The Tunnel

GENERAL RELATIVITY THEORY Einstein bridges / Podolsky/Rosen (Worm holes or gray hole) He extends the north over the void. Hangs up the earth over nothing... And he opened the abysm shaft, and from the shaft, smoke came out like the smoke from a big oven; and the sun and the air became dark because of the smoke from the shaft. And from the smoke lobsters came out over the earth... (Job. 26:7; Ap. 9:2) There are three types of cosmic bridges in the Universe, these are: 1. Gray holes; 2. Black holes; 3. White holes or quasars. What are the gray holes? The gray holes of the Universe are in the north magnetic pole of each planet of the Universe. Terrestrial scientists in their announcement of the "Worm Hole" of the General Relativity Theory already know by intuition the existence of those tunnels in each aster of the Universe. What are the black holes? From where the gravitational forces which act in its interior come from? The black holes are cosmic drains like tunnels, of short distance, which flow into other universe, in other dimensional level. A star is constituted by twenty five material spheres contained one into the other in different dimensional levels. In the explosion of a star, in the physical plan, its only disintegrated the sphere which corresponds to that plane, the others still occupy their original position, without being affected by the explosion. The magnetic forces which act and transform the black hole in a cosmic drain come from the masses of the twenty four spheres which, from another dimensional level, are still occupying the position of the star which exploded. It could be said the acting gravitational forces in the black hole come from, in another dimension, the soul of the star which died. The soul of the star is constituted by dark material.

The Rolling Stones

The brilliantly shocking story of the ultimate transplant from New York Times bestselling author Robert A. Heinlein. As startling and provocative as his famous Stranger in a Strange Land, here is Heinlein's awesome masterpiece about a man supremely talented, immensely old and obscenely wealthy who discovers that money can buy everything. Even a new life in the body of a beautiful young woman. Once again, master storyteller Robert A. Heinlein delievers a wild and intriguing classic of science fiction.

Tunnel in the Universe: Heaven Gate

"There is no such thing as luck. There is only adequate or inadequate preparation to cope with a statistical universe." ³/₄Robert A. Heinlein, from *Time Enough for Love*. *Be Prepared _ Or Die!* Bill Lerner travels with his father, stepmother and stepsister to colonize a Jovian moon in the process of being terraformed. Out here, self-reliance is the key to survival³/₄and Bill finds that his Boy Scout motto isn't merely a pretty saying. It's a necessary rule for survival! This is it: what we think is the best of the classic Robert Heinlein adventure novels that influenced a generation of engineers and space scientists and still set the heart racing and the mind afire! Anthem

Simply describes a variety of tunnels, how they are built and how they are used.

The Mole People

Argues that the human species is headed for extinction in the near future, and presents three principal elements the author believes are needed to put the Earth on the road to recovery, including the availability of reliable sources of energy to replace fossil fuels, a world culture of cooperation, and a monetary and banking system that gives government the financial flexibility to make the transition from an oil economy to something quite different.

The City of Ember

A never-before-published masterpiece from science fiction's greatest writer, rediscovered after more than half a century. When Joel Johnston first met Jinny Hamilton, it seemed like a dream come true. And when she finally agreed to marry him, he felt like the luckiest man in the universe. There was just one small problem. He was broke. His only goal in life was to become a composer, and he knew it would take years before he was earning enough to support a family. But Jinny wasn't willing to wait. And when Joel asked her what they were going to do for money, she gave him a most unexpected answer. She told him that her name wasn't really Jinny Hamilton---it was Jinny Conrad, and she was the granddaughter of Richard Conrad, the wealthiest man in the solar system. And now that she was sure that Joel loved her for herself, not for her wealth, she revealed her family's plans for him---he would be groomed for a place in the vast Conrad empire and sire a dynasty to carry on the family business. Most men would have jumped at the opportunity. But Joel Johnston wasn't most men. To Jinny's surprise, and even his own, he turned down her generous offer and then set off on the mother of all benders. And woke up on a colony ship heading out into space, torn between regret over his rash decision and his determination to forget Jinny and make a life for himself among the stars. He was on his way to succeeding when his plans--and the plans of billions of others--were shattered by a cosmic cataclysm so devastating it would take all of humanity's strength and ingenuity just to survive. The Tunnel

A group of students goes through the gate to an unknown planet for a two-to-ten-day final exam in Advanced Survival only to realize, after a period of fighting the elements and wildlife, that something has gone wrong with the gate and what was a brief survival exam has become an endless struggle for life. Reprint. 10,000 first printing.

