Co-teaching is a popular service delivery model for students who are entitled to special education or other specialized services, such as support services for English learners. Evidence shows that the implementation of co-teaching is significantly associated with improved student outcomes. However for co-teaching to be effective, teachers need to thoroughly understand what the arrangement entails and what it takes to make co-teaching work. In this quick-reference laminated guide, Dr. Marilyn Friend, a renowned authority on co-teaching, provides educators with an overview of the fundamental “what,” “why,” and “how” of co-teaching,

and Dennis Leaver, and a superior review for the certification exam offered by the American Registry for Radiologic Technology (ARRT). An easy-to-read format simplifies study by presenting information in concise bullets and tables. Over 1,000 review questions are included. Written by radiation therapy expert Leia Levy, with contributions by other radiation therapy educators and clinicians, this study tool provides everything you need to prepare for the ARRT Radiation Therapy Certification Exam. This title includes additional digital media when purchased in print format. For this digital book edition, media content is not included. Over 1000 multiple-choice questions in Registry format are provided in the text, allowing you to both study and simulate the actual exam experience. Focus questions and key information in tables make it easy to find and remember information for the exam. Review exercises reinforce learning with a variety of question formats to fit different learning styles. Questions are organized by ARRT content categories and are available in study mode with immediate feedback after each question, or in exam mode, which simulates the test-taking experience in a timed environment with ARRT exam-style questions.

Paul Fisher sees the world from behind glasses so thick he looks like a bug-eyed alien. But he's not so blind that he can't see there are some very unusual things about his family's new home in Tangerine County, Florida. Where else does a sinkhole swallow the local school, fire burn underground for years, and lightning strike at the same time every day? The chaos is compounded by constant harassment from his football-star brother, and adjusting to life in Tangerine isn't easy for Paul—until he joins the soccer team at his middle school. With the help of his new teammates, Paul begins to discover what lies beneath the surface of his strange new hometown. And he also gains the courage to face up to some secrets his family has been keeping from him for far too long. In Tangerine, it seems, anything is possible.
