The Ethics of Sightseeing

This textbook describes the relevance of economics to the tourism and leisure industries, helping you to pass an economics module as part of a tourism, recreation or sport management degree. It applies economic theory to a range of tourism industry issues at the consumer, business, national and international level by using topical examples to give the theory real-world context. The author explains the impact of the global economic crisis and the importance of understanding what has happened over the course of previous economic business cycles to prepare for what may happen in the future. Contrasting evidence is put forward to provide a sense of the dynamics of world economies.

Proceedings of the ISCONTOUR The aim of the International Student Conference in Tourism Research (ISCONTOUR) is thus to offer students a unique platform to present their research and to establish a mutual knowledge transfer forum for attendees from academia, industry, government and other organisations. The annual conference, which is jointly organised by the IMC University of Applied Sciences Krems and the Salzburg University of Applied Sciences, will take place alternatively at the locations Salzburg and Krems. The conference research chairs are Prof. (FH) Dr. Roman Egger (Salzburg University of Applied Sciences) and Prof. (FH) Mag. Christian Maurer (University of Applied Sciences Krems). The target audience includes international students (also PhDs), graduates, teachers and lecturers from the field of tourism and leisure management as well as companies and anyone interested in the conference topic areas. Issues to be covered at the conference include the following areas within a tourism context: Marketing & Management Tourism Product Development & Sustainability Information and Communication Technologies

CBSE Curriculum was most recently updated on 29th March 2020 for Academic year 2020 – 2020. There were major changes observed which will have direct impact on the Question Paper design for Board Examinations 2020. Keeping this in mind Oswaal Sample Question Papers have been thoroughly updated as per the latest Board guidelines. This makes them extremely relevant for Exam oriented study. IMPORTANT FEATURES OF THE BOOK: ICON 1 ICON 2 ICON 3 Self-Study Mode Ten Sample Question Papers covering important concepts from an examination perspective (1-5 solved and 6-10 for Self-Assessment) Exam Preparatory Material Answers from the CBSE Marking Scheme upto March 2020 Exam with detailed explanations as per the word limit for exam-oriented study. Answering Tips & Commonly Made Errors for clearer thinking. On Tips Notes On tips notes, Mind Maps & Grammar charts facilitate quick revision of chapters NCERT & Oswaal 150+ concept videos for digital learning. WHAT THIS BOOK HAS FOR YOU: ICON 4 ICON 5 ICON 6 Latest CBSE Curriculum Strictly based on the latest CBSE curriculum issued on 29th March 2020 for Academic Year 2020-2020, for classes 9 to 12 following the latest NCERT Textbook. Latest Typology OF Questions Objective Type Questions included as per the latest design of the question paper issued by CBSE. Most Likely Questions ‘Most likely questions’ generated by our editorial Board with 100+ years of teaching experience. About Oswaal Books: Oswaal Books strongly believes in Making Learning Simple. To ensure student-friendly, yet highly exam-oriented content, we take due care in developing our Panel of Experts. Accomplished teachers with 100+ years of

combined experience, Subject Matter Experts with unmatched subject knowledge, dynamic educationists, professionals with a keen interest in education and topper students from the length and breadth of the country, together form the coveted Oswaal Panel of Experts. It is with their expertise, guidance and a keen eye for details that the content in each offering meets the need of the students. No wonder, Oswaal Books holds an enviable place in every student's heart!

Tourism Knowledge and Fieldwork

This thesis aims to describe and interpret the effects of tourism on historic sites in Antarctica and Svalbard (also known as Spitsbergen), and to assess the implications for management. Explorers, whalers, seal hunters, scientists and others have left many material remains in the Polar Regions that are significant because they tell the history of the exploration and exploitation of these regions. Contemporary polar tourism represents a new phase in this exploration and exploitation of the Polar Regions. The potential for the transformation of historic sites has increased following the substantial expansion of polar tourism in recent decades. Key cultural heritage sites are regularly included in standard tourist itineraries and are also the subject of specialized tourism. In this context, the central research question of this thesis is: What are the effects of tourism on polar historic sites, and what are the implications of this for the management of tourism and these historic sites?

