era, and reworked them for centuries into the religion passed down to us today. Contrary to popular belief, there was no single man who was at the genesis of Christianity; Jesus was many characters rolled into one. These characters personified the ubiquitous solar myth, and their exploits were well known, as reflected by such popular deities as Mithras, Heracles/Hercules, Dionysos and many others throughout the Roman Empire and beyond. The story of Jesus as portrayed in the Gospels is revealed to be nearly identical in detail to that of the earlier savior-gods Krishna and Horus, who for millennia preceding Christianity held great favor with the people. The Christ Conspiracy shows the Jesus character as not unique or original, not "divine revelation." Christianity reinterprets the same extremely ancient body of knowledge that revolved around the celestial bodies and natural forces. The result of this myth making has been "The Greatest Conspiracy Ever Sold." .

Why did the ancients align their monuments so precisely with the stars? What were the practical and symbolic reasons behind these mysterious configurations? From

the author of *The Orion Mystery*, the best-selling book that introduced the revolutionary star-correlation theory about the Giza pyramids, *The Egypt Code* reveals an amazing Grand Unified Plan behind the legendary temples of upper Egypt. Robert Bauval, one of the world's most prominent and controversial Egyptologists, completes his groundbreaking investigation of astronomy as related to Egyptian monuments and related religious texts. *The Egypt Code* revisits the Pyramid Age and the Old Kingdom, proposing a vast sky-ground correlation for the Memphite-Heliopolis region, and presenting the possibility of a grand plan spanning three thousand years of Pharaonic civilization and involving pyramids and major temple sites along the Nile. The central idea of the book is that the cosmic order, which the ancients referred to as "Maat," was comprised of the observable cycles of the sun and stars, in particular the star Sirius, and that the changes that took place due to the precession of the equinoxes and the so-called Sothic Cycle are reflected in the orientation and location of religious sites.

Mummies, Pyramids, and Pharaohs

God was lonely and decided he wanted a Family - he made spiritual beings, Angels to help Him create the Universe. The Bible is the story of God's plan. God that could have a place suitable for flesh = the earth. Throughout history, God selected certain characters before and after the flood, to record and pass down the past, present, and future events of God's plan, The Bible. Manuscripts found and stolen by the Romans were used to make up the New Testament. Now the World can clearly see how God is getting his family together and have the opportunity to join in. The Bible is available to almost anyone on Earth, from doctors to hospitals, hotels, and prisons. Even in remote places they have the Bible or knew the stories before they were even given the book, which I find quite convincing. This takes us from our beginnings, to everlasting life, in a spiritual Kingdom with God. I repeat an everlasting life with God forever, no end. The Bible tells us how to save ourselves with our children/family from the coming dangers. All people that find the place of refuge will be saved from The Great Tribulation/ World War III. At the last plague, they are put back on the Earth in the flesh, for a 1000 years of peace. It takes this long to be cleansed from all filthiness, all disease, bacteria, etc. So God's congregation will be fully cleansed spiritually, physically, and mentally, as Adam and Eve were in the beginning, perfect. They are also given correct education and can listen to the Lord's words without Satan's influence, in preparation to meet God. All ungodly/evil people that insist on not listening to the words of God/Bible will burn to death in the lake of fire, a final death, no more life. Fallen Angels, Demons, men of renown and Giants (whom are the Fallen Angel's offspring) will

burn in the lake of fire for eternity. The Bible is not really a mystery, it has been portrayed as a mystery by the World, which belongs to Satan, who has explained the scriptures without Africans, which I have found impossible to do through my studies of the Bible. From an early age, this factor inspired me to confront religious leaders and speak to people who claimed they know the Bible, or have an interest in the Bible, always asking questions they hadn't found the answers to that are clearly shown in the scriptures. I also spoke to people who dismiss the Bible. These people, some being atheists, mostly dismiss it because of the way the Bible has been portrayed to the World for generations. We have the real future events/Prophecies, which God went through a lot of trouble and death, sorrow and tears, to get this story to the people of the last days = us to day on planet Earth. We are the only generation who can see all World events and prove to ourselves whether they are happening or not. We also have the opportunity of becoming one of the Elect, which does not experience or go through death, but receives the reward of eternal life because we are living in the days of Jesus's return and the end of Satan's kingdom and reign. I hope this book has been an eye-opening experience for you all. Now comfort one another with the Gospel of the Kingdom of Christ. because time is running out. I hope to see you in THE KINGDOM.

Green Mansions: A Romance of the Tropical Forest

A unique study of the engineering and tools used to create Egyptian monuments • Presents a stone-by-stone analysis of key Egyptian monuments, including the

statues of Ramses II and the tunnels of the Serapeum • Reveals that highly refined tools and mega-machines were used in ancient Egypt From the pyramids in the north to the temples in the south, ancient artisans left their marks all over Egypt, unique marks that reveal craftsmanship we would be hard pressed to duplicate today. Drawing together the results of more than 30 years of research and nine field study journeys to Egypt, Christopher Dunn presents a stunning stone-by-stone analysis of key Egyptian monuments, including the statue of Ramses II at Luxor and the fallen crowns that lay at its feet. His modern-day engineering expertise provides a unique view into the sophisticated technology used to create these famous monuments in prehistoric times. Using modern digital photography, computer-aided design software, and metrology instruments, Dunn exposes the extreme precision of these monuments and the type of advanced manufacturing expertise necessary to produce them. His computer analysis of the statues of Ramses II reveals that the left and right sides of the faces are precise mirror images of each other, and his examination of the mysterious underground tunnels of the Serapeum illuminates the finest examples of precision engineering on the planet. Providing never-before-seen evidence in the form of more than 280 photographs, Dunn's research shows that while absent from the archaeological record, highly refined tools, techniques, and even mega-machines must have been used in ancient Egypt.