To Hold Up the Sky

Wonder where to dive into Heinlein's justly famous adventure novels This is the place! The Stone clan is off to the asteroid belt to educate their brood and find a new life away from stuffy, bureaucratic Lunar City. But, as a great man once said, "There Isn't Any Such Thing As a Free Lunch." The Stones know that making a living in deep space and facing the dangers of exploration are the pioneer's great challenge^¾and the only path to a hopeful tomorrow for humankind! "Everything is theoretically impossible, until it is done. One could write a history of science in reverse by assembling the solemn pronouncements of highest authority about what could not be done and could never happen." ^¾Robert A. Heinlein, from The Rolling Stones. At the publisher's request, this title is sold without DRM (Digital Rights Management).

Tunnel Vision

This book is about the thousands of people who live in the subway, railroad, and sewage tunnels of New York City.

This Side of Brightness

Josh Stephenson's thirteenth year starts with a baffling sequence of events, including an odd gift from his estranged father, the arrival of his flirty seventeen-year-old female cousin, locker-room teasing about certain embarrassing anatomical changes, and wondering if dreams of love can ever come true.

When Neil Armstrong Built a Wind Tunnel

Tunnel in the Sky

When Frank and Joe set out to explore caves and tunnels, they dig themselves into some dark and dangerous trouble in this Hardy Boys adventure. When a sinkhole opens up and swallows one of Bayport's historic statues, Frank and Joe suspect something—or someone—shady at play. They jump at the chance to investigate; Joe as a member of an urban exploration club, and Frank as photographer for the school paper. But in the thick of their search, the boys stumble upon an entire underground city that's been abandoned for years. Now the city is home to a cultish band of criminals who plan to take over Bayport. Frank and Joe are determined to shut down the crooks, but after being barreled down by a boulder and nearly squashed by a runaway train, they have to wonder: are they in over their heads?

Engineering Psychology and Cognitive Ergonomics: Transportation systems

I Will Fear No Evil

As young archaeologist Will Burrows continues to search for his lost father in the strange underground world he has discovered beneath the city of London, he stumbles across a sinister plot with terrible implications for the world above.

The message had seemed simple, yet it was more complex than Don could have imagined. He was being called from Earth to an alien world for reasons unknown^{3/4}save only that his life depended on it. But setting out for Mars and getting there in good shape turned out to be a lot more complicated than Don ever would have guessed possible. It was trouble enough being inexplicably hounded by Earth's secret police. But when he was hijacked by Venusian rebels, Don suddenly

realized that he was trapped in the center of a war between worlds that could change the fate of the Solar System forever! At the publisher's request, this title is sold without DRM (Digital Rights Management).

Tunnel Thru The Air Or Looking Back From 1940

Equality 7-2521 finds himself out of step with the collectivist society of the future, and discovers a means to freedom in Ayn Rand's fable of the individual in conflict with society. First published in 1938, Anthem takes place in a dystopian future world in which humanity is enduring a new dark age, human life is regimented in every respect and personal identity has been all but snuffed out by a totalitarian government. The narrator, writing his story in secret, realizes he is a criminal simply for having thoughts of his own. Exploring the ruins of a previous civilization he discovers relics, conducts forbidden experiments and learns enough to question the very structure of his society. Can he share this knowledge with his fellow citizens? The author strips the relationship of humanity to civilization down to its bare essence in this modern parable that starkly illuminates the challenge an oppressive government presents to individuality. With an eye-catching new cover, and professionally typeset manuscript, this edition of Anthem is both modern and readable.

The Star Beast

At the turn of the twentieth century, Nathan Walker comes to New York City to take the most dangerous job in the country: digging the tunnel far beneath the Hudson that will carry trains from Brooklyn to Manhattan. In the bowels of the riverbed, the workers - black, white, Irish and Italian - dig together, the darkness erasing all differences. But above ground, the men keep their distance until a dramatic accident on a bitter winter's day welds a bond between Walker and his fellow workers that will both bless and curse three generations. Almost ninety years later, Treefrog stumbles on the same tunnels and sets about creating a home amongst the drug addicts, alcoholics, prostitutes and petty criminals that comprise the forgotten homeless community.

Tunnel in the Sky

Three teenagers and an older scientist develop their own atomic rocket, solve their own space problems and blast off for the moon in spite of mysterious setbacks.