Tourism: Tourism, development and sustainability

Can your employer require you to travel to India for a hip replacement as a condition of insurance coverage? If injury results, can you sue the doctor, hospital or insurer for medical malpractice in the country where you live? Can a country prohibit its citizens from helping a relative travel to Switzerland for assisted suicide? What about travel for abortion? In *Patients with Passports*, I. Glenn Cohen tackles these important questions, and provides the first comprehensive legal and ethical analysis of medical tourism. Medical tourism is a growing multi-billion dollar industry involving millions of patients who travel abroad each year to get health care. Some seek legitimate services like hip replacements and travel to avoid queues, save money, or because their insurer has given them an incentive to do so. Others seek to circumvent prohibitions on accessing services at home and go abroad to receive abortions, assisted suicide, commercial surrogacy, or experimental stem cell treatments. In this book, author I. Glenn Cohen focuses on patients traveling for cardiac bypass and other legal services to places like India, Thailand, and Mexico, and analyzes issues of quality of care, disease transmission, liability, private and public health insurance, and the effects of this trade on foreign health care systems. He goes on to examine medical tourism for services illegal in the patient's home country, such as organ purchase, abortion, assisted suicide, fertility services, and experimental stem cell treatments. Here, Cohen examines issues such as

Read Book Tourism Question Paper

extraterritorial criminalization, exploitation, immigration, and the protection of children. Through compelling narratives, expert data, and industry explanations *Patients with Passports* enables the reader to connect with the most prevalent legal and ethical issues facing medical tourism today.

Oswaal CBSE Sample Question Paper Class 10 Social Science (For March 2020 Exam)

Natural disasters, wars and conflicts, epidemics, and other major crises can devastate a tourism service or destination. Though there is extensive literature and research on preparation and coping with tourism crises, there is a gap in information on how to best market and recover from the destruction of caused to

Read Book Tourism Question Paper

tourism businesses and destinations. This book fills the gap by comprehensively examining how to rebuild the market for a tourism service or destination after a catastrophe. This important book presents leading experts from around the world providing useful instruction on effective ways to plan for future crisis response and strategies for recovering business. A crisis may arise from several types of destructive occurrences, from natural physical destruction of important infrastructure to acts of terrorism. Because of the broad range of potential problems, there is no single strategy for which to deal with crises. The book explores a wide range of catastrophes, from Hurricane Katrina to tsunamis to war, taking a detailed look at management and administrative strategies which can help stimulate tourism recovery. This book explores stealth and catastrophic risks, risk perceptions, mediating the effects of natural disasters on travel intention, and various marketing strategies designed to bring customers back. This volume may become one of the most crucial resources in a tourism professional's library. The book is extensively referenced and includes several tables and figures to clearly explain data. This book is essential reading for tourism researchers, tourism educators, tourism industry managers, and tourism industry administrators. This book was published as a special issue of the Journal of Travel & Tourism Marketing.

Coastal Mass Tourism

Tourist art may be a billion dollar business. Nevertheless, such art is despised. What is worse, the

"bad" culture is seen as driving out the "good." Commercialization is assumed to destroy traditional arts and crafts, replacing them with junk. The process is seen as demeaning to artists in the traditional societies, who are seduced into a type of whoredom: unfeeling production of false beauty for money. The arts remain problematic for the social sciences. Sociology textbooks treat the arts as subordinate reflections of social forces, norms, or groups. Anthropology textbooks conventionally isolate the arts in a separate chapter, failing to integrate them with analyses of kinship, economics, politics, language, or biology. Textbooks reflect the guiding theories, which emphasize such factors as modes of production, patterns of thought, or biological and normative constraints, but their authors have not adequately formulated the aesthetic dimension. One may compare the theoretical status of the arts to that of religion. After the contributions by Emile Durkheim and Max Weber, the sociology of religion is well established, but where is a Durkheim or Weber for the sociology of art? What is true of the social sciences in general holds for understanding of modernization in the Third World. These processes and those places are analyzed economically, politically, and socially, but the aesthetic dimension is treated in isolation, if at all, and is poorly grasped in relation to the other forces.

Making a Difference: Dossier on Community Engagement on Nature Based Tourism in India

Read Book Tourism Question Paper

This collection of key articles from the most influential journals and books in the field examines what social scientists mean by the term tourism, and what it means to be a tourist. Carefully selected and introduced by the editor, this material charts the sociological changes that have occurred in tourism, and the change from the upper-class grand tours of the late nineteenth-century to the mass tourism of the present day. The collection also assesses the economic impacts of tourism on local economies, environmental considerations, and whether the growth of tourism is sustainable in a post-September 11th world. "Tourism: Critical Concepts in the Social Sciences" is an accessible and comprehensive resource designed for academics and scholars researching in tourism, globalization, and human geography.

