BUDDHISM

Silent Heroes

Church and Worship Music in the United States

In the 1930's lighthouse keeping was dangerous and mundane, a way of life and isolation from life. Estonia was thriving and backward, unique and powerless. Women were submissive and yet the impetus for all things. And marriage was mandatory. But romantic love was the sweetest and most unlikely twist of fate. Paula is a woman I knew in my childhood. She was an Estonian immigrant. She was a mail-order bride. Her husband was an Estonian-American, a lighthouse keeper, a wife beater and maybe a pedophile. Paula, an educated woman in Estonia, came to this country not knowing the language or culture and was kept a virtual prisoner for more than a decade at a string of lighthouses on the rugged Alaskan coast. Paula was a woman who's life, while dictated by tradition, was full of excitement and adventure and characterized by passion and courage. And while at times there seems no end to the misery she endured, a love story unfolds. Come along on this true journey inside real lighthouse living and one woman's life.

Retirement ROCKS is an insightful case study of the Golden Age that offers both great new opportunities and deep, heartbreaking challenges. Since June 2007, the author and her gringo have embarked in this stage with enthusiasm and zest: they moved to a small retirement home and experimented with activities and relationships that fit their interests and abilities. Retirement ROCKS because it can be incredibly rewarding and adventurous as we leave behind the normal worries of child-rearing and professional pressures, and it ROCKS because it will inevitably bring the disappearance of treasured loved ones and the health decline that we all must face. This autobiographical personal monograph pictures the daily routines of Maria and Bill in their late sixties and early seventies, detailing the specifics of adapting to their new environment. It has humor and pathos. The family and friends relationships reflect universal themes. It includes travel journals of their world explorations (Scandinavia, Mediterranean, Russia, China, and more), as well as practical examples of their activities and their choices. It will provide entertaining, informative, and useful reading for those approaching and those benefiting from the technological medical advances which have afforded us this unprecedented gift of a long life and a rich old age.

The Sounds of Our Offerings is good news about the music of the church. It recounts what has been learned from studying nine congregations where music promotes the full, active, conscious participation of the worshipers and where it has done so consistently and coherently for many years. Pastors and musicians reflect on their work together and offer rich insights about what works and what does not. Lay musicians and members of the congregation also share their experiences with music in worship. Though no site was without its struggles, and at times difficult choices had to be made, for the most part, we see unremarkable, week to week, year to year, faithful rendering of music for prayer and praise. We see that sometimes the nature of the music took a slightly different turn, one that built upon the foundations of the past. The music choices in these churches are not restricted to one particular era or style, but rather reflect the broader church's music repertoire, including the best recently written music. These are the stories of churches with a reputation for their fine music programs, churches that, with their leaders and congregations, have worked out these programs in consistent, coherent ways. In most cases, the programs span multiple priests/pastors and musicians. The Sounds of Our Offerings is about excellent music and how it has found its way into the life and faith practices of these congregations.
