These Are the Days That Must Happen to You

Motorcycles, the open road, cruising; all things associated with this powerful locomotive are detailed in this marvelous history of a stunning vehicle. Humanity is capable of many wonderful things, but the art of making motorcycles is arguably not its greatest achievement. Throughout history there have been far more pressing needs than the desire to get from A to B more quickly and more pleasurably than anyone else. And yet, thousands of entrepreneurs have gravitated to the motorcycle industry: scratch any of them, and one will most likely find an enthusiast beneath the skin. Why else would anyone be willing to risk time and money in a business notorious for its glorious failures?

The Ultimate History of Fast Bikes

For decades the crown jewels of Japan's postwar manufacturing industry, motorcycles remain one of Japan's top exports. Japan's Motorcycle Wars assesses the historical development and societal impact of the motorcycle industry, from the influence of motor sports on vehicle sales in the early 1900s to the postwar developments that led to the massive wave of motorization sweeping the Asia-Pacific region today. Jeffrey Alexander brings a wealth of information to light, providing English translations of transcripts, industry publications, and company histories that have until now been available only in Japanese. By exploring the industry as a whole, he reveals that Japan's motorcycle industry was characterized not by communitarian success but by misplaced loyalties, technical disasters, and brutal competition.

Datsun 280Z & 280ZX

A New Chapter

Datsun's initial offerings were fairly conventional family cars, but with the introduction of the 240Z in 1969 the marque's image received a massive boost. It was a runaway success, outselling every European sports car model in the lucrative North American market. The 280Z arrived in 1975 followed by the 280ZX in 1978 and sales of the 280ZX had reached over 446,000 units by the time production came to an end in 1983. 44 international articles include road, track and comparison tests, a service guide plus full technical and performance data.

The South Australian Government Gazette

Despite their attraction, Emma and Zack decide to be "just friends," but soon discover that staying in the friend zone is easier said than done! Sometimes love comes along when you least expect it, but when will Emma be ready to trust her heart again? How will she know when the time is right to begin A New Chapter?

"Riding a bike removes the need for clutter, toys, rubbish that other men have to take on holiday. If I want adrenaline, I'll rush a giddy overtake, not rent a jet ski."The world through the eyes of Dan Walsh is never less than Technicolor, and always uninhibited, rebellious and on the edge. Not since the days of Jupiter's Travels has one man embarked on such an angry, narcotic-fuelled bike trek around the world."For me, Chile will always be South America's supermodel sister - very beautiful but too long, too skinny, and too expensive to ride, and despite the groovy exterior, unpleasantly right-wing underneath."Dan has travelled the length and breadth of the world on his BMW F650 GS Dakar. Along the way he's visited Buenos Aires, where 'revolutionary' means the angry poor invading the presidential palace, not a really small phone that's also a camera. He's been mistaken for a bum in New York, bashed by deadly tequila in Mexico, contracted typhoid in a dilapidated Bolivian hotel, and visited The Most Beautiful Road in the World in Peru."I get my bum pinched by a tranny, my pocket picked by a grifter and get a

gun pulled on me by a one-eyed, one-armed midget who's upset cause I winked at him. These are the days that must happen to you."Soaked in adrenaline and coruscatingly funny, Dan Walsh is the rightful heir to Ted Simon as the pre-eminent biker-rebel of our generation.

Das Schweizer Buch

A definitive guide to BMW's high-performance classic coupes, tracking their rising success from 1965 to 1989. After the doldrums of the post-war years, BMW had felt the need for a flagship grand touring coupe. The 507 of the late 1950s and the

3200 CS that replaced it in the early 1960s may not have made much money for the company, but they were a reminder of its aspirations. Then in 1964, a striking new coupe emerged from the building blocks of the latest saloon car range. The 2000 and 2000 CS, with their feisty 2-litre 4-cylinder engines, were the affordable foundation on which BMW was able to build its next generation of coupes - and what formidable machines those were! This definitive guide covers BMW's high-performance classic coupes, tracking their rising success from 1965 to 1989 and includes full specification guides, production histories and original photography. Topics covered include: BMW's hand-built coupes of the 1950s and the first volume-built models; the mainstream E9 range, with new engines and revised front-end styling; racing success for the 'Batmobile' CSLs, including six wins at the European Touring Car Championship from 1973 to 1979; engineering and development of the luxury E24 range; tuned and modified coupes, including the rare custom convertibles. Fully illustrated with 234 colour photographs.

It's About Time by Erin McCarthy County prosecutor Trish Jones has had it with smooth-talking, under-performing suits. And though she's never had a thing for big, brawny guys, one look at Caleb Vancouver's bulges makes her think she might have been missing out. One Harley ride later they're back at her place, and she realizes that she has been missing out . . . on quite a lot . . . Wish You Were Here by Amy Garvey Photographer Mackenzie Pruitt knows exactly what she wants her future to look like, and this summer that means renovating a dilapidated shed into a studio.