Tourism as a Tool for Development

This book strives to understand the social and cultural dynamics in Mediterranean tourist destinations through ethnographic examples from Greece, Spain, Egypt, France, Malta and Crete. It observes and examines the social, cultural and relational processes involved as migrants, tourists and new residents converge with locals in daily life.

Tourism Development After the Crises

Hauptbeschreibung Global imbalances and crises which occurred more frequently and at shorter intervals made international tourism demand more

volatile. This book, edited by Peter Keller and Thomas Bieger, provides a unique analysis of the recent financial crisis on world tourism and particularly the development models which contribute to reduce poverty. The volume is based on the knowledge of a network of more than 300 researches and includes experiences from Europe, Africa and Asia. It focuses on the latest economic crises as a framework for analyses and as a real life case study.

Tourism and the Environment

This book explores the links between tourism and festivals and the various ways in which each mobilises the other to make social realities meaningful. Drawing upon a series of international cases, festivals are examined as ways of responding to various forms of crisis - social, political, economic - and as a way of re-making and re-animating spaces and social life. Importantly, this book locates festivals in the constantly changing, socio-economic and political contexts that they always operate in and respond to - contexts that are both historical and modern at the same time. Tourism is bound closely together with such contexts; feeding and challenging festivals with audiences that are increasingly transient and transnational. Tourism interrogates notions of ritual and tradition, shapes new spaces and creates, and renews, relationships between participants and observers. No longer can we dismiss tourists simply as value neutral and crass consumers of spectacle, nor tourism as some inevitable commercial force. Tourism is increasingly complicit in the festival

processes of re-invention, and in forming new patterns of social existence.

Strategic Management for Tourism Communities

Examine cultural tourism issues from both sides of the industry! Unique in concept and content, *Cultural Tourism: The Partnership Between Tourism and Cultural Heritage Management* examines the relationship between the sectors that represent opposite sides of the cultural tourism coin. While tourism professionals assess cultural assets for their profit potential, cultural heritage professionals judge the same assets for their intrinsic value. Sustainable cultural tourism can only occur when the two sides form a true partnership based on understanding and appreciation of each other's merits. The authors--one, a tourism specialist, the other, a cultural heritage management expert--present a model for a working partnership with mutual benefits, integrating management theory and practice from both disciplines. *Cultural Tourism* is the first book to combine the different perspectives of tourism management and cultural heritage management. It examines the role of tangible (physical evidence of culture) and intangible (continuing cultural practices, knowledge, and living experiences) heritage, describes the differences between cultural tourism products and cultural heritage assets, and develops a number of conceptual models, including a classification system for cultural tourists, indicators of tourism potential at cultural and heritage assets, and

assessment criteria for cultural and heritage assets with tourism potential. Cultural Tourism examines the five main constituent elements involved in cultural tourism: cultural and heritage assets in tourism sites such as the Royal Palace in Bangkok, the Cook Islands, and Alcatraz Prison in San Francisco. tourism--what it is, how it works, and what makes it a success five different types of cultural tourists consumption of products, value adding, and commodification integrating the first four elements to satisfy the tourist, meet the needs of the tourism industry, and conserve the intrinsic value of the asset Though tourism and cultural heritage management professionals have mutual interests in the management, conservation, and presentation of cultural and heritage assets, the two sectors operate on parallel planes, maintaining an uneasy partnership with surprisingly little dialogue. Cultural Tourism provides professionals and students in each field with a better understanding of their own roles in the partnership, bridging the gap via sound planning, management, and marketing to produce top-quality, long-lasting cultural tourism products. Now translated into simplified Chinese.

The Economics of Recreation, Leisure and Tourism

This fascinating book is the first comprehensive analysis of the economic, social and political interrelationships between tourism and global environmental change: one of the most significant issues facing humankind today. Its contributors argue

that the impacts of these changes are potentially extremely serious both for the tourism industry, and for the communities dependent upon it. Integrating knowledge from the social and physical sciences, this significant book explores the key issues surrounding global environmental change, as well as government and industry willingness to meet the challenges posed by it. Divided into four main sections, it investigates: the tourism and global environmental change relationship in specific environments global issues related to environmental change differing perceptions of global environmental change held by tourists and the tourist industry. Comprehensive in scope, topical and integrative, this key text is essential reading for students, scholars and researchers in all aspects of tourism, geography and environmental studies.