Harley in the Sky

"Astronaut Neil Armstrong couldn't be held down by Earth's gravity. As the first person to step foot on the moon, Neil took the US space program to new heights. But before he did that, he had humble boyhood jobs-cutting lawns, cleaning ovens, washing airplanes-and plenty of adventures, including building a wind tunnel in his parents' basement! This playful story shows young readers that not even the sky is the limit for their own dreams."--Publisher's description.

Fish in the Sky

In 1945, thirteen-year-old Levi is sent to find the father he has not seen in three years, going from Chicago, to segregated North Carolina, and finally to Pendleton, Oregon, where he learns that his father's unit, the all-Black 555th paratrooper battalion, will never see combat but finally has a mission. Includes historical notes.

Requiem

In this inspirational masterpiece about the role of the human being in the universe, finance trader and author W. D. Gann uses the Bible to explore the secret to successful living. Through direct teachings from the Bible, the reader may learn how to understand, obey and apply the universal laws revealed in the Bible in order to bring about his own latent talents and powers, and in turn be firmly set on the road towards health, happiness and prosperity.

Variable Star

One of the great short novels of the twentieth century—in an edition marking the 100th anniversary of the author's birth. An unforgettable psychological novel of obsessive love, *The Tunnel* was championed by Albert Camus, Thomas Mann, and

Graham Greene upon its publication in 1948 and went on to become an international bestseller. At its center is an artist named Juan Pablo Castel, who recounts from his prison cell his murder of a woman named María Iribarne. Obsessed from the moment he sees her examining one of his paintings, Castel fantasizes for months about how they might meet again. When he happens upon her one day, a relationship develops that convinces him of their mutual love. But Castel's growing paranoia leads him to destroy the one thing he truly cares about. For more than sixty-five years, Penguin has been the leading publisher of classic literature in the English-speaking world. With more than 1,500 titles, Penguin Classics represents a global bookshelf of the best works throughout history and across genres and disciplines. Readers trust the series to provide authoritative texts enhanced by introductions and notes by distinguished scholars and contemporary authors, as well as up-to-date translations by award-winning translators. From the Trade Paperback edition.

Contains original and previously uncollected works and speeches by the master of science fiction, including two major novellas--Destination Moon and Tenderfoot in Space--and contributions by other writers in the genre. Reprint.

Red Planet

The signs are everywhere. Jory's stepfather, Caleb, says. Red leaves in the springtime. Pages torn from a library book. All the fish in an aquarium facing the same way. A cracked egg with twin yolks. Everywhere and anywhere. And because of them, Jory's life is far from ordinary. He must follow a very specific set of rules: don't trust anyone outside the family, have your work boots at the ready just in case, and always, always watch out for the signs. The end is coming, and they must be prepared. School is Jory's only escape from Caleb's tight grasp, and with the help of new friends, he begins to explore a world beyond his family's desert ranch. As Jory's friendships grow, Caleb notifies Jory's mother and siblings that the time has come for final preparations. They begin an exhausting schedule, digging a shelter where they will live until the disaster is over. But as the hole gets deeper, so does the family's doubt about whether Caleb's prophecy is true. When the stark reality of what it will mean to live underground becomes clear, Jory must choose between living his own life or following behind Caleb, shutting his eyes to the bright world he's just begun to see.

Stranger in a Strange Land

“Earnest, poetic.” —Booklist “Raw, engaging.” —Kirkus Reviews The Greatest Showman meets This Is Us by way of Sarah Dessen in this heart-wrenching, hopeful contemporary novel about a multiracial teen who risks it all to follow her dreams by joining the circus, from the award-winning author of Starfish. Harley Milano has dreamed of becoming a trapeze artist for as long as she can remember. With parents who run a famous circus in Las Vegas, she spends almost every night in the big top watching their lead aerialist perform, wishing with all her heart and soul that she would be up there herself one day. After a huge fight with her

parents, who continue to insist she go to school instead, Harley leaves home, betrays her family, and joins the rival traveling circus Maison du Mystère. There, she is thrust into a world that is both brutal and beautiful, where she learns the value of hard work, passion, and collaboration. At the same time, Harley must come to terms with the truth of her family and her past—and reckon with the sacrifices she made and the people she hurt in order to follow her dreams. From award-winning author Akemi Dawn Bowman comes a luminous, unforgettable examination of love, loyalty, and the hard choices we must make to find where we truly belong.

