Austin Carr is a homeless stockbroker. Sort of. He's a salesman. Living on 100% commission during a recession and with child support payments can lead to getting kicked out of your apartment, having your car repossessed and living in a camper. Not even a real camper. A beat up old pickup with one of those camper toppers on it. Which he parks in the lot at Luis's Mexican Restaurant where he also takes advantage of the shower in the employee dressing

room. His biggest client has health issues, the client's wife is coming on to him, another client is super pissed about an investment and wants to get revenge, and his supervisor is ready to take him down by any means necessary. Determined to make enough money to meet the child support payments and get to see his kids again, Austin gets mixed up with a redhead which leads to illegal bond and money transfers and in the course of less than two weeks is run down by a car, beat up, his manager tries to shoot him, is buried in sand at the water's edge with the tide coming in, then he's kidnapped and finally becomes the victim of attempted murder by Bluefin (yes, the fish). And when he sneaks in to watch his daughter's swim meets, Austin wears nothing but a speedo.

An Introduction to Child Language Development

On 29 March 1945, Orwell's wife Eileen died, aged 39. Her last, long, very moving letters to her husband are printed here. Less than six months later the novel that she might be said to have nurtured and which gave Orwell world-wide fame, *Animal Farm*, was published. For a little over three months Orwell worked as a War Correspondent for the *Observer* and the *Manchester Evening News*. As well as 74 books specifically reviewed, many others were discussed briefly in essays and in her column 'As I Please'. 'Politics and the English Language', one of Orwell's most important essays, was immediately reprinted for journalists of the *Observer* and *News of the World* as a guide to good writing. His defence of P.G. Wodehouse, printed here, was written at a time when Wodehouse was still under a cloud. Essays and articles he wrote for the *Observer*, *Manchester Evening News* and *Evening Standard* are reprinted; correspondence shows he had written the first twelve pages of *Nineteen Eighty-Four*. Eileen's will and

Orwell's first notes for his literary executor are also reproduced. Orwell kept a careful account of what he earned to assist in making his income tax return. Only one such record has survived (for 12 July 1943 to 31 December 1945) and it is reproduced here, fully annotated.

An Introduction to Foreign Language Learning and Teaching

A pregnancy pact between three teenaged girls puts their mothers' love to the ultimate test in this explosive new novel from Barbara Delinsky, “a first-rate storyteller who creates characters as familiar as your neighbors.” (Boston Globe) When Susan Tate's seventeen-year-old daughter, Lily, announces she is

pregnant, Susan is stunned. A single mother, she has struggled to do everything right. She sees the pregnancy as an unimaginable tragedy for both Lily and herself. Then comes word of two more pregnancies among high school juniors who happen to be Lily's best friends-and the town turns to talk of a pact. As fingers start pointing, the most ardent criticism is directed at Susan. As principal of the high school, she has always been held up as a role model of hard work and core values. Now her detractors accuse her of being a lax mother, perhaps not worthy of the job of shepherding impressionable students. As Susan struggles with the implications of her daughter's pregnancy, her job, financial independence, and long-fought-for dreams are all at risk. The emotional ties between mothers and daughters are stretched to breaking in this emotionally wrenching story of love and forgiveness. Once again, Barbara Delinsky has given us a powerful novel, one that asks a central question: What does it take to be a good mother? From the Hardcover edition.

Handbook of Commercial Catalysts

So much writing about architecture tends to evaluate it on the basis of its intentions: how closely it corresponds to the artistic will of the designer, the technical skills of the builder, or whether it reflects the spirit of the place and time in which it was built, making it not much more than the willful (or even subconscious) assemblage of objects that result from design and construction techniques. Renowned writer and thinker David Leatherbarrow, in this groundbreaking new book, argues for a richer and more profound, but also simpler, way of thinking about architecture, namely on the basis of how it performs. Not simply how it functions, but how it acts, "its manner of existing in the world," including its

effects on the observers and inhabitants of a building as well as on the landscape that situates it. In the process, Leatherbarrow transforms our way of discussing buildings from a passive technical or programmatic assessment to a highly active and engaged examination of the lives and performances, intended and otherwise, of buildings.

Meet Detective Sergeant Alicia Friend. She's nice. Too nice to be a police officer, if she's honest. Now assigned to DI Donald Murphy's team, the annoyingly-perky detective finds herself in the grip of a northern British winter, investigating the kidnap-murders of two young women - both strikingly similar in appearance. When a third is taken, they have less than a week to chip away the secrets of a high-society family, and uncover the killer's objective. But Richard - the father of the latest victim - believes the police are not moving quickly enough, so launches a parallel investigation, utilising skills honed in a dark past that is about to catch up with him. As Richard's secret actions hinder the police, Alicia remains in contact with him, and even starts to fall for his charms, forcing her into choices that will impact the rest of her life. For a chilling serial killer thriller with a quirky main character, pick up *His First His Second* today!