Festivals, Tourism and Social Change

CTH - Introduction to Tourism Economics

Sports Tourism: participants, policy and providers is an unparalleled text that explains sports tourism as a social, economic and cultural phenomenon that stems from the unique interaction of activity, people and place. Unlike other texts, it seeks to present sports tourism as a unique area that produces its own unique issues, concerns and controversies. The text tackles these issues from three viewpoints: participants: examining the profiles, motivations and behaviour patterns of sports tourists to create a typology of participants policy: analyses the response

by policy makers to this phenomenon and the problems of achieving integration between two sectors with historically different cultures providers: their motivations, aims, objectives and strategies Illustrated by international case studies in each chapter, and with four extended case study chapters, Sports Tourism: participants, policy and providers examines this area using real life experiences and concrete evidence.

Productivity in Tourism

Inhaltsangabe:Introduction: In the past two decades backpacker tourism has grown vastly throughout both developed and developing world. Particularly to south and Southeast Asian countries the phenomenon of backpacking is not new, so to India, where it dates back to the 60 s and 70 s hippy drifters, to which backpacking is often associated. It has been since the publication of the Lonely Planet s Yellow Bible (Southeast Asia on a Shoestring) in 1975 that backpacking has gradually emerged as a mass travel style. Today popular travel-yourself literature cover almost every corner of the globe, serving a steady demand for off the beaten path travel. Thereby to backpackers the developmental background of a destination plays a lesser role than to the mainstream tourist, who is demanding certain infrastructural arrangements. As a result backpackers are found in utmost remote and low developed locations that other tourists never reach. Thus backpacker enclaves have emerged in many places throughout the world, and not without effects on their hosting environments.

While social impacts often carry negative connotations, hosting communities do usually appreciate backpackers for their economic contributions. Objectives and Scope of this paper: In recent years backpacker tourism has profoundly been studied in developed contexts, particularly Australia and New Zealand are to be seen the pioneering regions of independent travel research, having undertaken strenuous efforts to study the same within the past two decades. As a consequence both destinations have recognized the economic value of low budget travel to their countries and established backpacker tourism as high yielding segments within their national tourism markets. In both countries backpacking has since undergone shift from de-marketing to a marketing label. Though in recent years international research has made numerous successful attempts to study backpacker tourism in less developed contexts, many tourism officials in third world destinations as yet refuse to accept the economic reach coming along with low-budget travel. Instead a majority of administrative instances promote upscale- and regulated forms of tourism to be the way forward, neglecting any concerns with regard to necessary infrastructure or initial investments. Though only a fraction of developing nations do actively restrict independent travel to their territories (e.g. Maldives, Bhutan), a majority at best tacitly ignores the []

Managing Ethical Consumption in Tourism

Why do tourists take photos of certain things and not of others? Why do tourists take photos at all? How do photos build places, how do they change and shape lives? An interdisciplinary team of contributors from across the globe explore such questions as they examine the relationships between photography and tourism and tourists.

Developing a Successful Infrastructure for Convention and Event Tourism

A multidisciplinary approach to the challenges of developing a “complete package” for convention and event tourism To be successful in today’s competitive convention and event tourism market, communities need to provide a complete package that includes quality lodging, convenient and affordable transportation, restaurants, entertainment, and tourist appeal. Developing a Successful Infrastructure for Convention and Event Tourism presents a multidisciplinary approach to the challenges of developing larger infrastructural needs. This unique book closely examines what it takes for a destination to be successful, providing a balanced approach to developing convention and event tourism. Respected experts from a variety of disciplines such as economics, tourism, communications, law, and public policy discuss practical strategies and what infrastructure should be in place to better ensure success for a convention destination. Developing a Successful Infrastructure for Convention and Event Tourism provides insights into various complex aspects of developing the infrastructure for

convention and event tourism, including economic development, land use issues, politics, social equity, marketing issues, security issues, governance, and citizen participation. Tourism professionals can get a broad and comprehensive look at how to best apply this expert knowledge to their own situations. This text is extensively referenced and provides tables to clearly present data. Topics in *Developing a Successful Infrastructure for Convention and Event Tourism* include: public financing for headquarter convention hotels private sector investments in hotels assumptions and issues that are critical to reliable estimates of the economic impacts of event tourism the evaluation of economic impact studies a case study of what Korea did to foster rapid growth to become a major player in the international convention market emerging issues facing convention and event tourism the use of convention centers as staging grounds for disaster recovery and more! *Developing a Successful Infrastructure for Convention and Event Tourism* is a horizon-expanding text invaluable to tourism educators, tourism students, researchers, local and state government officials, policymakers, and anyone involved with local economic development.