Jump Into the Sky

Before the Tea Party, the Coffee Party, the "Occupy" movement, Ross Perot or even the Libertarian Party, there was Robert Heinlein, a prophetic mastermind, calling to the people to organize in a grassroots movement to take back their government and to find an effective voice for their individual selves. *** Originally titled *How to be a Politician*, the book was written in 1946 based on Heinlein's own political experiences, in particular his efforts on behalf of Upton Sinclair to become the governor of California and for Sinclair's landmark effort to End Poverty in California (EPIC). *** Though Heinlein is best known for his science fiction work, he always had strong political views and often involved himself with various causes, including personally paying for advertisements in newspapers propagating his views.*** Here is a fascinating look, both historically and philosophically, at a great visionary's take on the political landscape in the United States, and what each of us can do to better this country.

Half Way Home

LummoX has been the pet of the Stuart family for generations. With eight legs, a thick hide and huge (and growing) size, LummoX is nobody's idea of man's best friend. Nevertheless, John Stuart XI, descendant of the starman who originally brought LummoX back to Earth from a distant planet, loves him. John isn't about to let the authorities take his pet away and, with his best friend Betty, determines to save LummoX even if it takes leaving the life he's known forever. However, what John and Betty don't realize is that the survival of the Earth itself may depend on the true nature of The Star Beast. An all-time great science fiction coming-of-age classic from seven-time Hugo winner and Dean of Science Fiction, Robert A. Heinlein. At the publisher's request, this title is sold without DRM (Digital Rights Management).

Dig a Tunnel

Beneath the Neon: Life and Death in the Tunnels of Las Vegas chronicles O'Brien's adventures in subterranean Las Vegas. He follows the footsteps of a psycho killer. He braces against a raging flood. He parties with naked crackheads. He learns how to make meth, that art is most beautiful where it's least expected, that in many ways, he prefers underground Las Vegas to aboveground Las Vegas, and that there are no pots of gold under the neon rainbow.

Off the Main Sequence

Nearly sixty teens awaken halfway through their training, stranded on a harsh alien world with few supplies, no adults, and led by a treacherous artificial intelligence, but their greatest enemy is each other.

Tunnel Vision

Romance and action come crashing together in Susan Adrian's Tunnel Vision in which a teenage boy with incredible powers is brought to the attention of the government. Jake Lukin just turned 18. He's decent at tennis and Halo, and waiting to hear on his app to Stanford. But he's also being followed by a creep with a gun, and there's a DARPA agent waiting in his bedroom. His secret is blown. When Jake holds a personal object, like a pet rock or a ring, he has the ability to "tunnel" into the owner. He can sense where they are, like a human GPS, and can see, hear, and feel what they do. It's an ability the government would do anything to possess: a perfect surveillance unit who could locate fugitives, spies, or terrorists with a single touch. Jake promised his dad he'd never tell anyone about his ability. But his dad died two years ago, and Jake slipped. If he doesn't agree to help the government, his mother and sister may be in danger. Suddenly he's juggling high school, tennis tryouts, flirting with Rachel Watkins, and work as a government asset, complete with 24-hour bodyguards. Forced to lie to his friends and family, and then to choose whether to give up everything for their safety, Jake hopes the good he's doing—finding kidnap victims and hostages, and tracking down terrorists—is worth it. But he starts to suspect the good guys may not be so good after all. With Rachel's help, Jake has to try to escape both good guys and bad guys and find a way to live his own life instead of tunneling through others.

Take Back Your Government

The original uncut edition of STRANGER IN A STRANGE LAND by Hugo Award winner Robert A Heinlein - one of the most beloved, celebrated science-fiction novels of all time. Epic, ambitious and entertaining, STRANGER IN A STRANGE LAND caused controversy and uproar when it was first published and is still topical and challenging today. Twenty-five years ago, the first manned mission to Mars was lost, and all hands presumed dead. But someone survived. Born on the doomed spaceship and raised by the Martians who saved his life, Valentine Michael Smith has never seen a human being until the day a second expedition to Mars discovers him. Upon his return to Earth, a young nurse named Jill Boardman sneaks into Smith's hospital room and shares a glass of water with him, a simple act for her but a sacred ritual on Mars. Now, connected by an incredible bond, Smith, Jill and a writer named Jubal must fight to protect a right we all take for granted: the right to love.