>>> Reviews CrimeFictionLover.com "An intriguing mix of police procedural and serial killer thriller, that will tease, involve and unnerve you. An entertaining and intriguing debut." Undercover Book Reviews: "Want a

book with twists and turns? This is the one. It will not disappoint.”

AUTHOR Q&A

Q: Alicia Friend is kind of an oddball, isn't she? A: I'd say she's unique. She knows who she wants to be and she doesn't compromise, but most police officers she meets are dour and grumpy, and she sees how that impacts their personal lives. She doesn't want to be as hard-nosed as many women sleuths in fiction, so radiates the sort of perkiness that sometimes grates on her fellow officers. But it's who she is.

Q: Despite having a quirky woman sleuth as main character, the novel goes to some dark places. A: Yes. I found that at one point I was trying to include ALL my research, and I'm really aiming for a thrill ride as much a straight police procedural. I originally included the sort of forensic details you get with Patricia Cornwell or Kathy Reichs, but it wasn't right for this book. I keep it as accurate as possible, but it's about the characters and how they uncover secrets, both externally and within the police.

Q: So who is your ideal reader? A: Fans of serial killer books in general. If you like James Patterson, PJ Tracy or Steven James, Mark Billingham or Ian Rankin, Alicia Friend's series could be worth checking out.

Q: What levels of violence and bad language are there? A: Some of the violence is graphic, but the language that goes as strong as references to one's posterior and some faecal synonyms, if you get my meaning. No "F" or "C" words, as I don't think Alicia's audience appreciates that.

Q: And how, exactly, do you come up with a character like Alicia? A: She is based on a real person. But very loosely. The essence is there, although I had to invent certain aspects for dramatic effect. The parts from real life are: a ditzy, perky outer shell, yet

possesses a fierce intelligence, true dedication, and being brilliant at her job. Q: So the real Alicia Friend isn't a serving police officer? A: No, she isn't. And if she was, I certainly wouldn't say so here. Alicia Friend Books In Order: His First His Second In Black In White With Courage With Fear A Friend in Spirit To Hide To Seek A Flood of Bones

Introduction to English Sociolinguistics

Phonetics is the scientific study of sounds used in language- how the sounds are produced, how they are transferred from the speaker to the hearer and how they are heard and perceived. The Sounds of Language provides an accessible, general introduction to phonetics with a special emphasis on English. Focusing on the phonetics of English, the first section allows students to get an overall view of the subject. Two standard accents of English are presented- RP (Received Pronunciation), the standard accent of England, and GA (General American), the standard accent throughout much of North America. The discussion is arranged so that students can read only the RP or GA portions, if desired. Sixteen additional accents of English spoken around the world are also covered to provide students with wider international coverage. The author then moves on to

introduce acoustics phonetics in an accessible manner for those without a science background. The last section of the book provides a detailed discussion of all aspects of speech with extensive examples from languages around the world. Containing student-friendly features such as extensive exercises for practising the sounds covered in each chapter; a glossary of technical terms; instructions on how to write phonetic symbols; the latest International Phonetic Alphabet chart and a detailed list of English consonantal variants, *The Sounds of Language* provides an excellent introduction to phonetics to students of linguistics and speech pathology and students of English as a second language.

Not My Daughter

This volume introduces the field of child language development studies, and presents hypotheses in an accessible, largely non-technical language, aiming to demonstrate the relationship between these hypotheses and interpretations of data. It makes the assumption that having a theory of language development is as important as having reliable data about what children say and understand, and it advocates a combination of both 'rationalist' and more 'empiricist' traditions. In fact, the author overtly argues that different traditions provide different pieces of the picture, and that taking any single approach is unlikely to lead to productive understanding. Susan Foster-Cohen explores a range of issues, including the nature of prelinguistic communication and its possible relationship to linguistic development; early stages of language development and how they can be viewed in the light of later developments; the nature and role of children's experience with the language(s) around them; variations in language development due to both pathological and non-pathological differences between children, and (in the latter case) between the languages they learn; later oral language development; and literacy. The approach is distinctly psycholinguistic and linguistic rather than sociolinguistic, although there is significant treatment of issues which intersect with more sociolinguistic concerns (e.g. literacy, language play, and bilingualism). There are exercises and discussion questions throughout, designed to reinforce the ideas being presented, as well as to offer the student the opportunity to think beyond the text to ideas at the cutting edge of research. The accessible presentation

of key issues will appeal to the intended undergraduate readership, and will be of interest to those taking courses in language development, linguistics, developmental psychology, educational linguistics, and speech pathology. The book will also serve as a useful introduction to students wishing to pursue post-graduate courses which deal with child language development.