CTH - Special Interest Tourism

Handbook of Research in Mobile Business, Second Edition: Technical, Methodological and Social Perspectives

As other industries, the global travel and tourism industry has been facing immense challenges and highly visible upheaval since the beginning of the new millennium. The International Tourism Exchange ITB Berlin, the world's leading travel trade show, aims at pinpointing the most important challenges, identifying the trends and offering a platform to solve pressing problems. The ITB Convention Market Trends & Innovations has developed into a centre of excellence and a driving force for the global travel and tourism industry, generating a much needed information platform. This compilation unites the highlights of the convention in articles prepared by renowned professionals and scientists from the industry. Readers may benefit from this comprehensive vision of the developments that are shaping the structure of the global tourism industry today and in the future. This book is indispensable for tourism and travel professionals as well as for academics and students analysing current global tourism and travel trends.

Culture and Society in Tourism Contexts

This text examines the development of mass tourism in coastal regions of Southern Europe, with implications for similar regions. It provides a critical assessment of attempts to make mass tourism resorts more sustainable, and the development of smaller-scale, alternative tourism products.

GEOGRAPHY OF TRANSPORT, TOURISM & MANAGEMENT

Read Book Tourism Question Paper

Is travel inherently beneficial to human character? Does it automatically educate and enlighten while also promoting tolerance, peace, and understanding? In this challenging book, Dean MacCannell identifies and overcomes common obstacles to ethical sightseeing. Through his unique combination of personal observation and in-depth scholarship, MacCannell ventures into specific tourist destinations and attractions: "picturesque" rural and natural landscapes, "hip" urban scenes, historic locations of tragic events, Disney theme parks, beaches, and travel poster ideals. He shows how strategies intended to attract tourists carry unintended consequences when they migrate to other domains of life and reappear as "staged authenticity." Demonstrating each act of sightseeing as an ethical test, the book shows how tourists can realize the productive potential of their travel desires, penetrate the collective unconscious, and gain character, insight, and connection to the world.

Sports Tourism

Tourism, with its wide-ranging impact, needs to be managed effectively – but how? This book advocates taking a business approach to tourism that encourages greater collaboration between stakeholders in the practical assessment of tourism options. The approach places key business management functions and stakeholders at the forefront of tourism initiatives. The business management functions of planning, organising, leadership and control are the filters through which

tourism opportunities are viewed, while the stakeholder groups of customers, residents, industry and government set the agenda for appropriate tourism development. Tourist destinations must engage in realistic assessments of their abilities to meet the needs and expectations of tourism stakeholders and then act on these assessments so their goals and objectives can be achieved. A new model for bridging stakeholder gaps is presented as a template for how communities can understand and make the most of their tourism resources. The Bridging Tourism Gaps Model is a practical tool to help destinations focus on the important factors in developing and maintaining tourism as a beneficial and vital part of their communities. This book builds on the success of *Tourism: A Community Approach* and the subsequent tourism planning experiences of both authors to advance strategic planning in tourism.

The Framed World

Develop the untapped possibilities of this potential tourist El Dorado! Given its size, location, cultural attractions, and natural beauty, South America gets far less of the international tourist dollar than it deserves. This valuable book identifies and explores the major issues that influence and shape tourism in South America. Tourism in South America includes original empirical research into the image people have of this varied continent, the factors that draw people to visit South America, and the fears, lack of

knowledge, and negative images that can keep tourists away. *Tourism in South America* examines current practices and suggests alternative models of development. Its informative discussions range from cultural tourism to sustainable tourism to developing human resources. The original empirical research in this volume offers unique insights, and reference notes are included. The reader will encounter varied points of view in *Tourism in South America*. You can expect to: view Australian travel industry perspectives on Latin American tourism explore the impact of tourism on the Argentina's Patagonian Coast examine the environmental tactics that Mexican and Jamaican hotel companies employ survey the recreation preferences of hikers in a Colombian National Park ponder the implications of performing traditional dances for modern tourists in the Amazon Tour operators, hotel managers, local tourism boards, and others seeking the attention of tourists will profit from the new strategies and original research presented in *Tourism in South America*.

Safety and Security in Tourism

This book constitutes the refereed proceedings of the First International Workshop on Human-Computer Interaction, Tourism and Cultural Heritage, HCITOH 2010, held in Brescello, Italy, in September 2010. The 17 revised papers presented were carefully reviewed and selected from numerous submissions. Providing strategies for a creative future with computer science, quality design and communicability, the papers discuss the latest advances in the areas of

augmented realities, computer art, computer graphics, e-commerce, eco-design, emerging technologies, dynamic and static media (2D & 3D), HCI, interactive systems, mixed reality, networking, simulation languages, tourism, usability, video games, virtual classroom and virtual museum.

