We are committed to providing woodworkers like you with the most accurate and up-to-date plans and information -- including new ideas, product and tool reviews, workshop tips and much, much more.

Questions and Answers from the American Machinist

'Machine Woodworking' provides students with all the basic information needed to reach NVQ level II in wood machining. It covers calculations, timber science, and all the relevant machines, and is completed by five simple workshop projects which can be used to practice and test the necessary skills. The use of each machine is explained, with ample diagrams and photographs where appropriate, and each section is rounded off with the relevant regulations and additional multiple-choice questions to test understanding.

150 Gluing Questions and Answers

This two-volume series provides building craft students with complete coverage of the CGLI 585 syllabus to craft certificate level.

The Complete Manual of Woodworking

Readers will find out how to set prices and sell their products with this revised, comprehensive pricing guide from author and woodworker Dan Ramsey. They'll learn how to calculate the value of their time, materials and craftsmanship, ensuring that the price they get for their work is fair and profitable. They'll also find a wide variety of sample business forms and planning sheets, along with information on: * estimating average materials cost per project * determining the dollar value of their woodworking skills * increasing their income without sacrificing quality or enjoyment * selling customers on the value of their work--not the price * building repeat and referral business * developing the right business image and marketing plan * managing a budget * marketing their work at craft fairs and through retailers Dan Ramsey is the author of over forty home improvement and how-to titles. He lives in Reedsport, Oregon.