The Dishonorable Miss Delancey

Wall Street's miasmal garbage washes up on the Jersey Shore when a small time broker falls in love: Is he attracted to the beautiful lady — or her brother's inside information? Held spellbound by a steamy, auburn-haired woman with a dubious past and a get-rich-quick, insider trading scheme, Austin Carr knocks down a beehive of bad-acting Bonacellis, including the ill-tempered "Mr. Vic" Bonacelli, who wants his redhead back, and local mob lieutenant Angelina "Mama Bones" Bonacelli, architect of a strange and excruciating death trap for the fast-talking stockbroker she calls smarty pants. To survive, Austin must unravel threads of jealousy, revenge and new affections, discover the fate of a pseudo ruby called the Big Mojo and slam the lid on a pending United

States of America vs. Austin Carr insider trading case. Can Austin and his Jersey Shore mouthpiece possibly out maneuver the savvy U.S. District Attorney from Manhattan? Will anything matter for Austin ever again if Mama Bones flips that switch? Praise for BIG MOJO ... “Darkly comic and always entertaining — with an outrageous cast of characters including a scheming grandmother and a mysterious redhead. Our engaging hero, fueled by honor and passion, does the best he can in a world where the bad guys seem determined to do him in. Gordon Gekko meets Janet Evanovich in this wry and winning caper — Jack Getze does it again!” — Hank Phillippi Ryan, Agatha, Anthony and Mary Higgins Clark Award winning author of Truth Be Told “If Jack Getze’s Austin Carr novels aren’t on your must-read list, you don’t know what you’re missing. Austin Carr’s that buddy your wife doesn’t like you to hang out with. Fast-talking, wisecracking, and hard-living, he’s the type of guy who swears he’s only ever looking for a good time, and yet every night out with him seems to end in a fight. But you can’t deny he’s got heart — and BIG MOJO is Carr’s most epic adventure yet. It’s got frame-ups. Insider trading. Stolen jewels. Double-crosses. Triple-crosses. Love potions. Gunplay. And enough outsized characters it could only take place in the great state of New Jersey. So pick it up. Give it a read. But maybe tell the missus you’re hanging out with someone else.” — Chris F. Holm, author of the Collector Series “There’s no way you can lose with an Austin Carr novel with a gorgeous redhead, a character with the moniker of “Mama Bones”, a double-crossing business partner, more bad guys than can be seen in one place outside of the White House,

and Austin's smart mouth that surely he learned by reading lots of Robert B. Parker's character Spenser ... A truly rollicking, fun, action-filled read with more twists than a fevered revival of Hula Hoop fanatics at a Jersey Shore ballroom ... And then, there's that redhead. Always that redhead ... " — Les Edgerton, author of *The Genuine, Imitation, Plastic Kidnapping* and others "The irrepressible Austin Carr is back, and he's sly and sardonic as ever. When a top-secret weapon goes missing on Colonel Maggie Black's watch, her honor and her career are on the line. There were airmen who said the Air Force's best female combat pilot would never be the same after losing her arm in Iraq, but state-of-the-art prosthetics have made Maggie better than new, and she's not about to lose what she battled so hard to regain. But finding her experimental missile won't be easy—thanks to the revenge-fueled ambitions of Asdrubal Torres, whose hallucinatory encounter with the Great Spirit challenges him to refill Lake Cahuilla, the ancient inland sea that once covered much of Southern California. To fulfill his blessed mission, Torres needs wizardry and weaponry, and the Great Spirit provides both: Magic, in the form of a celebrated shaman's basket returned to the tribal museum by San Diego reporter Jordan Scott; Might, in the form of Maggie Black's top-secret weapon that falls from the sky. From that moment, it's a race against time for Maggie and Jordan, who together must stop Torres from destroying Hoover Dam—and turning the Colorado River into a tsunami that would kill hundreds of thousands and wipe out the Southwest's water supply. In the final showdown, it's Maggie who must disarm the stolen missile's trigger—one-handed or not—and save the day.

The Seventh Sense

Danny Wallace has friends. He has a wife and goes to brunch, and his new house has a couch with throw

pillows. But as he nears 30, he can't help wondering about his best childhood friends, whose names he finds in a long-forgotten address book. Where are they now-and where, really, is he? Acting on an impulse we've all had at least once, he travels from London to Berlin, Tokyo, Australia, and California, risking rejection and ridicule to show up on his old pals' doorsteps. Memories of his 1980s childhood-from Michael Jackson to Ghostbusters-overwhelm him as he meets former buddies who have blossomed into rappers and ninjas, time-traveling pioneers, mediocre restaurant managers, and even Fijian royalty. Danny's attempt to re-befriend them all gives remarkable new resonance to the age-old mantra, "friends forever!"