Tourism Development

Patients with Passports

This work combines a study of contemporary issues in tourism development with a close examination of approaches to tourism research. Looking beyond the much-studied mass tourism industries, leading international academics who are members of the International Academy for the Study of Tourism, explore new issues raised by emerging tourist destinations such as Ghana, Samoa, Vietnam and India's Bhyundar Valley. A fascinating work, *Contemporary Issues in Tourism Development* discusses a wide range of topics such as: * reasons for development * tourism development as a strategy for urban revitalization * tourism's links to heritage conservation and regional development * sustainability and the adverse impacts of development * cultural considerations and community participation * the importance of context for individual tourism projects.

BPP Learning Media is proud to be the official publisher for CTH. Our CTH Study Guides provide the perfect tailor-made learning resource for the CTH examinations and are also a useful source of reference and information for those planning a career in the hospitality and tourism industries.

Local Economic Development Impacts of International Backpacker Tourism to Third World Destinations

The Messages of Tourist Art

Tourism knowledge extends across disciplines from the earth sciences through socio-economics and into the symbolic realm of literature and art. This e-book guides you through your fieldwork with practical activities to a better understanding of tourism knowledge. It is useful at university level for degrees in tourism management and heritage management. A main regional focus of the book is on Brittany and in particular Finistere for UK students embarking on their first fieldwork in France. ISBN 9781838096441

Iscontour 2013

Some researchers perceive tourism as a process which creates dependency and causes loss of socioeconomic and environmental control, and is harmful to traditional sociocultural structures. For others it is clearly an opportunity for development and convergence among societies. The main

consequences of tourism are economic, sociocultural and socio-ecological ones. These directly affect the natural and cultural landscape, as well as the inhabitants of the destinations. 'Proper management' can unite the local community; strengthen the historical memory and promote the recognition that the landscape is a legacy worth preserving. If local people can learn to appreciate the need for regulation and careful development of cultural tourism then it is possible to have an alternative to the strategies of convenience, based upon the view of tourism only for profit. Designing tourism to serve heritage and local sustainable development not only helps to conserve the resources that make it possible, but also complies with the ethical duty to guide social perception towards awareness and respect, which in turn will lead to sustainability. By means of case studies and theoretical developments, the authors attempt to present methods designed to minimise the impacts of tourism and encourage its positive effects. Some ideas in the book discuss the role of local communities, their participation in development management, the singularities of community tourism, planning, local governance and the relationship between socio-economic benefits and impacts.

The Journal of Tourism Studies

There is a complex relationship between the environment and the development of tourism, which this book discusses in a thorough and informative manner. Specialists from several disciplines pay attention to the challenges of sustainable tourism,

devoting their full attention to cultural, regional and policy issues. This is a revised edition that has been expanded to 22 contributions, with inclusion of the cultural element. All chapters have been updated to include new data and information added to the existing body of literature in the last seven years. It includes new developments and new insights into the relationship between tourism and the environment. An invaluable sequel to the first edition.

Rights of the Child in the Context of Tourism - A Compilation

Neither the tourism industry nor the tourist has responded convincingly to calls for more responsibility in tourism. Ethical consumption places pressure on travellers to manage a large number of decisions at a time when hedonic motivations threaten to override other priorities. Unsurprisingly, tensions occur and compromises are made. This book offers new insight into the motivations that influence tourists and their decision-making. It explores how consumers navigate the responsible tourism market place and provide a rich understanding of the challenges facing those seeking to encourage travellers to become responsible. Not only will the book provide an improved interpretation of the complexity of ethical consumption in tourism, but it will also offer a variety of stakeholders a deeper understanding of: the key challenges facing stakeholders in the production and consumption of responsible tourism how ethical consumers can be influenced to consume ethically the gaps in consumer knowledge and how to broaden the

Read Book Tourism Question Paper

appeal for individuals to make more informed ethical decisions how tour operators can respond to this emerging market by innovative product development how to design informative marketing communications to encourage a greater uptake for responsible holidays how destinations can tailor their products to the ethical consumer market how destination communities and management organisations can target responsible tourists through the provision of sustainable alternatives to mass-market holiday products. Written by leading academics from all over the world, this timely and important volume will be valuable reading for undergraduate and postgraduate students, researchers and academics interested in Tourism Ethics, Ethical Consumption and the global issue of Sustainability.
